I OBJECT to the Central West Orana REZ Transmission project for the following reasons:

This project has already impacted our community by disrupting our day to day lives. And it will definitely impact during construction because of all the extra traffic and people. I cannot see any positives from the project and certainly no long term ones. Our shire has trouble keeping the roads in good repair now, so how on earth will they be maintained during construction and then afterwards.

One of my other worries what happens (if this goes ahead) when things need to be replaced.
