

I OBJECT to EnergyCo's whole dodgy Central-West Orana REZ Transmission Development SSI-48323210 RenewaBULL plan as it will NEVER work & is nothing but OBSCENE ENVIRONMENTAL DESTRUCTION FOR PATHETIC POWER - EXTENSIVELY WRECKING AUSTRALIA IN ORDER TO FUND FAKE GREEN CARPETBAGGERS & THE HOSTILE CCP!

"AEMO's 2022 ISP Electricity Grid Design CANNOT PROVIDE AUSTRALIANS WITH RELIABLE POWER.

Using data from AEMO's Integrated System Plan (ISP), a top-down, whole-of-system analysis for years 2030, 2040 and 2050 shows that the ISP grid design FAILS TO PROVIDE SUFFICIENT POWER FOR SYSTEM RELIABILITY regardless of wind and solar operating conditions.

The primary reasons are:

- Inadequate levels of dispatchable power generation;
- Inadequate capacity of energy storage; and
- Over-reliance on geographic diversity and interconnector transmission lines to ensure reliability.

A top-down, whole-of-system analysis inherently assumes 100% connectivity and yet the results show power generation in the planned National Electricity Market (NEM) grid as a whole are simply INSUFFICIENT TO PROVIDE RELIABLE POWER.

It is impossible to distribute adequate power with interconnectors that simply DOES NOT EXIST.

These DIRE RESULTS are a direct result of attempting to design an electrical grid with a vast majority of intermittent, highly variable, weather-dependent wind and solar generation with completely inadequate means for back up from dispatchable baseload power and energy storage systems.

NO RESPONSIBLE POWER SYSTEMS ENGINEER WOULD PROCEED WITH SUCH A NON-VIABLE PLAN.

Furthermore, the implications for the economy and for national security by relying on China, which dominates the market for wind and solar equipment and materials, is extremely negative." 😬

There will be catastrophic, permanent negative impacts on human beings & animals, our Biodiversity, our agricultural resources & enterprises, etc. when extensive water/sediment run-off & erosion will inevitably, typically occur from irresponsible Solar/Wind/BESS/Transmission Line Construction - denuding the landscape, sterilisation of the soil, dry-land salinity & toxic contamination will result from Solar's heavy metal leachate, Wind Turbines shedding toxic Bisphenol A, highly poisonous - Fire inferno BESS hazards & Personal

Discomfort Causing/Life threatening Electrical Force/Electromagnetic Radiation.

Stacks of Embedded Energy - beginning with mining & production in China using Intensive Coal Fired Power has been intentionally excluded in RenewaBULL propaganda - as we know that:

The Starting Step for the Production Of Pure Silicon.... $\text{SiO}_2 + \text{C} \rightarrow \text{Si} + \text{CO}_2$  ....IS the Heart of the Solar Panel!

Every step in the production of Solar PV power systems requires an input of fossil fuels - as the carbon reductants needed for smelting silicon from ore, to provide manufacturing process heat and power, for the intercontinental transport of materials, and for on-site deployment.

<https://www.azbackroads.com/around-the-west/rangefire-massive-amounts-of-coal-and-wood-must-be-burned-to-create-solar-panels/>

Neither has there been any calculation made for the most potent Green House Gas of all - man-made SF 6 - leaking from Solar manufacturing, Wind Turbines & increased Switch Gear & Circuit Breakers.....

Wind turbines contains the worlds most powerful green house gas, SF6.

bergensia.com

<cropped-Bergensia-mobile-logo-180x180.png>

Whilst claiming to meet various Targets & Objectives of Reliable, Secure, Affordable, Clean, Sustainable Power & Emissions Reduction - NONE of this is true!

The Unethical, Weather Dependent, Pathetic Power, Hopeless Capacity Factor RenewaBULL Plan is causing Skyrocketing Electricity Prices/Cost of Living Crisis & a National Security Nightmare - with Solar Inverters made in China able to be Remotely Disabled by our most hostile enemy - the Chinese Communist Party!

