APPENDIX A2 – STAGE 1.1 – LETTERS TO AGENCIES

Reference: 22102

12 October 2022

To whom it may concern,

**RE: STAGE 1: REQUEST FOR INFORMATION FOR ABORIGINAL
CULTURAL HERITAGE ASSESSMENT, 125 BIRRELL STREET, WAVERLEY
NEW SOUTH WALES**

You are receiving this letter due to your organisation being named as a reasonable source of information that must be contacted under Stage 1 (section 4.1.2) of the *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (Department of Environment, Climate Change and Water NSW 2010) (Consultation Requirements). Section 4.1.2 of the Consultation Requirements makes it the proponent's responsibility to ascertain, from reasonable sources of information such as your organisation, the names of Aboriginal people who may hold cultural knowledge relevant to determining the significance of Aboriginal objects and / or places.

Austral Archaeology Pty Ltd (Austral) has been engaged by Savills Australia on behalf of Uniting, to undertake an Aboriginal Cultural Heritage Assessment (ACHA) regarding the proposed residential aged care home associated with Uniting at the Waverley War Memorial Hospital, Lot 4-5 DP3542 (125 Birrell Street), Waverley, New South Wales (the Study Area). The proposed ACHA is being undertaken to determine the impact the development will have on Aboriginal cultural material, as part of a State Significant Development Application (SSDA) under Part 4 of the *Environmental Planning and Assessment Act 1979*. The study area is situated within the Waverley Municipal Council Local Government Area (LGA) and is located within the boundaries of the La Perouse Local Aboriginal Land Council (LPLALC).

Austral Archaeology will actively seek to involve stakeholders in decisions regarding Aboriginal cultural heritage issues arising from this project. Additional information will be made available to all registered Aboriginal stakeholders as the project progresses. The purpose of consultation is to assist the Director General of the Department of Premier and Cabinet (DPC) in his or her consideration and determination of the application. The project will be undertaken in accordance with the *National Parks and Wildlife Act 1974*.

In accordance with the consultation requirements, please note that the relevant client contact for this project is:

Carolyn Yeow
Project Manager
Savills Australia
Level 25, 1 Farrer Place
Sydney, NSW 2000
Phone: T 02 8913 4819
Email: cyeow@savills.com.au

All correspondence regarding provision of names and contact details of Aboriginal people who may hold cultural knowledge relevant to the project should be provided in writing to:

Taylor Foster
Archaeologist
Austral Archaeology Pty Ltd
1/148 Tongarra Road, Albion Park 2527
Phone: 0478 162 379
Email: taylorf@australarch.com.au

Austral requests that your organisation supplies the requested information by 26th October 2022. Please note that under Section 4.1.6 of the Consultation Requirements, Austral is required to supply details of all registered Aboriginal stakeholders to Heritage NSW and DLALC.

Please do not hesitate to contact me for further information at the contact details provided below.
Yours sincerely,

Dear Crystal

Thank you for your recent email and attached letter seeking assistance to identify Aboriginal stakeholder organisations and persons who may hold an interest in Country at the project area designated in your correspondence.

Greater Sydney Local Land Services (GS LLS) acknowledges that Local Land Services (formerly as Catchment Management Authorities) has been listed in Section 4.1.3.(g) of the Aboriginal Cultural Heritage Consultation requirements for proponents 2010, to support Part 6, of the NSW National Parks and Wildlife Act 1974 as a source of information to obtain the 'names of Aboriginal people who may hold cultural knowledge relevant to determining the significance of Aboriginal objects and/or places'.

GS LLS understands and respects the significant role and values that tangible and intangible Aboriginal Cultural Heritage holds for First Nations/Aboriginal people with Country. GS LLS also partners with many First Nations communities on Caring for Country projects that aim to protect and enhance those tangible and intangible values in Country including Aboriginal Cultural Heritage. GS LLS considers Aboriginal Cultural Heritage matters in relation to its role in land management and considers cultural heritage issues in the context of Natural Resource Management.

