

30/11/2023.

The Minister Planning
State Govt NSW

Objection - Judith R Fisk
Pastefine SSD 9409987

I object on the grounds:-

- What AFFECT to the Carbon footprint will this have on OUR WORLD FOREVER
- The Chemical hazard + Contamination
- The Contamination of Soil Waterways
- Water Supply of around 4 million people plus - who are supplied with drinking Water from Moss Vale to and through Narragumba dam & to all Waterways here & further within Sydney Water Catchment
- the airborne Contamination to many humans & the Environment flora & fauna.
- How long does the plastic & Chemicals take to break down - this is a major concern.
- The health Affects to so many
- We cannot afford to have water contaminated which cannot be ever rectified
- Long term Environment Impacts.
- & Unknown Contamination
eg. like Silica dust + Asbestosis
Contamination

Page 1 of 2

Objection

Judith RISK

- The size of the building - 12 football fields.
 - The Visual Impact
 - Traffic -
 - Damage to Streets & Roads
 - Residential Impact to Housing of People
 - Contamination to Rural farming:
 - * Soil
 - * People
 - * Stock - horses, cattle, sheep.
 - * Contamination of Grass, Crops, hay
 - Affect on Platypus in the Wingecarribee River - already on the endangered classification list
 - Long term Health Risks -
 - With population growth within kilometres.
- this is a huge problem to humans as we are aware of the non compliance of many plastics allowed into Australia without regulation compliance

Yours faithfully
OBJECTOR
