Gold Windfarm proposal ID no.SSD9679 SUBURB:

REASON FOR OBJECTION:

The Hills of Gold are not the right location for a windfarm. My Point is as follows:

1. The environmental impact is too great. The destruction of habitat of our native animals including Koala's which we have both seen up here will be catastrophic.
2. 156 daily truck movements passed my home will impact my own personal health & well being. We moved to Hanging Rock to a quiet life after living on one of Newcastle's busiest roads. I do not want to hear "But it's only 2 years". That is not the point. Two years of major impact to our daily life.
3. We already have to deal with damaged roads that on a daily basis get ripped up by trucks.
4. The destruction of trees both in Nundee village and to make a road up to the ridgeline will be far too great and then the visual impact of those wind turbines in place of trees.
5. This whole thing is being pushed by a few people who will benefit financially with absolutely no regard for others that this major disruption to their lives will have.