However, GS LLS feels that it is not a primary source of contact for First Nations (Aboriginal) communities or persons that may inform or provide comment on development or planning issues.

GS LLS strongly recommends you contact Heritage NSW to seek their advice on all-inclusive contact lists of persons and organisations who 'speak for Country' and that may assist with your investigation.

Regards

For more information about the Tribunal's registers or to search the registers yourself and obtain copies of relevant register extracts, please visit our [website](#).

Information on native title claims and freehold land can also be found on the Tribunal's website here: [Native title claims and freehold land](#).

Please note: There may be a delay between a native title determination application being lodged in the Federal Court and its transfer to the Tribunal. As a result, some native title determination applications recently filed with the Federal Court may not appear on the Tribunal's databases.

The search results are based on analysis against external boundaries of applications only. Native title applications commonly contain exclusions clauses which remove areas from within the external boundary. To determine whether the areas described are in fact subject to claim, you need to refer to the "Area covered by claim" section of the relevant Register Extract or Schedule Extract and any maps attached.

Search results and the existence of native title

Please note that the enclosed information from the Register of Native Title Claims and/or the Schedule of Applications is **not** confirmation of the existence of native title in this area. This cannot be confirmed until the Federal Court makes a determination that native title does or does not exist in relation to the area. Such determinations are registered on the National Native Title Register.

Dear Taylor,

WRITTEN NOTIFICATION OF PROPOSAL AS REQUIRED UNDER DECCW ABORIGINAL CULTURAL HERITAGE CONSULTATION REQUIREMENTS FOR PROPONENTS 2010

Subject: Uniting at the Waverley War Memorial Hospital, Lot 4-5 DP3542 (125 Birrell Street), Waverley, New South Wales.

Thank you for your correspondence dated 12 October 2022 to Heritage NSW (Department of Premier and Cabinet) regarding the above project.

Attached is a list of known Aboriginal parties for the proposed development at the **Waverley** Local Government Area that Heritage NSW considers likely to have an interest in the activity.

Please note this list is not necessarily an exhaustive list of all interested Aboriginal parties.

Receipt of this list does not remove the requirement of a proponent/ consultant to advertise in local print media and contact other bodies seeking interested Aboriginal parties, in accordance with the *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (April 2010).

Under Section 4.1.6. of the Consultation Requirements, you must also provide a copy of the names of each Aboriginal person who registered an interest to the relevant Heritage NSW office and Local Aboriginal Land Council (LALC) within 28 days from the closing date for registering an interest.

Please note that the contact details in the list provided by Heritage NSW may be out of date as it relies on Aboriginal parties advising Heritage NSW when their details need changing. If individuals/companies undertaking consultation are aware that any groups contact details are out of date, or letters are returned unopened, please contact either the relevant stakeholder group (if you know their more current details) and/or Heritage NSW. AHIP applicants should make a note of any group they are unable to contact as part of their consultation record.

If you have any questions about this advice, please email:
heritagemailbox@environment.nsw.gov.au or contact (02) 9873 8500.

Yours sincerely

Barry Gunther, Aboriginal Senior Assessment Officer
Environment and Heritage – Heritage NSW

Attachment A:

Registered Aboriginal Interests DPE RAP List for the **Waverley** Local Government Area.

LIST OF ABORIGINAL STAKEHOLDERS FOR THE DEPARTMENT of PREMIER and CABINET (DPC) SOUTHERN REGION HELD BY DPC FOR THE PURPOSES OF THE OEH ABORIGINAL CULTURAL HERITAGE CONSULTATION REQUIREMENTS FOR PROPONENTS 2010

These lists are provided to proponents in accordance with section 4.1.2 of the *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (the "Consultation Requirements") which commenced on 12 April 2010.

The consultation process involves getting the views of, and information from, Aboriginal people and reporting on these. It is not to be confused with other field assessment processes involved in preparing a proposal and an application. Consultation does not include the employment of Aboriginal people to assist in field assessment and/or site monitoring. Aboriginal people may provide services to proponents through a contractual arrangement however, this is separate from consultation. The proponent is not obliged to employ those Aboriginal people registered for consultation. Consultation as per these requirements will continue irrespective of potential or actual employment opportunities for Aboriginal people.

