Submission for Charmhaven Proposed Christian School
Lot-2 DP804106

I am writing to advise that I am against the proposed development of the land locally known as The A Track and surrounding land of 100 acres.

I have been walking the area for approx 4 years now. There are so many beautiful varieties of native orchids flowering throughout the year. The bird life is fantastic with many large trees containing hollows for nesting. I have seen a native bee hive on the land. You can also hear frogs after rain in the many ponds.

Furthermore, there are already 26 schools within a 10km radius of the proposed site. The area has significant traffic congestion at times.

Kind Regards
