

Central West Orana REZ Transmission (SSI-48323210)

☒ I declare I have not made any reportable political donations in the last two years.

☒ I acknowledge and accept the Department of Planning and Environment's disclaimer and declaration

Name: ANGUS STUART

Address: 1120 GOLDEN HWY DUNEDOO

I OBJECT to the Central West Orana REZ Transmission project for the following reasons:

- I'm the Director of a Stock + Station Business that currently employs 8 permanent staff and 8 casual workers. The loss of prime agricultural land will definitely have a effect on our business. Solar panels will have a dramatic effect on how many sheep are grazed in the district.
- A lot of the proposed land that will see workers camps will no way be able to handle the amount of traffic when a heavy fall of rain occurs. The soil is very light and bogs vehicles easily.
- The already stretched emergency services in the district will not handle the extra 1200 workers

- How will our Great Town of Dunedoo benefit from the REZ Project?? Most of the workers will live, eat, + sleep out of town. All the food for the camp will come from elsewhere. Will put added pressure on an already small ^{work} force locally making it almost impossible for locals to find casual workers. The country side will also have the scars of power lines and solar panels + wind turbines, the Dunedoo picturesque country side will never look the same.

- Why not use the money to get everyone in the city to put solar on their roofs, like most people have in the country.