A copy of the Consultation Requirements can be found on the OEH website at:

<http://www.environment.nsw.gov.au/resources/cultureheritage/commconsultation/09781ACHconsultreq.pdf>.

Under the Consultation Requirements; a proponent is required to provide Aboriginal people who may hold cultural knowledge relevant to determining the cultural significance of Aboriginal objects and/or places as relevant to the proposed project area, with an opportunity to be involved in consultation. Section 3.3.1 of the Consultation Requirements states that Aboriginal people who can provide this information are, based on Aboriginal lore and custom, the traditional owners or custodians of the land that is the subject of the proposed project.

The Consultation Requirements also state that:

Traditional owners or custodians with appropriate cultural heritage knowledge to inform decision making who seek to register their interest as an Aboriginal party are those people who:

- *continue to maintain a deep respect for their ancestral belief system, traditional lore and custom*
- *recognise their responsibilities and obligations to protect and conserve their culture and heritage and care for their traditional lands or Country*
- *have the trust of their community, knowledge and understanding of their culture, and permission to speak about it.*

Please note: the placement of an organisation's name on any OEH Aboriginal stakeholder list for the Consultation Requirements does not override a proponent's requirement to also advertise in the local newspaper and to seek from other sources the names of any other Aboriginal people who may hold cultural knowledge as required under clause 60 of the National Parks and Wildlife Regulation 2019.

How to use this list

1. **Contact the organisations/individuals who have indicated an interest in the relevant LGA/s and invite them to register an interest in your project**

Do not reproduce the attached list in publicly available reports and other documents. Your report should only contain the names of the organisations and individuals who you have invited to register an interest in your project and those who have registered as stakeholders for your project.

APPENDIX A3 – STAGE 1.2: REGISTRATION OF INTEREST

Reference: 22082

28 November 2022

**RE: STAGE 1: NOTIFICATION OF ABORIGINAL CULTURAL HERITAGE
ASSESSMENT, 125 BIRRELL STREET, WAVERLEY NSW**

To whom it may concern,

Austral Archaeology Pty Ltd (Austral) has been engaged by Savills Australia on behalf of Uniting to undertake an Aboriginal Cultural Heritage Assessment (ACHA) regarding the proposed residential aged care home, independent living units (ILUs) and community services associated with Uniting at the War Memorial Hospital at 125 Birrell Street (Lot 4-5 DP3542), Waverley, New South Wales (the Study Area).

Austral has been made aware that you or your organisation may hold cultural knowledge relevant to determining the significance of Aboriginal objects and / or places. As part of Stage 1 of the *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (Department of Environment, Climate Change and Water NSW 2010) (the Consultation Requirements), you are invited to register your interest to participate in the ACHA and consultation process for the project. The proposed ACHA is being undertaken to determine the impact the development will have on Aboriginal cultural material, as part of a State Significant Development (SSD) under Part 4 of the *Environmental Planning and Assessment Act 1979*. The study area is situated within the Waverley Local Government Area (LGA) and is located within the boundaries of the La Perouse Local Aboriginal Land Council (LPLALC). The proposed redevelopment will involve the restoration and construction of buildings and street frontages across the site.

Austral will actively seek to involve stakeholders in decisions regarding Aboriginal cultural heritage issues arising from this project. Additional information will be made available to all registered Aboriginal stakeholders as the project progresses. The purpose of consultation is to assist the proposed applicant in the preparation of an Aboriginal Heritage Impact Permit and to assist the Director General of the Department of Premier and Cabinet in their consideration and determination of the application. The project will be undertaken in accordance with the *National Parks and Wildlife Act 1974*.

