Aboriginal Owners (ORALRA)	Office of the Registrar, Aboriginal Land Rights Act 1983 (NSW) (ORALRA)	Sam Sammut	Artefact	Email	20/11/2024	Sent letter asking for contact details of Aboriginal stakeholders who may have a cultural knowledge of or a connection to the project area. Responses requested by 4/12/2024.
Ku-ring-gai Council	Ku-ring-gai Council	Sam Sammut	Artefact	Email	20/11/2024	Sent letter asking for contact details of Aboriginal stakeholders who may have a cultural knowledge of or a connection to the project area. Responses requested by 4/12/2024.
Metropolitan Local Aboriginal Land Council	Metropolitan Local Aboriginal Land Council	Sam Sammut	Artefact	Email	20/11/2024	Sent letter asking for contact details of Aboriginal stakeholders who may have a cultural knowledge of or a connection to the project area. Responses requested by 4/12/2024.
General enquiries	Greater Sydney Local Land Services	Sam Sammut	Artefact	Email	20/11/2024	Sent letter asking for contact details of Aboriginal stakeholders who may have a cultural knowledge of or a connection to the project area. Responses requested by 4/12/2024.
General Enquiries	National Native Title Tribunal (NNTT)	Sam Sammut	Artefact	Email	20/11/2024	Sent letter asking for contact details of Aboriginal stakeholders who may have a cultural knowledge of or a connection to the project area. Responses requested by 4/12/2024.
Geospatial	National Native Title Tribunal (NNTT)	Sam Sammut	Artefact	Email	20/11/2024	Sent letter asking for contact details of Aboriginal stakeholders who may have a cultural knowledge of or a connection to the project area. Responses requested by 4/12/2024.
Sam Sammut	Artefact	Geospatial	National Native Title Tribunal (NNTT)	Email	20/11/2024	Generic response.
Sam Sammut	Artefact	Ku-ring-gai Council	Ku-ring-gai Council	Email	20/11/2024	Generic response.

Sam Sammut	Artefact	General Enquiries	National Native Title Tribunal (NNTT)	Email	20/11/2024	Generic response.
Sam Sammut	Artefact	General enquiries	Greater Sydney Local Land Services	Email	20/11/2024	Generic response.
Sam Sammut	Artefact	Heritage NSW	Heritage NSW	Email	20/11/2024	Generic response.
Sam Sammut	Artefact	Geospatial	National Native Title Tribunal (NNTT)	Email	21/11/2024	Sent results of geospatial search, no overlapping Native Title matters exist within the study area.
Sam Sammut	Artefact	Customer Service Team	Greater Sydney Local Land Services	Email	21/11/2024	GS LLS feels that it is not a primary source of contact for First Nations (Aboriginal) communities or persons that may inform or provide comment on development or planning issues. GS LLS strongly recommends you contact Heritage NSW to seek their advice on all-inclusive contact lists of persons and organisations who 'speak for Country' and that may assist with your investigation.
Sam Sammut	Artefact	Aboriginal Owners (ORALRA)	Office of the Registrar, Aboriginal Land Rights Act 1983 (NSW) (ORALRA)	Email	25/11/2024	A search of the RAO has shown that there are currently no Registered Aboriginal Owners in the project area. We suggest you contact Metropolitan Local Aboriginal Land Council.
Sam Sammut	Artefact	Barry Gunther	Heritage NSW	Email	26/11/2024	Sent list of Aboriginal stakeholders for the Ku-ring-gai LGA.
Sam Sammut	Artefact	Rathna Rana	Ku-ring-gai Council	Email	23/12/2024	Your email has recently been forwarded to me. I apologise for its delayed processing through Council's system. I can advise that there are no individuals nor groups officially recognised as belonging to this Country. Various claims by individuals/groups are made, however they are disputed by other individuals/groups. In light of this we recommend you seek input from the following two organisations: Metro Local Aboriginal Land Council - at present considered the key body to speak for Country at this location and has statutory recognition.

						Aboriginal Heritage Office, How to Contact the Aboriginal Heritage Office - Aboriginal Heritage Office - provides advice and training to 6 Sydney Councils including Ku-ring-gai Council.
4.1.3 - ADVERT						
Buy Search Sell	Daily Telegraph	Sam Sammut	Artefact Heritage	Email	5/12/2024	Advertisement placed on 6/12/2024 with response requested by 20/12/2024.
4.1.3 – Identification of Potential Aboriginal Parties

Subject: Proposed development at Pymble Ladies College, Pymble – Aboriginal Cultural Heritage Assessment Report: Identification of Interested Aboriginal Parties

20 November 2024

Dear Sir/Madam,

Re: Proposed development at Pymble Ladies College, Pymble – Aboriginal Cultural Heritage Assessment Report: Identification of Interested Aboriginal Parties

Pymble Ladies College (the proponent) is proposing the development of the last building in their masterplan of works. This development would include the construction of a new building and landscaping to the surrounding environment. Further to works carried out on the Grey House Precinct building, which is currently under construction, the proponent now requires an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the Secondary Innovation Precinct, which is the last piece of the Masterplan of works, that ties the campus together.

The proponent is preparing to apply for as a State Significant Development (SSD) under the *Environmental Planning and Assessment Act 1979*. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological), through the preparation of an ACHAR. The proponent has engaged Artefact Heritage and Environment to complete the ACHAR for the project, including consultation in accordance with the *Aboriginal cultural heritage consultation requirements for proponents 2010* (DECCW 2010).

In accordance with these requirements and as part of the assessment process, the proponent would like to consult with any Aboriginal persons or organisations that hold cultural knowledge relevant to determining the significance of Aboriginal objects and places in the Pymble region. The purpose of community consultation is to assist the proponent in identifying and describing the Aboriginal cultural heritage values within the proposal area and aid in the documentation of these values in the environmental assessment.

The contact details of the proponent are:

Greg Hastie
Project Director: Masterplanning and Capital Works

Dear Jonny,

Request - Search for Registered Aboriginal Owners: Proposed development at Pymble Ladies College, Pymble

We refer to your email to this office dated 12 November 2024 seeking the identification of Aboriginal organisations, stakeholders and/or people who may have cultural knowledge relevant to the proposed construction of a new building and landscaping at Pymble Ladies College, Pymble, NSW.

Under Section 170 of the Aboriginal Land Rights Act 1983 the Office of the Registrar is required to maintain the Register of Aboriginal Owners (RAO). A search of the RAO has shown that there are currently no Registered Aboriginal Owners in the project area.

We suggest you contact the Metropolitan Local Aboriginal Land Council on (02) 8394 9666 or via email - nmoran@metrolalc.org.au as they may wish to participate or contribute.

Yours sincerely

A handwritten signature in blue ink, appearing to read 'Rachel Rewiri'.

