Dear Ms Laguna,

Re: Enirgi Battery Recycling Facility, Bomen (SSD 6619) Notice of Exhibition

I refer to your recent correspondence to Mr Sam Sangster, Chief Executive, Health Infrastructure NSW regarding the above matter. This matter comes within the jurisdiction of the Public Health Unit located within the Murrumbidgee Local Health District (MLHD).

The MLHD's Public Health Unit provided comments in September 2017 in relation to the proposed amendment to the project scope for this facility. It is understood that these issues were included into the NSW Planning - Secretary's Environmental Assessment Requirements.

A review of the Environmental Impact Statement indicates that the issues as raised in September 2017 have been addressed. No additional issues are raised by Public Health.

If you have any questions, please contact Tony Burns on 5943 2044 or via email at tony.burns1@health.nsw.gov.au

Yours sincerely

Ms Jill Ludford
Chief Executive
Murrumbidgee Local Health District