In accordance with the consultation requirements, please note that the relevant client contact for this project is:

As a person or organisation who may hold cultural knowledge relevant to determining the significance of Aboriginal objects and / or places associated with the proposed project, you are invited to register your interest to be consulted for this project. The closing date for registrations of interest is **TBD**.

Please note that under Section 4.1.6 of the Consultation Requirements, Austral is required, unless you state otherwise, to supply details of all registered Aboriginal stakeholders to Heritage NSW and LPLALC as part of this process.

Thank you for your assistance and please do not hesitate to contact me for further information via the contact details provided below.

APPENDIX A6 – STAGE 2: PRESENTATION OF INFORMATION ABOUT THE PROPOSED PROJECT

**RE: STAGE 2: PROJECT INFORMATION FOR ABORIGINAL CULTURAL
HERITAGE ASSESSMENT,
125 BIRRELL STREET, WAVERLEY, NEW SOUTH WALES**

To whom it may concern,

You are receiving this letter as a registered Aboriginal party (RAP) for the Uniting Waverley, NSW Aboriginal Cultural Heritage Assessment (ACHA) project.

The following information is being provided to comply with Stage 2 of the *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (Department of Environment, Climate Change and Water NSW 2010) [the Consultation Requirements]. This letter relates explicitly to sections 4.2.1 to 4.2.4 of the Consultation Requirements.

PROJECT DETAILS

Savills Australia, on behalf of Uniting, is undertaking a redevelopment at 125 Birrell Street, Waverley (Lot 4-5 DP3542) NSW, (study area) within the Waverley Municipal Local Government (LGA) Area and within the boundaries of the La Perouse Local Aboriginal Land Council (LPLALC) [Figure 1]. The proposed State Significant Development (SSD) regards the proposed residential aged care home, independent living units (ILUs) and community services associated with Uniting at the War Memorial Hospital site. This involves the redevelopment, restoration and construction of street frontages and buildings across the study area to improve facilities, develop the site, and consolidate property acquisitions.

Austral Archaeology previously conducted an extensive search of the Aboriginal Heritage Information Management System (AHIMS) on 2 August 2022. The search identified no Aboriginal archaeological sites within the study area or within close proximity.

Based upon these requirements, Austral Archaeology Pty Ltd (Austral) has been engaged by Savills Australia on behalf of Uniting to conduct an Aboriginal Cultural Heritage Assessment (ACHA); this process may result in an application for an Aboriginal Heritage Impact Permit (AHIP) being made. This letter presents the proposed project information and initiates arrangements for the dissemination of further details to RAPs during the assessment process. The location of the study area is outlined in Figure 1 and Figure 2.

IMPACT ASSESSMENT PROCESS

The following impact assessment process will be completed in accordance with the following guidelines:

- Consultation Requirements.
- *Code of Practice for Archaeological Investigations of Aboriginal Objects in NSW* (Department of Environment, Climate Change and Water 2010) (the Code).
- *Guide to Investigating, Assessing and Reporting on Aboriginal Cultural Heritage in NSW* (Office of Environment and Heritage 2011).

BACKGROUND RESEARCH

In addition to contacting the relevant Aboriginal and non-Aboriginal stakeholders, background research will include searches of public statutory and non-statutory heritage databases and research into relevant archives as an essential aid to determining the significance of the study area to local Aboriginal people.

The following database and register searches will be undertaken:

- A search of the Aboriginal Heritage Information Management System (AHIMS) database. This database lists known sites of archaeological and cultural significance to Aboriginal people. This will confirm the nature of any Aboriginal cultural values which may be present within the study area. This search will also highlight sites and places of significance in the immediate vicinity. This search may also provide previously produced reports or studies of relevance to this study.
- A search for items or places of Aboriginal significance on non-statutory heritage databases. These include the Register of the National Estate and the National Trust.
- A search of the Local Environmental Plan for Aboriginal heritage places or issues.
- A search for items or places of Aboriginal significance on statutory heritage databases. These include the National Heritage List and the State Heritage Register.

