

The Minister for Planning
State Government N.S.W.

Objection SSD-9409987

I Object on the grounds.

- ① I live within 1.2 kms of this dreaded factory, the particles that will be released into our waterways & airways is very frightening, not only for myself, my grandchildren & my Pets;
- ② The traffic noise will absolutely spoil our beautiful little area.
- ③ The Lights from the Plasexene will make it look like a city shining through our windows.
- ④ Not to mention the contamination to the soil - birds & fauna.
- ⑤ The noise coming from that area is already very annoying to listen to. And with a factory that big how much worse will this get.

yours faithfully
Ange Brooks.
