Dear Tony,

**Re : OpalCare Narwee  
Roof Mounted Services Accommodation**

The services requirements for the building have been assessed and equipment concepts determined for Mechanical, Hydraulic, Electrical and Lift services.

The spatial provisions indicated for accommodating the roof mounted equipment are adequate for the systems as designed and in this regard will not increase.

The systems have also been assessed based on acoustic consultant advice with required acoustic screening indicated architecturally.

Yours faithfully,  
Donnelley Simpson Cleary Consulting Engineers Pty Ltd