In addition to these database searches, research into the ethnographic, environmental, archaeological and Aboriginal historical context will also be undertaken. The results of this research will assist in determining the potential for Aboriginal archaeological and cultural material and places to be located within the study area.

The background research will need to be collated and summarised into a succinct yet thorough literature review. This written work will form a vital part of subsequent methodological development and production of the final cultural heritage assessment report.

CONSULTATION WITH ABORIGINAL STAKEHOLDERS

The Aboriginal people of Australia are part of the oldest and continuous-living cultures in human history. Aboriginal people's cultural heritage is recognised and valued as a unique and essential component of the identity of all Australian people.

Aboriginal cultural heritage provides the essential links between the past and the present – it is a crucial part of Aboriginal people's cultural identity, connection and sense of belonging to Country.

The objective of community consultation is to ensure Aboriginal people have the opportunity to improve assessment outcomes by:

- Providing relevant information about the cultural significance and values of the Aboriginal objects and/or place.
- Influencing the design of the methodology to assess the cultural and scientific significance of Aboriginal objects and places.
- Actively contributing to the development of cultural heritage management options and recommendations for any Aboriginal objects and/or places within the proposed project area.
- Providing feedback and commenting on draft assessment reports before the proponent submits them to Heritage NSW.

This information pack forms part of the ongoing consultation with Aboriginal stakeholders, being Stage 2 of the Consultation Requirements, which requires consultants to present information about the proposed project to stakeholders. This will also be accompanied by a Stage 3 methodology document, which will thoroughly detail the proposed testing methodology.

Based on this project's size and complexity, information about the project will be distributed in writing only.

INVESTIGATION OF ABORIGINAL OBJECTS AND / OR PLACES

The field survey will be conducted with a representative from the La Perouse Local Aboriginal Land Council. The archaeological survey of the study area will be undertaken in accordance with

requirements 5 to 10 of the Code to identify any previously unknown Aboriginal objects, sites or places.

An archaeological testing program may need to be completed in accordance with requirements 14 to 17 of the Code; this program will aim to collect information about the nature and extent of sub-surface Aboriginal objects. The testing program will contribute to an understanding of site characteristics and local and regional prehistory that can be used to inform mitigation measures for the project. Further information on the methodology to be used for the archaeological survey and test excavation program will be presented as part of the Stage 3 documentation.

REPORTING

Austral will produce an ACHA that will include but not be limited to:

- Introduction
- Planning Framework
- Aboriginal Background
- Site Analysis
- Maps and Site Plans etc.
- Aboriginal Stakeholder Consultation
- Assessment of Archaeological Potential
- Archaeological Testing Analysis and Results (if required)
- Impact Assessment
- Conclusions and Management Recommendations.

As part of Stage 4 of the Consultation Requirements, Aboriginal stakeholders will be provided with the draft ACHA for review and comment. Any comments and responses received by Austral or the proponent will be documented in the final ACHA. Austral will respond to all comments received and will outline how these have been considered and/or implemented as part of the final ACHA (DECCW 2010, p.6).

PROJECT SCHEDULE

To meet these objectives Heritage NSW has developed four stages of consultation which must be met for each cultural heritage assessment. There are several mandatory timeframes associated with the Consultation Requirements; these are summarised in Table 1 and Table 2.

Table 1 Statutory timeframes for consultation.

Stage	Timeframe
Stage 1: Notification of project proposal and registration of interest	14 days
Stage 2: Presentation of information about the proposed project	-
Stage 3: Gathering information about cultural significance.	28 days
Stage 4: Review of the draft cultural heritage assessment report.	28 days

ROLES, FUNCTIONS AND RESPONSIBILITIES

Section 5 of the Consultation Requirements outlines the roles and responsibilities of the parties that are typically involved in the consultation process. The roles, functions and responsibilities for this project are summarised in **Table 3**.

Table 3 Roles, responsibilities and functions of parties involved in the project.

Party	Roles, responsibilities and functions
RAPs	To provide cultural information and feedback on draft methodologies and the ACHA. To participate in meetings and workshops, and fieldwork, when invited.
Austral, on behalf of the proponent	Will consult with RAPs by supplying suitable project information and providing the opportunity for RAPs to provide input into the heritage management process.