20 November 2024

Dear Sir/Madam,

**Re: Proposed development at Pymble Ladies College, Pymble – Aboriginal Cultural Heritage Assessment
Report: Identification of Interested Aboriginal Parties**

Pymble Ladies College (the proponent) is proposing the development of the last building in their masterplan of works. This development would include the construction of a new building and landscaping to the surrounding environment. Further to works carried out on the Grey House Precinct building, which is currently under construction, the proponent now requires an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the Secondary Innovation Precinct, which is the last piece of the Masterplan of works, that ties the campus together.

The proponent is preparing to apply for as a State Significant Development (SSD) under the *Environmental Planning and Assessment Act 1979*. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological), through the preparation of an ACHAR. The proponent has engaged Artefact Heritage and Environment to complete the ACHAR for the project, including consultation in accordance with the *Aboriginal cultural heritage consultation requirements for proponents 2010* (DECCW 2010).

In accordance with these requirements and as part of the assessment process, the proponent would like to consult with any Aboriginal persons or organisations that hold cultural knowledge relevant to determining the significance of Aboriginal objects and places in the Pymble region. The purpose of community consultation is to assist the proponent in identifying and describing the Aboriginal cultural heritage values within the proposal area and aid in the documentation of these values in the environmental assessment.

The contact details of the proponent are:

Greg Hastie
Project Director: Masterplanning and Capital Works

Subject: RE: Proposed development at Pymble Ladies College, Pymble – Aboriginal Cultural Heritage Assessment Report: Identification of Interested Aboriginal Parties

Dear Sammuel

Thank you for your recent letter seeking assistance to identify Aboriginal stakeholder organisations and persons who may hold an interest in Country at the project area designated in your correspondence.

Greater Sydney Local Land Services (GS LLS) acknowledges that Local Land Services (formerly as Catchment Management Authorities) has been listed in Section 4.1.3.(g) of the Aboriginal Cultural Heritage Consultation requirements for proponents 2010, to support Part 6, of the NSW National Parks and Wildlife Act 1974 as a source of information to obtain the 'names of Aboriginal people who may hold cultural knowledge relevant to determining the significance of Aboriginal objects and/or places'.

GS LLS understands and respects the significant role and values that tangible and intangible Aboriginal Cultural Heritage holds for First Nations/Aboriginal people with Country. GS LLS also partners with many First Nations communities on Caring for Country projects that aim to protect and enhance those tangible and intangible values in Country including Aboriginal Cultural Heritage. GS LLS considers Aboriginal Cultural Heritage matters in relation to its role in land management and considers cultural heritage issues in the context of Natural Resource Management.

However, GS LLS feels that it is not a primary source of contact for First Nations (Aboriginal) communities or persons that may inform or provide comment on development or planning issues.

GS LLS strongly recommends you contact Heritage NSW to seek their advice on all-inclusive contact lists of persons and organisations who 'speak for Country' and that may assist with your investigation.

Regards

Customer Service Team

Subject: Proposed development at Pymble Ladies College, Pymble – Aboriginal Cultural Heritage Assessment Report: Identification of Interested Aboriginal Parties

20 November 2024

Dear Sir/Madam,

Re: Proposed development at Pymble Ladies College, Pymble – Aboriginal Cultural Heritage Assessment Report: Identification of Interested Aboriginal Parties

Pymble Ladies College (the proponent) is proposing the development of the last building in their masterplan of works. This development would include the construction of a new building and landscaping to the surrounding environment. Further to works carried out on the Grey House Precinct building, which is currently under construction, the proponent now requires an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the Secondary Innovation Precinct, which is the last piece of the Masterplan of works, that ties the campus together.

The proponent is preparing to apply for as a State Significant Development (SSD) under the *Environmental Planning and Assessment Act 1979*. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological), through the preparation of an ACHAR. The proponent has engaged Artefact Heritage and Environment to complete the ACHAR for the project, including consultation in accordance with the *Aboriginal cultural heritage consultation requirements for proponents 2010* (DECCW 2010).

In accordance with these requirements and as part of the assessment process, the proponent would like to consult with any Aboriginal persons or organisations that hold cultural knowledge relevant to determining the significance of Aboriginal objects and places in the Pymble region. The purpose of community consultation is to assist the proponent in identifying and describing the Aboriginal cultural heritage values within the proposal area and aid in the documentation of these values in the environmental assessment.

The contact details of the proponent are:

Greg Hastie
Project Director: Masterplanning and Capital Works
Pymble Ladies' College
ghastie@pymblelc.nsw.edu.au

In line with the relevant consultation guidelines, I am writing to you to request names and contact details that your organisation has for any such Aboriginal people or groups. Please forward any information available before **4 December 2024** to:

To: Sammuel Sammut
Subject: RE: SR24/2006 - Geospatial Search Request [SEC=OFFICIAL]

OFFICIAL

Your ref: 240450 PLC Innovation Precinct **Our ref:** SR24/2006

Dear Sammuel Sammut

Thank you for your search request, please find your results below.

Search Results

The results provided are based on the information you supplied and are derived from a search of the following Tribunal databases:

- Schedule of Native Title Determination Applications
- Register of Native Title Claims
- Native Title Determinations
- Indigenous Land Use Agreements (Registered and notified)

Results for overlapping native title matters in NSW:

Feature ID	Tenure	Cadastre Data As At	Feature Area SqKm	Overlap	
11//DP7131	FREEHOLD	8/03/2024	0.0020	NNTT File Number	Name
				No overlap	
12//DP7131	FREEHOLD	8/03/2024	0.0020	NNTT File Number	Name
				No overlap	
13//DP7131	FREEHOLD	8/03/2024	0.0020	NNTT File Number	Name
				No overlap	
14//DP7131	FREEHOLD	8/03/2024	0.0020	NNTT File Number	Name
				No overlap	
15//DP7131	FREEHOLD	8/03/2024	0.0020	NNTT File Number	Name
				No overlap	
16//DP7131	FREEHOLD	8/03/2024	0.0021	NNTT File Number	Name
				No overlap	

For more information about the Tribunal’s registers or to search the registers yourself and obtain copies of relevant register extracts, please visit our [website](#).

Information on native title claims and freehold land can also be found on the Tribunal’s website here: [Native title claims and freehold land](#) .

Please note: There may be a delay between a native title determination application being lodged in the Federal Court and its transfer to the Tribunal. As a result, some native title determination applications recently filed with the Federal Court may not appear on the Tribunal's databases.

The search results are based on analysis against external boundaries of applications only. Native title applications commonly contain exclusions clauses which remove areas from within the external boundary. To determine whether the areas described are in fact subject to claim, you need to refer to the "Area covered by claim" section of the relevant Register Extract or Schedule Extract and any maps attached.

Search results and the existence of native title

Please note that the enclosed information from the Register of Native Title Claims and/or the Schedule of Applications is **not** confirmation of the existence of native title in this area. This cannot be confirmed until the Federal Court makes a determination that native title does or does not exist in relation to the area. Such determinations are registered on the National Native Title Register.

