Subject: FW: Major Projects – New Request for Advice - (SSI-8609189-Mod-2) (Penrith, Canterbury-Bankstown, Wollondilly Shire, Liverpool City, Fairfield City)
Date: [REDACTED]

Hi Nathan,

Fairfield City Council is in receipt of the request for advice on the proposed modification to the approved Upper South Creek Advanced Water Recycling Project.

The modification involves the realignment of the pipeline throughout various LGAs including a minor alignment along Bartley Street in the Fairfield LGA. The realignment will now be located across the southern boundary of the road and no other realignments are proposed within the Fairfield LGA. The purpose is to enable more efficient construction and reduce the duration of construction traffic impact in the area.

The Report provided for the modification mentions no further impacts to the original proposal except for the potential noise and vibration during construction phase that will slightly increased at 2A St Johns Road. The existing management measures presented in the Noise Vibration Impact Assessment would however still apply.

Based on this, Council has no objections.

If you have any questions regarding the above, please feel free to contact me. I will save this advice onto the Major Projects planning portal.

Kind regards,

Kerren Ven