As per the Consultation Requirements, Section 3.4 on page 9 states that “[c]onsultation should not be confused with employment”. In line with this, it is to be noted that the proponent is not obliged to employ any registered stakeholders for the fieldwork component of this project. However, all RAPs will be fully consulted as per the guidelines.

Table 4 outlines the feedback and input process offered to Aboriginal people for each stage of the consultation process.

Table 4 Feedback and input process for stages of the consultation process to be completed.

Stage	Expected feedback
2	Feedback on the project proposal including nature, scope and methodology. Raise any concerns about cultural perspectives or assessment requirements.
3	Contribute to culturally appropriate information-gathering and the research methodology. Provide information that will enable the cultural significance of Aboriginal objects and/or places within the proposed project area. Have input into the development of any cultural heritage management options.
4	Provide feedback on any aspect of the draft ACHA report.

Please provide your feedback, including additional protocols that you wish to be adopted into the information gathering process and assessment methodology by **5pm on Thursday, 30 March 2023**.

1. PRELIMINARY ASSESSMENT

Austral has undertaken a review of documentary sources to understand the Aboriginal heritage values that are known to / are likely to occur within the study area.

BACKGROUND

An extensive search of Heritage NSW's Aboriginal Heritage Information Management System (AHIMS) database was conducted on 2nd August 2022 (Client service ID:705036). The search identified 112 Aboriginal archaeological sites within a 10-kilometre search area, centred on the proposed study area (Table 1).

Table 1 AHIMS sites identified within 10 kilometres of the study area.

Site type	Occurrence	Frequency (%)
Aboriginal Ceremony and Dreaming, Artefact, Shell	1	0.9
Aboriginal Resource and Gathering	1	0.9
Art (Pigment or Engraved)	20	17.9
Art (Pigment or Engraved), Potential Archaeological Deposit (PAD)	1	0.9
Artefact	15	13.4

The AHIMS search has identified that there are no sites located within and/or in close proximity to the study area.

PREDICTIVE STATEMENTS

Based upon the AHIMS search results and a preliminary review of ethnographic, soils, geology, landform, disturbance and resource information pertinent to the study area, Austral has prepared a series of site prediction statements that have been used to inform the project methodology, these are outlined in Table 3.

Table 2 Aboriginal site prediction statements.

Site type	Predictive statements
Aboriginal ceremony and dreaming sites	Aboriginal ceremony and dreaming sites are intangible cultural heritage sites, however, this site type is considered unlikely as there are no ceremony and dreaming sites present in proximity to the study area.
Aboriginal places	Aboriginal places are considered unlikely to occur as there is no current evidence of this site type occurring in proximity to the study area.
Artefact sites	Artefact sites can be located within most landforms and contexts; however, it is unlikely that cultural material will be located in the study area due to the extensive and ongoing development that has occurred within Sydney since the European occupation.
Axe grinding grooves	Due to the lack of suitable rock outcrops, it is considered unlikely this site type will be encountered.
Burials	Due to the lack of appropriate soil types in the study area, it is considered unlikely this site type will be encountered.
Modified trees	Due to the high levels of vegetation clearing that has occurred throughout Sydney since European occupation, and the lack of this site type in the area, it is considered unlikely modified trees will be encountered.
Potential archaeological deposits (PADs)	Potential Artefact Deposits (PAD) are the most common site types to occur in proximity to the study area and as such have the highest potential to be encountered.
Rock Shelters with art and/or deposit	Due to the lack of suitable outcrops in the study area it is considered this site type is unlikely to be encountered.
Shell middens	Due to the lack of suitable sand deposits in the study area, and distance to water, it is considered unlikely middens will be present.

Site type	Predictive statements
Stone quarries	Due to the lack of suitable rock outcrops, it is considered unlikely this site type will be encountered.

