I object to the proposal on the basis that Neringah Avenue could not cope with the additional traffic that would result from the proposed development. The street is too narrow, the road at the bottom to the north into which it leads (Warwilla Avenue), is bumper to bumper morning and afternoon with children being dropped at and collected from Abbotsleigh Junior School in Woonona Avenue.

The traffic generated by the recent changes to roads surrounding Wahroonga shopping village and the fact that the only access to turn right (west) on to the Pacific Highway from the entire area (from Coonanbarra Road) is closed for six hours a day, should also be taken into consideration.
