

Burrendong Wind Farm  
Indicative Turbine Layout -  
March 2022

This is a preliminary layout only and is subject to change as detailed planning proceeds. The width of this diagram has been adjusted to include the full turbine field of view, which will vary for each residence.

Photomontage view:

Dwelling U8-1  
170 - 278 degrees

Closest turbine ID: 1  
Bearing to closest turbine: 227°  
Distance to closest turbine (m): 2,810  
Projection: MGA Zone 55 (GDA 94)  
Photo Coordinates: E:720250, N:6385937  
Turbine dimensions: 250m tip height, 165m hub height and 170m rotor.

**Photomontage limitations**  
A photomontage can never show exactly what the wind farm will look like in reality due to factors such as different lighting, weather and seasonal conditions which vary through time and resolution of the image. Also, a static image cannot convey turbine movement. The images provided give a reasonable impression of the scale of the turbines and the distance to turbines, but can never be 100% accurate.