The Tribunal accepts no liability for reliance placed on enclosed information

The enclosed information has been provided in good faith. Use of this information is at your sole risk. The National Native Title Tribunal makes no representation, either express or implied, as to the accuracy or suitability of the information enclosed for any particular purpose and accepts no liability for use of the information or reliance placed on it.

If you have any further queries, please do not hesitate to contact us via GeospatialSearch@NNTT.gov.au

Some people who received this message don't often get email from rrana@krg.nsw.gov.au. [Learn why this is important](#)

Dear Jonny

Your email has recently been forwarded to me. I apologise for its delayed processing through Council's system.

I can advise that there are no individuals nor groups officially recognised as belonging to this Country. Various claims by individuals/groups are made, however they are disputed by other individuals/groups.

In light of this we recommend you seek input from the following two organisations:

- Metro Local Aboriginal Land Council - at present considered the key body to speak for Country at this location and has statutory recognition.
- Aboriginal Heritage Office, [How to Contact the Aboriginal Heritage Office - Aboriginal Heritage Office](#) - provides advice and training to 6 Sydney Councils including Ku-ring-gai Council.

Please let me know if you require anything further.

Kind regards

Subject: Proposed development at Pymble Ladies College, Pymble – Aboriginal Cultural Heritage Assessment Report: Identification of Interested Aboriginal Parties

20 November 2024

Dear Sir/Madam,

Re: Proposed development at Pymble Ladies College, Pymble – Aboriginal Cultural Heritage Assessment Report: Identification of Interested Aboriginal Parties

Pymble Ladies College (the proponent) is proposing the development of the last building in their masterplan of works. This development would include the construction of a new building and landscaping to the surrounding environment. Further to works carried out on the Grey House Precinct building, which is currently under construction, the proponent now requires an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the Secondary Innovation Precinct, which is the last piece of the Masterplan of works, that ties the campus together.

The proponent is preparing to apply for as a State Significant Development (SSD) under the *Environmental Planning and Assessment Act 1979*. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological), through the preparation of an ACHAR. The proponent has engaged Artefact Heritage and Environment to complete the ACHAR for the project, including consultation in accordance with the *Aboriginal cultural heritage consultation requirements for proponents 2010* (DECCW 2010).

In accordance with these requirements and as part of the assessment process, the proponent would like to consult with any Aboriginal persons or organisations that hold cultural knowledge relevant to determining the significance of Aboriginal objects and places in the Pymble region. The purpose of community consultation is to assist the proponent in identifying and describing the Aboriginal cultural heritage values within the proposal area and aid in the documentation of these values in the environmental assessment.

The contact details of the proponent are:

PYMBLE LADIES' COLLEGE ON AVON ROAD,
PYMBLE – ABORIGINAL CULTURAL
HERITAGE ASSESSMENT INVITATION TO
REGISTER INTEREST

Artefact Heritage and Environment on behalf of Pymble Ladies' College (the proponent) is undertaking an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the proposed development of the last building in their masterplan of works. This proposed development would include the construction of a new building and landscaping to the surrounding environment at Pymble Ladies' College on Avon Road, Pymble.

Pymble Ladies' College, c/o Greg Hastie, email:
ghastie@pymblelc.nsw.edu.au

The proponent is preparing to apply for as a State Significant Development (SSD) under the Environmental Planning and Assessment Act 1979. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological), through the preparation of an ACHAR. The purpose of this community consultation is to inform the development of an ACHAR to include in the Environmental Impact Statement (EIS) for the project. The proponent would like to consult with any Aboriginal persons or organisations that hold cultural knowledge relevant to determining the significance of Aboriginal objects and places in the Pymble region.

Interested parties should register in writing, providing their name, address, email, phone number and information on their connection to the area. Please note that the Consultation Guidelines requires us to provide details of the Registered Aboriginal Parties to Heritage NSW and the Metropolitan Local Aboriginal Land Council (LALC). In your response, could you please advise if you would not like your details provided.

Please register your interest in the project by 20/12/2024 by contacting:

Dear Tracey Howie,

Re: Proposed development at Pymble Ladies College on Avon Road, Pymble – Registration of Interest

Pymble Ladies College (the proponent) is proposing the development of the last building in their masterplan of works. This development would include the construction of a new building and landscaping to the surrounding environment at Pymble Ladies College on Avon Road, Pymble (shown in Figure 1). Further to works carried out on the Grey House Precinct building, which is currently under construction, the proponent now requires an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the Secondary Innovation Precinct, which is the last piece of the Masterplan of works, that ties the campus together.

The contact details for the proponent are:

Greg Hastie
Project Director: Masterplanning and Capital Works
Pymble Ladies' College
ghastie@pymblelc.nsw.edu.au

The proponent is preparing to apply for as a State Significant Development (SSD) under the *Environmental Planning and Assessment Act 1979*. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological), through the preparation of an ACHAR. The proponent has engaged Artefact Heritage and Environment to complete the ACHAR for the project, including consultation in accordance with the *Aboriginal cultural heritage consultation requirements for proponents 2010* (DECCW 2010).

We are inviting registrations of interest in the project from Aboriginal groups and individuals who hold cultural knowledge relevant to determining the significance of Aboriginal objects and/or places in the locality of the project. The purpose of community consultation is to assist the proponent in identifying and describing the Aboriginal cultural heritage values within the proposal area and aid in the documentation of these values in the environmental assessment.

Please note that the consultation guidelines require us to provide details of the Registered Aboriginal Parties to Heritage NSW (formerly Office of Environment and Heritage) and the Metropolitan Local Aboriginal Land Council (LALC). In your response could you please advise if you would not like your details to be provided.

Please register your interest for the project by **20 December 2024**, by contacting

Aboriginal Heritage Consultation
Artefact Heritage
Suite 56, Jones Bay Wharf, 26-32 Pirrama Road, Pyrmont NSW 2009
consultation@artefact.net.au

Please mark all responses with the following subject line: 'Pymble Ladies' College Innovation Precinct' and address the following points:

- Name and contact details of the organisation registering
- An outline of the connection of the organisation to the area
- If you would like to be involved in any fieldwork (if required), details of rates and insurances (Public Liability and Workers Compensation or equivalent).