I OBJECT to all of this totally useless & unnecessary RenewaBULL Associated Transmission infrastructure - the Industrialised Wind/Solar + BESS as it is all an unconscionable waste of public funds for the most illogical & harmful Fake Green, imaginary power delusion that could ever be orchestrated & forced on the Australian public against their will & for no benefit whatsoever!

These obnoxious, intrusive, anti-Australian plans have no environmental or public benefits whatsoever & have neglected to accurately address all of the following:-

\*\*Food Security + Australian Energy Security = National Security

\*\*Australian Independent Energy = Coal, Gas & a clean, safe, Nuclear SMR Power future.

\*\*Which companies involved & all of their Solar/Wind/BESS connections are subject to the CCP's National Intelligence Law?

\*\*Public Health & Safety Risks - Electrical Force/Electromagnetic Radiation, Soil/Food/Water Contamination, Energy Deprivation.

\*\*Proper Research Needed - No Scientific Rigour.

\*\* Engineering Facts Have Been Ignored.

\*\*Connecting Subsidised, Mandated Weather Dependent - Intermittent Solar/Wind to the Grid is the Worst Policy Failure in History.

\*\*Fake Green - Not Clean & Green or Sustainable at all - as the Full Lifecycle of Solar/Wind/BESS has to be accounted for.

At least 1,000% more Mining + intensive energy & toxic pollution during processing.

\*\*Power Sources Needed in major City areas instead - avoiding long distance transmission loss, ruination of rural Australia & harming Agricultural productivity.

\*\*Unconscionable scale of Industrialised Solar/Wind land mass required.

Michael Shellenberger says it's approx 300-800 times more land required for Solar/Wind than for far superior conventional power generation.

**\*\*Massive Toxic Waste Burden** being intentionally created for future generations that will NEVER be economically viable to recycle - if ever even possible.

**\*\*Energy Security risks** from inferior, unreliable, weather dependent, Dunkelflaute based Solar/Wind which will NEVER be base-load power available on demand.

**\*\*Economic Suicide - Skyrocketing Energy Prices = Cost of Living Crisis.** The more Mandated, Subsidised Solar & Wind in the system = the Higher the Prices.

**\*\*National Security Risks** - we need to rely on our own AUSTRALIAN Energy Sources rather than our Most Hostile Enemy - the CCP.

**\*\*Fake Green Wokeness = Weakness**

**\*\*Unethical Slave Labour Supply Chain Reliance** - Solar's cruelly tortured Xinjiang Uyghurs & Cobalt for Wind Turbines + Batteries reliant on shocking treatment of the Congolese - with Child Labour - children as young as 6 years old forced to mine toxic cobalt in the Congo with their bare hands!

**\*\*No Social Licence** - Failed Planning, Consultation & Assessment/Approval process by the Government, Dodgy Developers, politicised AEMO & self benefiting Electricity Networks.

**\*\*Immediate Moratorium & Independent Federal Inquiry Needed.**

No matter what alternative Transmission Line routes are considered or whether underground, none of that stops the subsidy hungry Solar/Wind/BESS environmental vandals from their relentless ruination & ugly eyesores, the unconscionable, intentional environmental destruction & inevitable contamination risks now cursing rural Australia - our communities, our limited - irreplaceable - life sustaining food resource land & vital water sources - in the disingenuous name of RenewaBULL energy!

No amount of Fake Green bribery-like hosting dollars will ever cover the multitude of sins this disastrous plan will unleash on our precious environment.

**CONNECTING SUBSIDISED & MANDATED, INTERMITTENT SOLAR & WIND POWER TO THE GRID IS THE WORST POLICY BLUNDER IN OUR HISTORY!!**

**DUNKELFLAUTES WILL**

**BE POTENTIALLY CATASTROPHIC!!**

<https://www.spectator.com.au/2022/11/the-voice-of-energy-realism/>

Solar/Wind utilities cannot be maximised simultaneously & should never be interfering with our once reliable & efficient electricity grid.

