Your Comments (please restrict to 10,000 characters):

- * I am concerned of the visual impact
- * I am concerned of the impact on my property value
- * I am concerned about the extra traffic this will create during construction & end of life removal.
- * I am concerned about the impact on the local environment during the construction of access roads/tracks into the area these windmills will be installed.
- * I am concerned about the impact on wildlife both during transport, construction & the life of these turbines
- * I am concerned about the impact these turbines will have on the land they occupy - be it through fire, maintenance & leeching of lubricants into the ground soil & water.
- * I am concerned the blades when damaged or replaced will end up in our local landfill as they cannot be recycled.
- * I am concerned about the noise that is likely to be generated by several hundred of these turbines.
- * I am concerned their height of 285m will impede aerial firefighting
- * Finally I do not believe these wind turbines will offset enough coal-fired electricity when you take into account the environmental impact of construction, ~~their~~ the energy used to produce them & the carbon footprint of the
