I would like to state my objection to Hills of Gold Wind Farm Amended Development Application.

The roads cannot cope with the proposed 311 extra light and heavy vehicle movements through Nundle and Hanging Rock.

The roads from the New England Highway to Hanging Rock are already dangerous and causing damage to cars. We cannot afford to add more loads to the roads.

The raised road proposed behind the pub will ruin the entrance to Nundle, the planned tree removal is an insult to past generations, and demolishing a house adds to Nundle's housing shortage.

The 64 wind turbines on the range would completely change the character of Nundle and Hanging Rock from a gold rush heritage area to an industrial zone.

This proposal has been imposed on the community and the local majority and Tamworth Regional Council have said no.

Engie should withdraw its project and get on with renewables in less steep terrain.
