

My objection to SSD - 9409987 MV
Pastas Recycling Facility Amendment
is

- that it's the wrong site as it impacts locals who live in the vicinity
- the high impact of increased traffic flow through the area.
- the increased pollution
- effects on young people growing up in this area.
- Toxic waste/chemicals, the effect on Sydney's drinking water.

Please look
look to other methods to reduce
plastic waste.
