**What is your View on the Paling Yards Proposal?**

Please circle one of the following:

I support the project.

I'm providing comments.

☒ I object to the project.

Reasons attached

Your Comments (please restrict to 10,000 characters):

I object to the Paling Yards Wind Farm Proposal on the following grounds:

The proposal will decrease the value of farming properties in the vicinity of the installation, without any recompense for the farming community involved.

Why should our farming community bear the downside brunt of this wind farm.

The degradation of our community and of the beautiful, serene area in which we live.

The surrounding noise of the wind farm will affect the surrounding farms and the people who live on them and make their livelihood on them.

The EYESORE of the Wind Farm when travelling through the community.

The degradation of our roads system. Our normal ability to travel around our area when the equipment is being transported will be prevented and disrupted. This disruption will continue as the wind farm is being built, and continue when the wind farm is in operation. In addition to the general public, this will be extremely inconvenient for all the trucking businesses that have timetables to get to Sydney and Goulburn and other directions for their businesses.

The inability of the Wind Farm components to be recycled when the Wind Farm is obsolete. This factor means that once the wind farm is erected, it then stays there forever, no matter what condition the towers and blades are in.

Bush fire danger. The danger of the blade motors catching fire and causing bushfires. Plus the inability of helicopters to be able to assist with fire fighting when there is a bush fire in the vicinity of the wind farm.

I thoroughly disagree with this proposal of the Paling Yards Wind Farm being established here.