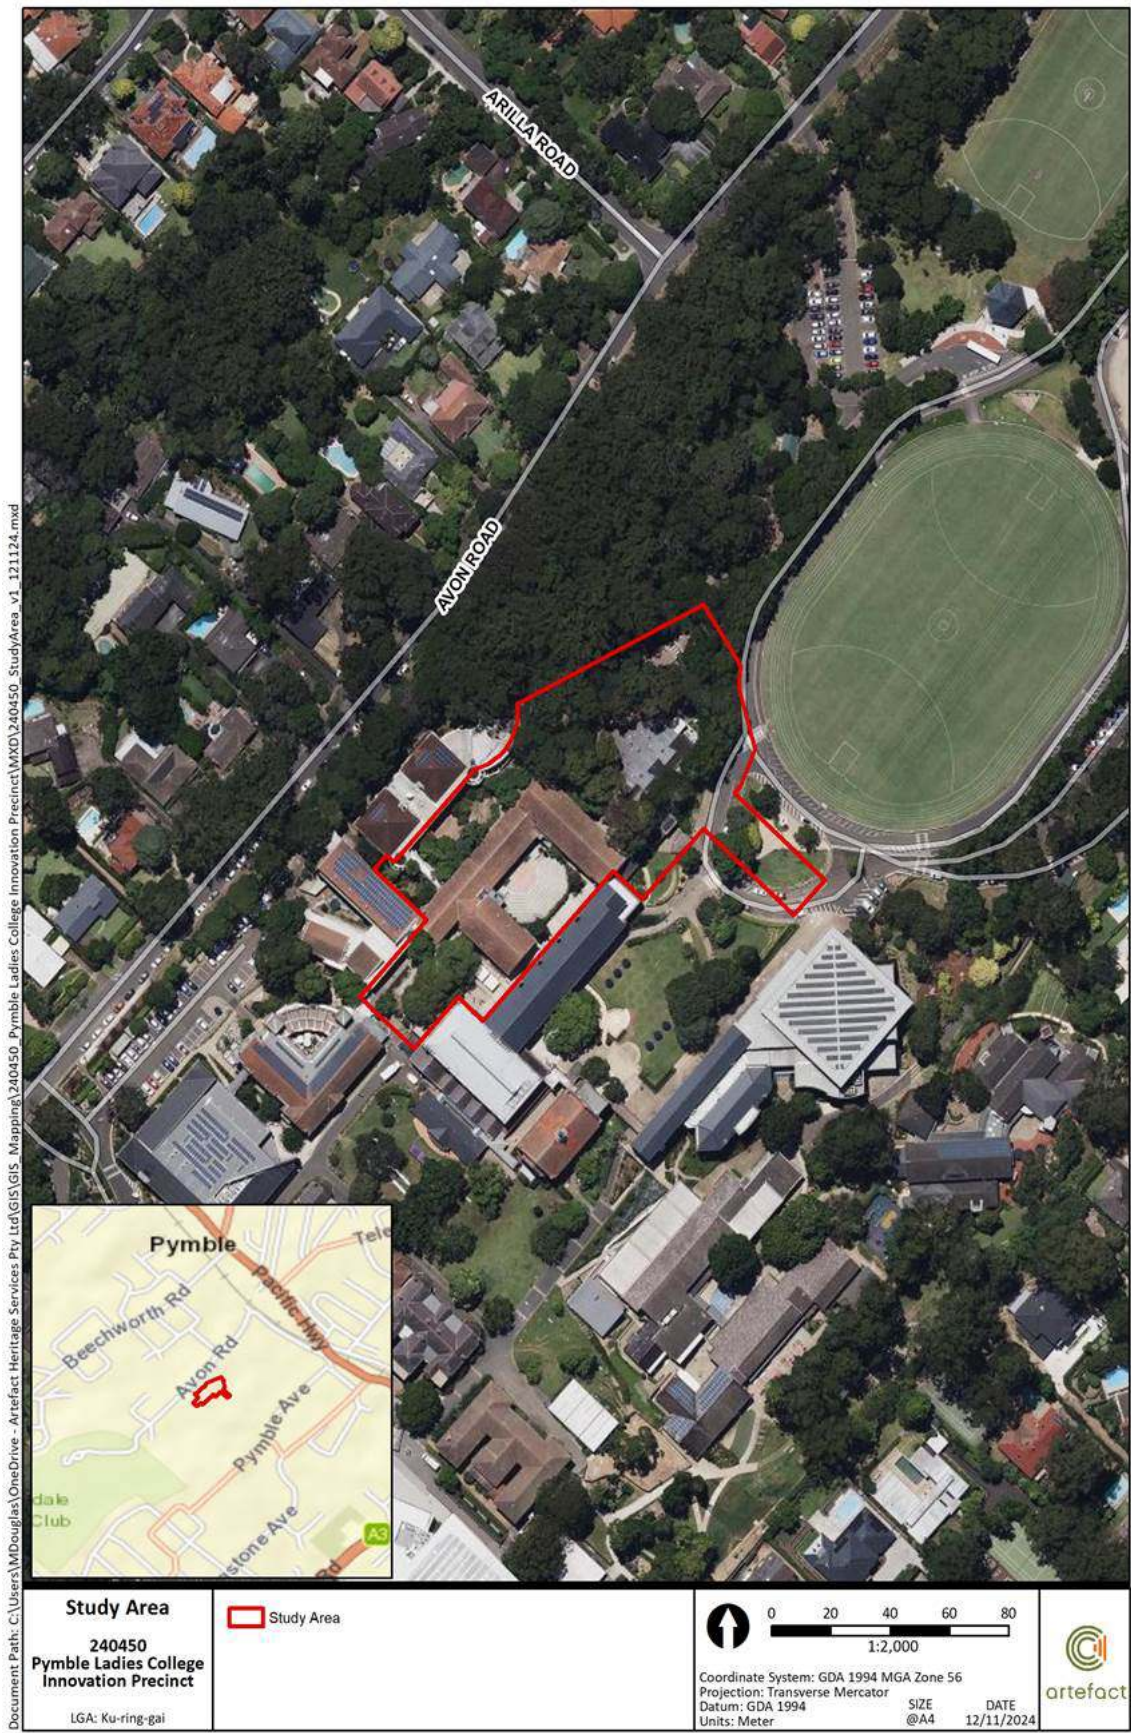

If you require any additional information, please do not hesitate to contact me.

Subject: Proposed development at Pymble Ladies College on Avon Road, Pymble – Registration of Interest

5 December 2024

Bo Field (Manager)
Yurrandaali
yurrandaali_cs@hotmail.com

Dear Bo Field (Manager),

Re: Proposed development at Pymble Ladies College on Avon Road, Pymble – Registration of Interest

Pymble Ladies College (the proponent) is proposing the development of the last building in their masterplan of works. This development would include the construction of a new building and landscaping to the surrounding environment at Pymble Ladies College on Avon Road, Pymble (shown in Figure 1). Further to works carried out on the Grey House Precinct building, which is currently under construction, the proponent now requires an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the Secondary Innovation Precinct, which is the last piece of the Masterplan of works, that ties the campus together.

The contact details for the proponent are:

Greg Hastie
Project Director: Masterplanning and Capital Works
Pymble Ladies' College
ghastie@pymblelc.nsw.edu.au

The proponent is preparing to apply for as a State Significant Development (SSD) under the *Environmental Planning and Assessment Act 1979*. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological), through the preparation of an ACHAR. The proponent has engaged Artefact Heritage and Environment to complete the ACHAR for the project, including consultation in accordance with the *Aboriginal cultural heritage consultation requirements for proponents 2010* (DECCW 2010).