**Any Power Generation Source That Can't Deliver Electricity On Demand is Pointless!**

Hideous ecosystem-wrecking industrial Solar/Wind EG Works, BESS, associated infrastructure & invasive, unnecessary multiplication of Transmission Lines for such a costly, contaminating & wasteful form of electricity generation is illogical lunacy!

The essential consideration for & accounting of the full life-cycle of Industrialised Solar/Wind/ BESS & Transmission Line plans are intentionally omitted - as Developers, Networks, AEMO, the State &

Federal Government pretend that Fake Green components magically pop into existence, when it is absolutely essential to make all emissions transparent - including from the extraction of the raw materials - extensive toxic pollution, intensive energy used for processing/manufacturing, potent SF6 greenhouse gas emission leakage & on site impacts - through to the disposal of vast amounts of toxic, clapped out Solar panels, toxic Turbine blades & BESS (after only 7-10 years!)

The science is largely dismissed, and only used selectively when it suits the agenda - rather than informing what the actual agenda should be.

Fake Green imaginary power lunacy is dominated by politicians & policy makers who have little or no technical competence at all in the field of energy engineering.

Just like Federal Environment Minister Tanya Plibersek claiming increased renewables mean "CHEAPER, CLEANER ENERGY, LOWER POWER BILLS & LOWER POLLUTION" (SMH 10th April 2023,) these empty promises are totally false!

In responding to forecasts of a global recession, Treasurer Jim Chalmers said "We need to make ourselves resilient to these shocks" (ABC 12th April 2023) - yet he is presiding over the most comprehensively weakening, self sabotaging, energy depriving/cost of living disaster ever!

The public are now discovering the reality of skyrocketing electricity prices from unreliable weather dependent Solar/Wind - based on Dunkelflautes.

It is totally against the best interests of all Australians to enable electricity reliance on the Chinese Communist party & their unethical Slave Labour supply chains.

Transitioning to an electricity system based on CCP control & Chinese manufactured components is sabotaging Australia by ENABLING BEIJING TO TURN OUR LIGHTS OFF!!

There are no safeguards in place in Australia that would prevent any of the embedded electronics in grid-connected Solar/Wind EG Works & BESS covertly transmitting potentially valuable information.

Chinese produced Solar Inverters & EV's are able to be remotely disabled by the CCP!

Instead of chaotic & inefficient, weather driven supply, with policies driven by socialist WEF ideology instead of engineering facts, Australia needs to rely solely on our own plentiful, reliable, efficient, affordable, secure Coal, Gas & Uranium for a clean, safe Nuclear SMR power future.

With energy shortages, war on the horizon, skyrocketing prices, blackouts & energy deficit since the closure of Liddell Power Station in NSW 28th April 2023, popular presumptions underlying energy policy must be seriously questioned.

The demand for 'green' power hurts the environment - with an appallingly huge environmental footprint, only rendered worse by their ineffectiveness at meeting basic power needs.

Inferior, intermittent, Fake Green renewaBULL energy disturbs our independent way of life, denies us modern conveniences, affects our security, economic prosperity, our health & wellbeing & destroys Intergenerational equity for future generations.

Solar & Wind generation is material intensive & energy dilute.

According to Michael Shellenberger "The underlying problem with renewables is their low power density, which is why it takes Wind/Solar projects 300-800 times more land to generate the same amount of electricity as from conventional sources."

Claims that installing 40 (7 MW) Wind Turbine monstrosities per month until 2030 & more than 22,000 toxic Solar Panels per day - totalling 60 Million by 2030 + tonnes of filthy, toxic BESS with 28,000 kms of ugly, unhealthy & unnecessary Transmission Lines (totally unnecessary with independent Australian Coal, Gas & Nuclear SMR's) will improve conditions, productivity, the environment & the planet are clearly blatantly false!

Where is the Integrity, the Ethical Implications & the Engineering Facts & Scientific Determination to prove any of these claims?

What about the essential sovereign capability of our Electricity Grid - Critical Energy Infrastructure - that underpins our National Security?