2. ASSESSMENT METHODOLOGY

The following section outlined the assessment methodology to be employed in the preparation of the ACHA.

SURVEY METHODOLOGY

An archaeological survey will be conducted with selected RAPs in attendance.

The survey will conform with requirements 5 to 10 of the *Code of Practice for Archaeological Investigation of Aboriginal Objects in New South Wales (CoP)* (DECCW 2010). The method employed during the survey will be aimed at recording all (or a representative sample of all) evidence of Aboriginal land use that is visible on the surface. An assessment of the likelihood of material traces of Aboriginal land use being present under the ground surface (potential archaeological deposits) will also be completed. The survey will be completed in accordance with a sampling strategy that will ensure that all landforms that may be impacted by the project will be inspected.

Recording during the survey will consist of both photographic and written recording techniques. Representative photographs of survey units and landforms will be taken, all photographs will include a graded metric scale. Where Aboriginal objects are identified during the survey, their diagnostic attributes will be recorded, and each object will be photographed (as per requirements 6 and 7 of the *CoP*).

Survey units will be inspected using pedestrian transects following the methodology set out in Burke and Smith (2004, pp.74–80). The survey will document the conditions present to assess the effectiveness of the survey. The following aspects of the survey will be recorded:

- Visibility and exposure for each survey unit.
- Landform and general soil location for each survey unit.
- Land surface and vegetation conditions encountered during the survey.
- Survey coverage in accordance with Requirement 9 of the *CoP*.
- Where Aboriginal objects are identified, the spatial extent of direct evidence and the physical boundaries of each site will be determined.
- The extent of disturbances and an assessment of the integrity of known or likely Aboriginal sites.

All survey data will be collected using Global Positioning System (GPS) enabled devices and the Map Grid of Australia (94) coordinate system.

TEST EXCAVATION METHODOLOGY

To fully assess the nature and extent of the archaeological deposit, Austral has developed an archaeological testing methodology which follows the requirements of the *CoP*.

The need for test excavations will be determined as a result of the survey. The results of the archaeological survey may alter the approach to archaeological test excavations within the study area.

Our test excavation methodology is based on the *CoP* which states that all 'test excavations must be excavated using hand tools only' and 'the first excavation [pit] must be excavated in 5 cm spits at each area – either PAD or site – being investigated. Based on the evidence of the first excavation [pit], 10 cm spits or sediment profile/stratigraphic excavation (whichever is smaller) may then be implemented' (Department of Environment, Climate Change and Water 2010, p.26). The *CoP* is also clear on how many test pits should be excavated and their placement.

The test excavation (if required) will conform with Requirement 16 of the *CoP*. This will include:

- The hand excavation of 500 x 500 millimetre test pits across a systematic 20 metre grid in areas considered to have high and moderate archaeological sensitivity.
- All excavation will be conducted by hand, and the excavation of initial test pits will proceed in 50 millimetres spits. Based on the results of the initial test pits, subsequent test pits will be excavated either in 100 millimetre spits or by stratigraphic unit, dependant on which unit is smaller.
- Recording of each test pit will be conducted during excavation using either printed *pro forma* or with digital *pro forma* stored on an electronic tablet.
- 100% of excavated potential artefact bearing deposits will be sieved using 5 millimetre screens. Austral has allowed for dry sieving as part of the excavation program. Dependant on the soils encountered and site conditions, material may need to be wet sieved. Water for the sieving station would be provided by a water tanker and pump.
- Artefacts will be collected from the sieves and bagged according to excavation pit provenance. Each test pit will be backfilled to the best of our ability with the sieved material excavated from the pits at the conclusion of the testing program.

ARTEFACT COLLECTION AND STORAGE

Collection and salvage of all artefacts will be undertaken according to the following methodology.