We are inviting registrations of interest in the project from Aboriginal groups and individuals who hold cultural knowledge relevant to determining the significance of Aboriginal objects and/or places in the locality of the project. The purpose of community consultation is to assist the proponent in identifying and describing the Aboriginal cultural heritage values within the proposal area and aid in the documentation of these values in the environmental assessment.

Please note that the consultation guidelines require us to provide details of the Registered Aboriginal Parties to Heritage NSW (formerly Office of Environment and Heritage) and the Metropolitan Local Aboriginal Land Council (LALC). In your response could you please advise if you would not like your details to be provided.

Please register your interest for the project by **20 December 2024**, by contacting

Aboriginal Heritage Consultation
Artefact Heritage
Suite 56, Jones Bay Wharf, 26-32 Pirrama Road, Pyrmont NSW 2009
consultation@artefact.net.au

Please mark all responses with the following subject line: 'Pymble Ladies' College Innovation Precinct' and address the following points:

- Name and contact details of the organisation registering
- An outline of the connection of the organisation to the area
- If you would like to be involved in any fieldwork (if required), details of rates and insurances (Public Liability and Workers Compensation or equivalent).

If you require any additional information, please do not hesitate to contact me.

Kind regards,

Jonny Love

Subject: Proposed development at Pymble Ladies College on Avon Road, Pymble – Registration of Interest

5 December 2024

Hika Te Kowhai
Walbunja (Murrin Clan/Peoples)
walbunja@gmail.com

Dear Hika Te Kowhai,

Re: Proposed development at Pymble Ladies College on Avon Road, Pymble – Registration of Interest

Pymble Ladies College (the proponent) is proposing the development of the last building in their masterplan of works. This development would include the construction of a new building and landscaping to the surrounding environment at Pymble Ladies College on Avon Road, Pymble (shown in Figure 1). Further to works carried out on the Grey House Precinct building, which is currently under construction, the proponent now requires an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the Secondary Innovation Precinct, which is the last piece of the Masterplan of works, that ties the campus together.

The contact details for the proponent are:

Greg Hastie
Project Director: Masterplanning and Capital Works
Pymble Ladies' College
ghastie@pymblelc.nsw.edu.au

The proponent is preparing to apply for as a State Significant Development (SSD) under the *Environmental Planning and Assessment Act 1979*. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological), through the preparation of an ACHAR. The proponent has engaged Artefact Heritage and Environment to complete the ACHAR for the project, including consultation in accordance with the *Aboriginal cultural heritage consultation requirements for proponents 2010* (DECCW 2010).

We are inviting registrations of interest in the project from Aboriginal groups and individuals who hold cultural knowledge relevant to determining the significance of Aboriginal objects and/or places in the locality of the project. The purpose of community consultation is to assist the proponent in identifying and describing the Aboriginal cultural heritage values within the proposal area and aid in the documentation of these values in the environmental assessment.

Please note that the consultation guidelines require us to provide details of the Registered Aboriginal Parties to Heritage NSW (formerly Office of Environment and Heritage) and the Metropolitan Local Aboriginal Land Council (LALC). In your response could you please advise if you would not like your details to be provided.

Please register your interest for the project by **20 December 2024**, by contacting

We are inviting registrations of interest in the project from Aboriginal groups and individuals who hold cultural knowledge relevant to determining the significance of Aboriginal objects and/or places in the locality of the project. The purpose of community consultation is to assist the proponent in identifying and describing the Aboriginal cultural heritage values within the proposal area and aid in the documentation of these values in the environmental assessment.

Please note that the consultation guidelines require us to provide details of the Registered Aboriginal Parties to Heritage NSW (formerly Office of Environment and Heritage) and the Metropolitan Local Aboriginal Land Council (LALC). In your response could you please advise if you would not like your details to be provided.

Please register your interest for the project by **20 December 2024**, by contacting

Aboriginal Heritage Consultation
Artefact Heritage
Suite 56, Jones Bay Wharf, 26-32 Pirrama Road, Pyrmont NSW 2009
consultation@artefact.net.au

Please mark all responses with the following subject line: 'Pymble Ladies' College Innovation Precinct' and address the following points:

- Name and contact details of the organisation registering
- An outline of the connection of the organisation to the area
- If you would like to be involved in any fieldwork (if required), details of rates and insurances (Public Liability and Workers Compensation or equivalent).

