Dear Sir/Madam,

**RE: SUBMISSION IN RESPONSE TO THE ENVIRONMENT
IMPACT STATEMENT OF THE HUMELINK PROJECT**

I hereby submit this response to the HumeLink Environmental Impact Statement report.

I am deeply worried about the impact of overhead powerlines all over our countryside. Powerful people are making decisions that will affect future generations for years. They will wonder why our generation allowed this to happen. All to save a few dollars.

I list the following as genuine concerns regarding safety, health and aesthetics.

- 1 Safety. FIRE is a major concern.
- 2 Maintenance of rural properties.
- 3 Monitoring by drones of rural properties.
- 4 Health.
- 5 Noise. It is debilitating to have a constant drum in your ears.
- 6 Tourism.
- 7 Aesthetics.

We do not want our landscape covered with unsightly towers and wires. Please spend a little extra money now and help to save our planet.

Enough damage has already been done.

PLEASE PUT THE WIRES UNDERGROUND.

I look forward to hearing about a sensible solution to this project.

Yours faithfully,

Margaret Emery.

MARGARET EMERY
