Subject: Centennial Coal Norther Coal Services Mod 5

Please accept this , regarding my sincere issue with failed community consultation & genuine knowledge & notification of this major project proposed by Centennial Coal .

I have been unable to contribute or make a submission due to no prior knowledge of the project until late yesterday through a chance conversation.

Once I was made aware I have endeavoured to find information , access gov portal & download large documents .

Which failed .

I attempted to make a submission but did not receive any assistance eg no message was sent to my email to sign in after supplying my address

i phoned & contacted the gov assistance number
i awaited a return reply from person dealing with this project

I am again attempting to make this submission
objecting & requestion proper information dissemination
true community involvement &
tangible action from the Coal community consultative committee
to engage with the community

Thankyou
kind regards
Alison Dunne