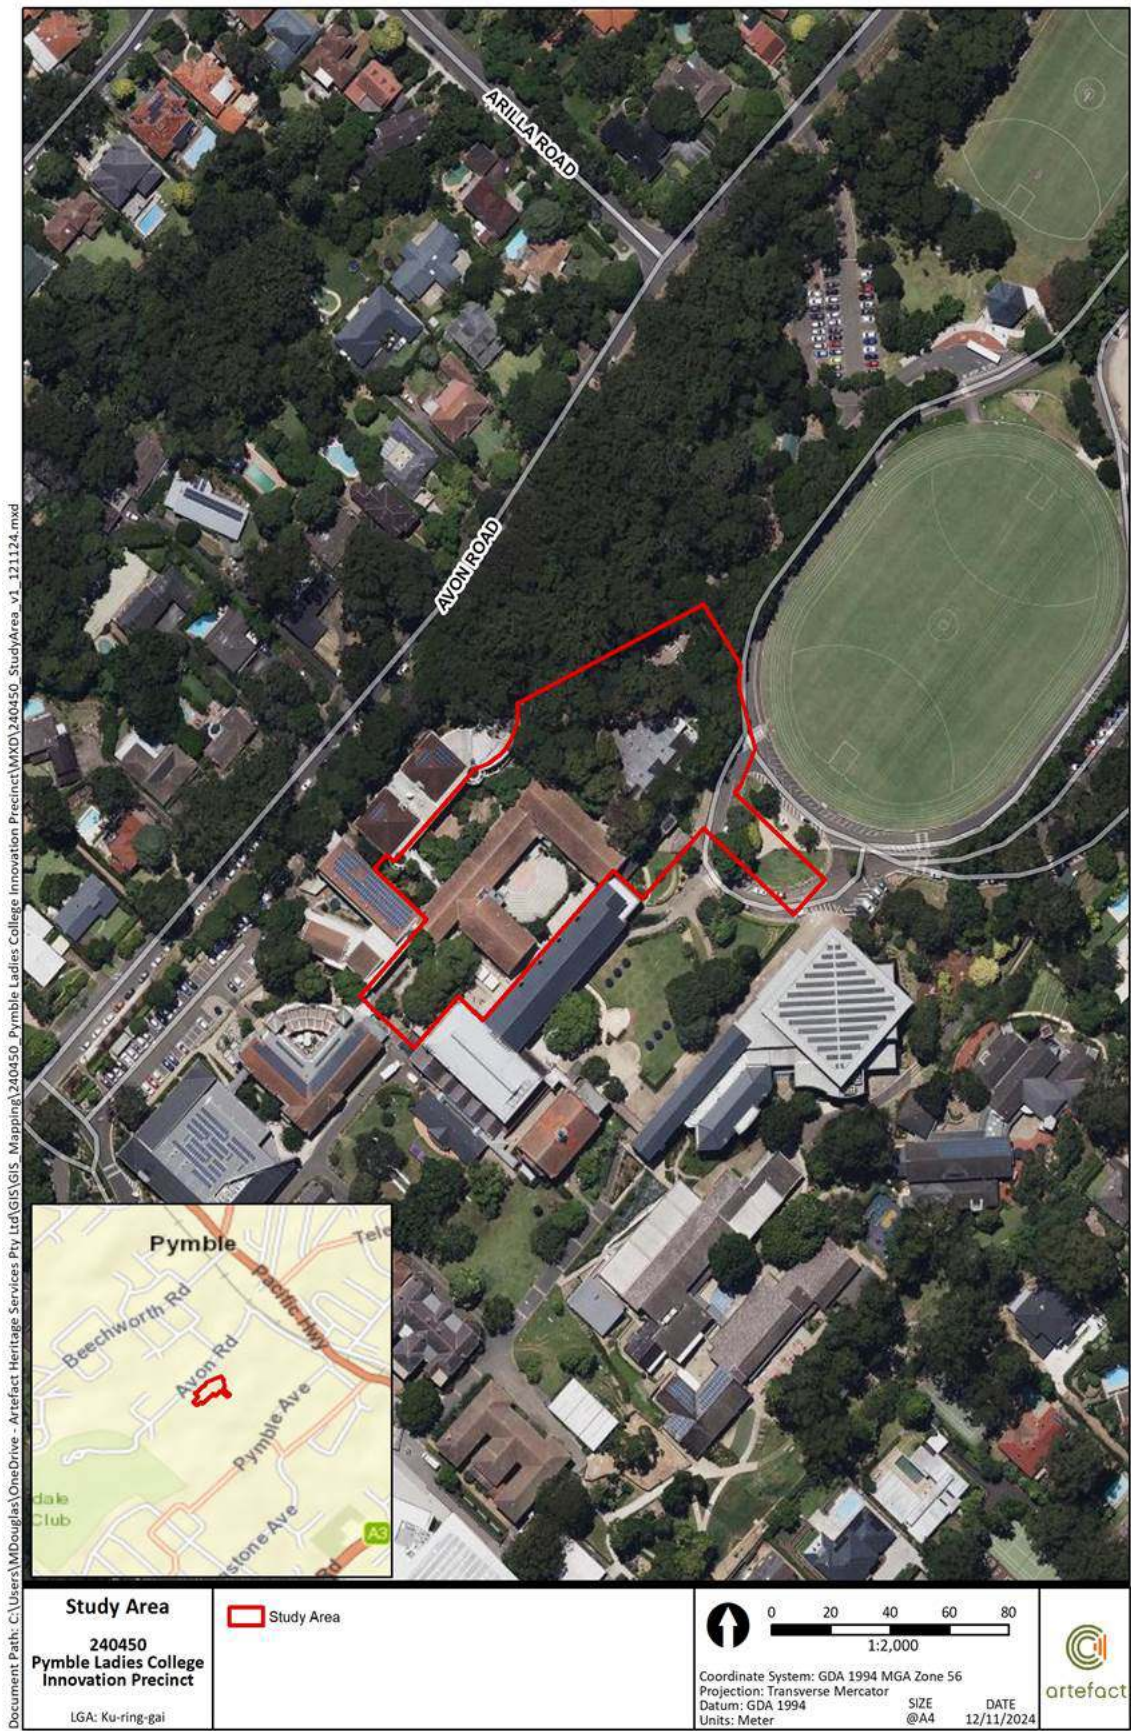

If you require any additional information, please do not hesitate to contact me.

Kind regards,

5 December 2024

Pemulwuy Johnson
Pemulwuy (Murrin Clan/Peoples)
pemulwuyd@gmail.com

Dear Pemulwuy Johnson,

Re: Proposed development at Pymble Ladies College on Avon Road, Pymble – Registration of Interest

Pymble Ladies College (the proponent) is proposing the development of the last building in their masterplan of works. This development would include the construction of a new building and landscaping to the surrounding environment at Pymble Ladies College on Avon Road, Pymble (shown in Figure 1). Further to works carried out on the Grey House Precinct building, which is currently under construction, the proponent now requires an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the Secondary Innovation Precinct, which is the last piece of the Masterplan of works, that ties the campus together.

The contact details for the proponent are:

Greg Hastie
Project Director: Masterplanning and Capital Works
Pymble Ladies' College
ghastie@pymblelc.nsw.edu.au

The proponent is preparing to apply for as a State Significant Development (SSD) under the *Environmental Planning and Assessment Act 1979*. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological), through the preparation of an ACHAR. The proponent has engaged Artefact Heritage and Environment to complete the ACHAR for the project, including consultation in accordance with the *Aboriginal cultural heritage consultation requirements for proponents 2010* (DECCW 2010).

We are inviting registrations of interest in the project from Aboriginal groups and individuals who hold cultural knowledge relevant to determining the significance of Aboriginal objects and/or places in the locality of the project. The purpose of community consultation is to assist the proponent in identifying and describing the Aboriginal cultural heritage values within the proposal area and aid in the documentation of these values in the environmental assessment.

Please note that the consultation guidelines require us to provide details of the Registered Aboriginal Parties to Heritage NSW (formerly Office of Environment and Heritage) and the Metropolitan Local Aboriginal Land Council (LALC). In your response could you please advise if you would not like your details to be provided.

Pymble Ladies' College
ghastie@pymblelc.nsw.edu.au

The proponent is preparing to apply for as a State Significant Development (SSD) under the *Environmental Planning and Assessment Act 1979*. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological), through the preparation of an ACHAR. The proponent has engaged Artefact Heritage and Environment to complete the ACHAR for the project, including consultation in accordance with the *Aboriginal cultural heritage consultation requirements for proponents 2010* (DECCW 2010).

We are inviting registrations of interest in the project from Aboriginal groups and individuals who hold cultural knowledge relevant to determining the significance of Aboriginal objects and/or places in the locality of the project. The purpose of community consultation is to assist the proponent in identifying and describing the Aboriginal cultural heritage values within the proposal area and aid in the documentation of these values in the environmental assessment.

Please note that the consultation guidelines require us to provide details of the Registered Aboriginal Parties to Heritage NSW (formerly Office of Environment and Heritage) and the Metropolitan Local Aboriginal Land Council (LALC). In your response could you please advise if you would not like your details to be provided.