China's Communist Party has infiltrated and outright bought astoundingly pervasive influence in our economies, universities, and political institutions, while compromising the cyber security of companies and utilities.

China can now paralyze much of our infrastructure, while laughing as we have outsourced almost all our manufacturing capabilities to China and, courtesy of an intellectually challenged Minister for Energy we – unbelievably - pursue renewable technologies that make us still more comprehensively dependent on China!

Where is our determined response to China's declaration of war on us?

I DO NOT CONSENT TO MY FAMILY OR MYSELF BEING DETRIMENTALLY HARMED IN ANY WAY BY THESE RENEWABLE TRANSMISSION LINE INFRASTRUCTURE PLANS OR ANY GHASTLY, INVASIVE, HARMFUL INDUSTRIALISED WIND/SOLAR/BESS & ANY OTHER FAKE GREEN HYDROGEN, COMPRESSED AIR, PUMPED HYDRO RENEWABLE NIGHTMARE PLAN IN NSW/AUSTRALIA - including but not limited to:-

**\*\*Public Health & Safety Risks - Personal Discomfort & Health Impacts from Electrical Force - EMR & Deprivation or Contamination of Life Sustaining Food Resource Land, Food Supplies & Water Supplies.**

**\*\*Unplanned for, Not Even Researched & Not Appropriately Assessed, Toxic Carcinogenic & Teratogenic Fire/Smoke Hazard Risks.**

**\*\*Energy Deprivation - Lack of Reliable, Affordable Electricity - Resulting from Inferior, Unreliable Solar/Wind Generation causing Austerity, Suffering, ill Health & Loss of Basic Services.**

**\*\*Consequential Skyrocketing Electricity Prices - Causing Energy Poverty, Cost of Living Crisis, Hardship & Potential Death from Hyperthermia.**

**\*\*Unjust Mistreatment of Landholders & Rural Communities Forced to Endure Such Detrimental Plans - Causing Extreme Distress, Anxiety, Depression, Grief, Family/Social Fracturing & Loss.**

**\*\*Deprivation of Rural Outlook & Quality of Life - With Unhealthy, Distressing Noise, Infrasound & Visual Pollution.**

**\*\*Emotional Distress, Suffering & Hardship Caused by Government Inflicted Skyrocketing Energy/Cost of Living Crisis.**

**\*\*Detrimental Consequences of increased SF6 emissions.**

\*\*Increased Economic Hardship due to Failure of Councils to do their Due Diligence, to Address Compliance, to be Transparent & to be Honest, to Address the Facts & Community Concerns, ie. Additional Council Charges for Flawed Assessments & Wrong Approvals - Leading to Unplanned for Clean up & Remediation Costs for Abandoned, Derelict, Contaminating Solar/Wind EG Works & BESS.

\*\*Any Detrimental Cost Implications for Ratepayers from the Council's & any Government Body's Persistence in Ignoring Their Duties Regarding the Unethical Hosting, Procurement & Power Purchase Agreements With Energy Generation Reliant on Unethical Slave Labour Supply Chains.

\*\*Loss of Productivity & Income Due to Contamination, Increased Fire Risk & Heat Island Impacts from Solar/Wind EG Works & BESS.

\*\*Any Cyber Security Breaches or National Security Threats & Harm Caused.

\*\*Any Costs Incurred for Ratepayers & Taxpayers by Dealing With the Obvious, Economic Suicide - the Financial Consequences for the Future of Making Seriously Retrograde Decisions by Hosting & Approving Such Harmful Solar/Wind EG Works, BESS & Associated Unnecessary Transmission Infrastructure.

People need to get educated so they are agitated about it enough to do something to change this.

<https://www.news.com.au/finance/business/mining/harvard-professor-explains-heartwrenching-source-of-electric-vehicle-iphone-batteries/news-story/db881f47c76db89581409c092a740c4c>

Joe Rogan exposes sad truth about cobalt used in electric vehicle, iPhone batteries | news.com.au — Australia's leading news site.

