Dear Sam,

In reference to Notice of Exhibition - Sydney Terminal Building Revitalisation (SSI-45421960)

Ausgrid would like to thank you for seeking input and feedback regarding the Environmental Impact Statement (EIS). Ausgrid has undertaken a review of the EIS and associated information in relation to potential impacts or interfaces with Ausgrid's electricity infrastructure.

Ausgrid requires that due consideration be given to the compatibility of proposed development with existing Ausgrid infrastructure, particularly in relation to risks of electrocution, fire risks, Electric & Magnetic Fields (EMFs), noise, visual amenity and other matters that may impact on Ausgrid or the development.

The proponent has not addressed the utility requirements in the EIS and has not assessed the impacts of the proposal on existing electrical infrastructure or how any potential impacts would be managed.

Please do not hesitate to contact me for further information.

Regards,

A handwritten signature in black ink, appearing to read "Paul Nakhle", with a long horizontal stroke extending to the right.