- Each artefact identified during the subsurface testing will be relocated and temporarily stored at Austral's Albion Park office located at Shop 1, 148 Tongarra Road, Albion Park NSW 2527. After the submission of the final subsurface testing report, the collected Aboriginal material will be taken to a location within or near to the study area previously agreed upon by the proponent and all registered Aboriginal stakeholders for reburial in accordance with requirements of the *CoP*.
- The landowner on whose property this area may be located is to be approached for consent to return the Aboriginal archaeological material to site. If the site where the artefacts are to be returned is situated upon Crown Land, then the appropriate authority managing the Local Government Area is to be approached and informed.
- A representative of all RAPs and Savills Australia on behalf of Uniting is to be invited to attend/participate in the return of artefacts to country.
- A GPS recording of the location is to be made and recorded as a new Aboriginal site. A site card will be completed, and the resulting site registered on Heritage NSW's AHIMS database.

Should it be necessary to move these artefacts at a later date, it is a requirement that a Care and Control agreement be completed as part of any AHIP application. This will require the identified Aboriginal stakeholders and Heritage NSW to be consulted over a suitable relocation site. This new site will also require GPS coordinates and all necessary details to be recorded with Heritage NSW's AHIMS database.

3. CONSULTATION

As part of Stage 3 of the Consultation Requirements, Aboriginal stakeholders are to be provided with a 28 day period to have the opportunity to review and provide feedback on the proposed methodology.

As a registered stakeholder, we ask that you review the above methodology and provide feedback regarding:

- Any known Aboriginal objects or areas of cultural significance that are present within the study area.
- Any information regarding nearby places of cultural significance. This includes places of social, spiritual and cultural value.
- Any culturally relevant information that may affect the archaeological interpretation of the site.

- Any protocols that you wish to be implemented or changed regarding the excavation strategy.
- Any protocols that you wish to be implemented or changed regarding the collection and reburial or conservation of any identified cultural heritage.
- Any management recommendations, such as ways to avoid or mitigate harm to the Aboriginal cultural heritage on site.

The information provided will be used to understand the context and values of Aboriginal objects and / or places located within the study area. The information will be used as the basis of assessment for heritage values and to better inform the archaeological assessment of significance.

4. CULTURALLY SENSITIVE INFORMATION

Austral would like to take this opportunity to invite RAPs to provide culturally appropriate information. All cultural information that is provided as part of the consultation process will be recorded in the consultation log and will be discussed in the ACHA. RAPs must advise Austral if the information they are providing is to be considered confidential. When providing this information, RAPs must detail the nature of the sensitivity and how this knowledge is to be restricted. Based on this information, Austral will formulate a methodology to record this information that is consistent with the values communicated. Where culturally sensitive information has been disclosed, the ACHA will identify this on the front cover. Alternatively, the ACHA may be finalised in a restricted and unrestricted format for private and public dissemination. All documentation and recordings will be stored securely.

5. CARE AND CONTROL OF ABORIGINAL OBJECTS

As stated previously, all cultural material will be temporarily stored at Austral's Albion Park office. Once this has been analysed, all cultural material will be subject to the following process:

- The Care and Control of Aboriginal objects will be negotiated with RAPs as part of the consultation process included in the ACHA. This will be enacted into a Care and Control agreement.
- Aboriginal objects may also be returned to country and reburied as soon as practicable in accordance with requirements 16b and 26 of *CoP*.

Austral requests that RAPs provide any preferences they have for the care and control of Aboriginal objects as part of the review of this document.

6. REPORTING

Austral will complete an ACHA that includes the results of the Aboriginal community consultation undertaken. The ACHA will consist of:

- Introduction
- Planning Framework
- Aboriginal Background
- Site Analysis
- Maps and Site Plans etc.
- Aboriginal Stakeholder Consultation including all submissions received from RAPs and responses to the issues raised
- Assessment of Archaeological Potential
- Archaeological Testing Analysis and Results (if required)
- Impact Assessment
- Conclusions and Management Recommendations.

Please take the time to read this letter and feel free to contact me on the number provided below should you wish to raise any concerns or if you require additional information. Please do not

hesitate to contact myself (Taylor Foster, Project Manager, Austral) on 0478 162 379 if you wish to discuss any aspect of this submission.
