I OBJECT to the Central West Orana REZ Transmission project for the following reasons:

It will destroy the native wildlife and their habitat
When there is a fire can only be fought from the ground
The site and noise of the windfarms is ugly to the natural surrounds
All the extra traffic coming thru is bad for the environment
Taking up valuable Farming Land we will have to import all our food we will then become a third world country because it will be too expensive
Why are the inner city greens & teals imposing this on us but not on themselves
The cost is enormous and when they get to their use by date they go to landfill HOW GREEN IS THAT