Please register your interest for the project by **20 December 2024**, by contacting

Aboriginal Heritage Consultation
Artefact Heritage
Suite 56, Jones Bay Wharf, 26-32 Pirrama Road, Pyrmont NSW 2009
consultation@artefact.net.au

Please mark all responses with the following subject line: 'Pymble Ladies' College Innovation Precinct' and address the following points:

- Name and contact details of the organisation registering
- An outline of the connection of the organisation to the area
- If you would like to be involved in any fieldwork (if required), details of rates and insurances (Public Liability and Workers Compensation or equivalent).

If you require any additional information, please do not hesitate to contact me.

Dear Phil Khan,

Re: Proposed development at Pymble Ladies College on Avon Road, Pymble – Registration of Interest

Pymble Ladies College (the proponent) is proposing the development of the last building in their masterplan of works. This development would include the construction of a new building and landscaping to the surrounding environment at Pymble Ladies College on Avon Road, Pymble (shown in Figure 1). Further to works carried out on the Grey House Precinct building, which is currently under construction, the proponent now requires an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the Secondary Innovation Precinct, which is the last piece of the Masterplan of works, that ties the campus together.

The contact details for the proponent are:

Greg Hastie
Project Director: Masterplanning and Capital Works
Pymble Ladies' College
ghastie@pymblelc.nsw.edu.au

The proponent is preparing to apply for as a State Significant Development (SSD) under the *Environmental Planning and Assessment Act 1979*. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological), through the preparation of an ACHAR. Re: Proposed development at Pymble Ladies College on Avon Road, Pymble – Registration of Interest

Pymble Ladies College (the proponent) is proposing the development of the last building in their masterplan of works. This development would include the construction of a new building and landscaping to the surrounding environment at Pymble Ladies College on Avon Road, Pymble (shown in Figure 1). Further to works carried out on the Grey House Precinct building, which is currently under construction, the proponent now requires an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the Secondary Innovation Precinct, which is the last piece of the Masterplan of works, that ties the campus together.

The contact details for the proponent are:

Greg Hastie
Project Director: Masterplanning and Capital Works
Pymble Ladies' College
ghastie@pymblelc.nsw.edu.au

The proponent is preparing to apply for as a State Significant Development (SSD) under the *Environmental Planning and Assessment Act 1979*. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological), through the preparation of an ACHAR. The proponent has engaged Artefact Heritage and Environment to complete the ACHAR for the project, including consultation in accordance with the *Aboriginal cultural heritage consultation requirements for proponents 2010* (DECCW 2010).

We are inviting registrations of interest in the project from Aboriginal groups and individuals who hold cultural knowledge relevant to determining the significance of Aboriginal objects and/or places in the locality of the project. The purpose of community consultation is to assist the proponent in identifying and describing the Aboriginal cultural heritage values within the proposal area and aid in the documentation of these values in the environmental assessment.

Please note that the consultation guidelines require us to provide details of the Registered Aboriginal Parties to Heritage NSW (formerly Office of Environment and Heritage) and the Metropolitan Local Aboriginal Land Council (LALC). In your response could you please advise if you would not like your details to be provided.

Please register your interest for the project by **20 December 2024**, by contacting

Aboriginal Heritage Consultation
Artefact Heritage
Suite 56, Jones Bay Wharf, 26-32 Pirrama Road, Pyrmont NSW 2009
consultation@artefact.net.au

Please mark all responses with the following subject line: 'Pymble Ladies' College Innovation Precinct' and address the following points:

- Name and contact details of the organisation registering
- An outline of the connection of the organisation to the area
- If you would like to be involved in any fieldwork (if required), details of rates and insurances (Public Liability and Workers Compensation or equivalent).

If you require any additional information, please do not hesitate to contact me.

Subject: Proposed development at Pymble Ladies College on Avon Road, Pymble – Registration of Interest

5 December 2024

Mark Dyer
Darug Aboriginal Land Care
markdyer2009@live.com.au

Dear Mark Dyer,

Re: Proposed development at Pymble Ladies College on Avon Road, Pymble – Registration of Interest

Pymble Ladies College (the proponent) is proposing the development of the last building in their masterplan of works. This development would include the construction of a new building and landscaping to the surrounding environment at Pymble Ladies College on Avon Road, Pymble (shown in Figure 1). Further to works carried out on the Grey House Precinct building, which is currently under construction, the proponent now requires an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the Secondary Innovation Precinct, which is the last piece of the Masterplan of works, that ties the campus together.

The contact details for the proponent are:

Greg Hastie
Project Director: Masterplanning and Capital Works
Pymble Ladies' College
ghastie@pymblelc.nsw.edu.au

The proponent is preparing to apply for as a State Significant Development (SSD) under the *Environmental Planning and Assessment Act 1979*. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological), through the preparation of an ACHAR. The proponent has engaged Artefact Heritage and Environment to complete the ACHAR for the project, including consultation in accordance with the *Aboriginal cultural heritage consultation requirements for proponents 2010* (DECCW 2010).

We are inviting registrations of interest in the project from Aboriginal groups and individuals who hold cultural knowledge relevant to determining the significance of Aboriginal objects and/or places in the locality of the project. The purpose of community consultation is to assist the proponent in identifying and describing the Aboriginal cultural heritage values within the proposal area and aid in the documentation of these values in the environmental assessment.

Please note that the consultation guidelines require us to provide details of the Registered Aboriginal Parties to Heritage NSW (formerly Office of Environment and Heritage) and the Metropolitan Local Aboriginal Land Council (LALC). In your response could you please advise if you would not like your details to be provided.

Please register your interest for the project by **20 December 2024**, by contacting

Aboriginal Heritage Consultation
Artefact Heritage
Suite 56, Jones Bay Wharf, 26-32 Pirrama Road, Pyrmont NSW 2009
consultation@artefact.net.au

Please mark all responses with the following subject line: 'Pymble Ladies' College Innovation Precinct' and address the following points:

- Name and contact details of the organisation registering
- An outline of the connection of the organisation to the area
- If you would like to be involved in any fieldwork (if required), details of rates and insurances (Public Liability and Workers Compensation or equivalent).

If you require any additional information, please do not hesitate to contact me.

Subject: Proposed development at Pymble Ladies College on Avon Road, Pymble – Registration of Interest

5 December 2024

Nola Hampton
B.H. Heritage Consultants
kinghampton77@gmail.com

Dear Nola Hampton,

Re: Proposed development at Pymble Ladies College on Avon Road, Pymble – Registration of Interest

Pymble Ladies College (the proponent) is proposing the development of the last building in their masterplan of works. This development would include the construction of a new building and landscaping to the surrounding environment at Pymble Ladies College on Avon Road, Pymble (shown in Figure 1). Further to works carried out on the Grey House Precinct building, which is currently under construction, the proponent now requires an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the Secondary Innovation Precinct, which is the last piece of the Masterplan of works, that ties the campus together.