Cobalt is in all iPhones, tablets & crucially EV's - it maximises charge & stability.

Before anyone knew what was happening the Chinese Government & Chinese companies took control of almost all of the big mines in the Congo, with the local population displaced & the Congolese people under duress - digging in subhuman, gut wrenching conditions - using all raw human force - clanking the cobalt out of the ground!

Throughout the whole history of slavery, never has there been more suffering that generated more profit than was linked to more lives of people around the world than what is happening today in the Congo - mining cobalt in appalling, heart wrenching & dangerous conditions.

There is nothing in any RenewaBULL plan to ensure that energy infrastructure - including the production of Wind, Solar & BESS infrastructure, complies and adheres to the Modern Slavery Act, with a focus on international imports, & there is not an Independent Scientific Body - as is essential - to review, examine and investigate resource industries and large scale power generation impacts, including Industrialised Solar, Wind & BESS installations at every stage of operation, i.e. planning, operational and rehabilitation - prior to Assessments & any thought of Approval - as the Precautionary Principle would deem all Solar/Wind/BESS plans likely to be seriously environmentally harmful/irreversibly contaminating & far too risky for our life sustaining food resource land & vital water sources, as toxic heavy metals - including lead, toxic residue from Fire Inferno BESS & Bisphenol A (as toxic as blue asbestos & lethal to young children) are the tragic, inevitable result!

**\*\*WIND TURBINES ARE A FAKE GREEN SCOURGE - SHEDDING TONNES OF MICROPLASTICS FROM WIND TURBINE BLADES (KNOWN AS 'LEADING EDGE EROSION') - AFTER ONLY A FEW YEARS OF OPERATION.**

Mark Twichell spells out the poisonous truth - why Wind Turbines are a dangerous idea.

The Buffalo News October 2022.

"Wind Turbine Blades leave a toxic waste legacy for centuries to come, but there is an even more immediate threat - their blades naturally erode during operation - spreading tonnes of microplastics far & wide.

The epoxy compounds they shed contain toxins that are finding their way into our oceans & drinking water.

The particles eroded from Wind Turbine blades includes epoxy resin which is 40% Bisphenol (BPA) - a frequently banned endocrine disrupter & neurotoxin" - equally as toxic as blue asbestos & lethal to young children.

"Academic research has shown the potential for 137 pounds of epoxy micro particles to be shed per turbine per year.

The resulting annual BPA release can potentially contaminate 17 million gallons of drinking water per turbine while threatening aquatic & terrestrial life.

Minimising the shedding depends on specialised blade coatings that contain toxic ingredients from the PFAS family of 'forever' chemicals which are biologically cumulative & non-degradable.

These coatings likely need replacement after a few years.

PFAS is a common ingredient in lubricants & hydraulic fluids which routinely leak from Wind Turbines."

\*\*18th August 2022 - Dr Eric Blondeel says:-

"That the plastics in the blades are toxic - is without doubt!"

As far back as 2012 the World Health Organisation warned about potential carcinogenic properties of endocrine disrupters & concluded that these substances pose a global threat to public health.

Unborn & young children are especially vulnerable because their hormone system is still developing.

200 Million Tonnes of Toxic Solar Panels Destined For Landfills Near You

[stophesethings.com](http://stophesethings.com)

<https://www.ourwebofinconvenienttruths.com/letter-16/>

Solar PV panels can disrupt aquatic insects' reproduction. At least 300 species of aquatic insects (i.e. mayflies, caddis flies, beetles and stoneflies) typically lay their eggs on the surface of water. Birds, frogs and fish rely on these aquatic insects for food. Aquatic insects can mistake solar panels' shiny dark surfaces for water. When they mate on panels, the insects become vulnerable to predators. When they lay their eggs on the panels' surface, their efforts to reproduce fail. Covering panels with stripes of white tape or similar markings significantly reduces insect attraction to panels. Such markings can reduce panels' energy collection by about 1.8 percent. Researchers also recommend not installing solar panels near bodies of water or in the desert, where water is scarce.
