

Subject: Angus Place mod 8 and West Coal Services mod 5 submission

I have not made a reportable political donation:

I am objecting to the proposal:
Yes

I [REDACTED] . Who operate a tour group called Respite tours and I use this area as part of our tours.

We only have one chance to look after the land so we have to do it today. Tomorrow is too late.

Centennial Coal's mine modification proposals has been dropped on us and we have had so little time to read it or give feedback so stop it now.

Brow Centennial Coal proposes mine could discharge water to Sydney's drinking water. Then it is too late.

Gardens of Stone is next to it and that is bring in tourists every day with their money that employs locals and is sustainable.

Nationally endangered wetlands and swamps could be damaged if it goes ahead.
Sydney's drinking water supplies might be = Stuffed

We need time to look at the proposal or get my family involved in the submission
Need time like all proposals.
If we damage the wet lands then we will never have them again.
What could I say to Stuff up Sydney drinking water. Disaster.
I am not sure if it needs to go to Federal government ?
?