The contact details for the proponent are:

Greg Hastie
Project Director: Masterplanning and Capital Works
Pymble Ladies' College
ghastie@pymblelc.nsw.edu.au

The proponent is preparing to apply for as a State Significant Development (SSD) under the *Environmental Planning and Assessment Act 1979*. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological), through the preparation of an ACHAR. The proponent has engaged Artefact Heritage and Environment to complete the ACHAR for the project, including consultation in accordance with the *Aboriginal cultural heritage consultation requirements for proponents 2010* (DECCW 2010).

We are inviting registrations of interest in the project from Aboriginal groups and individuals who hold cultural knowledge relevant to determining the significance of Aboriginal objects and/or places in the locality of the project. The purpose of community consultation is to assist the proponent in identifying and describing the Aboriginal cultural heritage values within the proposal area and aid in the documentation of these values in the environmental assessment.

Please note that the consultation guidelines require us to provide details of the Registered Aboriginal Parties to Heritage NSW (formerly Office of Environment and Heritage) and the Metropolitan Local Aboriginal Land Council (LALC). In your response could you please advise if you would not like your details to be provided.

Please register your interest for the project by **20 December 2024**, by contacting

Hi Sammuel,

Thank you for informing us that **Artefact Heritage & Environment** will be involved in an Aboriginal Cultural Heritage Assessment at **Pymble Ladies College on Avon Road, Pymble** & that you are inviting Aboriginal organisations to register, if they wish too be involved in the community consultation process.

As a senior Aboriginal person for the past 51yrs, I actively participate in the protection of the Aboriginal Cultural Heritage throughout the Sydney Basin, & particularly throughout Western Sydney, on behalf of Kamilaroi-Yankuntjatjara Working Group I wish to provide to you my organisation's registration of interest.

I wish to be involved & participate in all levels of consultation/project involvement. I wish to attend all meetings, participate in available field work & receive a copy of the report.

I have attached a copy of Kamilaroi-Yankuntjatjara Working group's Public Liability Insurance & Workers Compensation certificate.

Our RAPS have up to 16yrs Cultural Heritage experience in - field work which involves manual excavation (digging), sieving, identifying artefacts, setting up transits, setting up equipment, packing equipment, site surveys & attending meetings (Focus groups, CwC, interpretation).

Should you wish me to provide further information, please do not hesitate to contact me or Stefeanie on 0451068480.

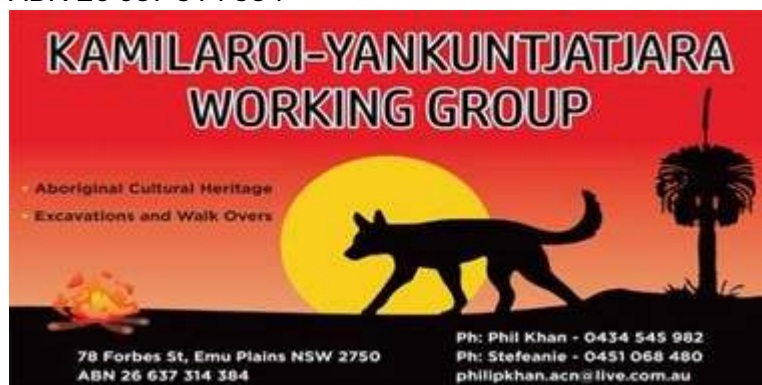

Kind Regards

The contact details for the proponent are:

Greg Hastie

Project Director: Masterplanning and Capital Works

Pymble Ladies' College

ghastie@pymblelc.nsw.edu.au

The proponent is preparing to apply for as a State Significant Development (SSD) under the *Environmental Planning and Assessment Act 1979*. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological), through the preparation of an ACHAR. The proponent has engaged Artefact Heritage and Environment to complete the ACHAR for the project, including consultation in accordance with the *Aboriginal cultural heritage consultation requirements for proponents 2010* (DECCW 2010).

We are inviting registrations of interest in the project from Aboriginal groups and individuals who hold cultural knowledge relevant to determining the significance of Aboriginal objects and/or places in the locality of the project. The purpose of community consultation is to assist the proponent in identifying and describing the Aboriginal cultural heritage values within the proposal area and aid in the documentation of these values in the environmental assessment.

Please note that the consultation guidelines require us to provide details of the Registered Aboriginal Parties to Heritage NSW (formerly Office of Environment and Heritage) and the Metropolitan Local Aboriginal Land Council (LALC). In your response could you please advise if you would not like your details to be provided.

Please register your interest for the project by **20 December 2024**, by contacting

Dear Amanda Hickey,

Re: Proposed development at Pymble Ladies College on Avon Road, Pymble – Registration of Interest

Pymble Ladies College (the proponent) is proposing the development of the last building in their masterplan of works. This development would include the construction of a new building and landscaping to the surrounding environment at Pymble Ladies College on Avon Road, Pymble (shown in Figure 1). Further to works carried out on the Grey House Precinct building, which is currently under construction, the proponent now requires an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the Secondary Innovation Precinct, which is the last piece of the Masterplan of works, that ties the campus together.

The contact details for the proponent are:

Greg Hastie
Project Director: Masterplanning and Capital Works
Pymble Ladies' College
ghastie@pymblelc.nsw.edu.au

The proponent is preparing to apply for as a State Significant Development (SSD) under the *Environmental Planning and Assessment Act 1979*. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological), through the preparation of an ACHAR. The proponent has engaged Artefact Heritage and Environment to complete the ACHAR for the project, including consultation in accordance with the *Aboriginal cultural heritage consultation requirements for proponents 2010* (DECCW 2010).

We are inviting registrations of interest in the project from Aboriginal groups and individuals who hold cultural knowledge relevant to determining the significance of Aboriginal objects and/or places in the locality of the project. The purpose of community consultation is to assist the proponent in identifying and describing the Aboriginal cultural heritage values within the proposal area and aid in the documentation of these values in the environmental assessment.

Please note that the consultation guidelines require us to provide details of the Registered Aboriginal Parties to Heritage NSW (formerly Office of Environment and Heritage) and the Metropolitan Local Aboriginal Land Council (LALC). Via email: metrolalc@metrolalc.org.au

Dear Sir/Madam,

Re: Consultation Stage 4.1.6 – Notification of Registered Aboriginal Parties for Pymble Ladies' College Secondary Innovation Precinct

Artefact Heritage and Environment has been engaged by Pymble Ladies' College to prepare an Aboriginal Cultural Heritage Assessment Report ahead of proposed developments to the college campus (Figure 1) to assess the impacts of the development to Aboriginal heritage (cultural and archaeological). The proposal includes the demolition of existing structures and the construction of a new building as well as landscaping to the surrounding environment.

The proponent is intending to apply for development consent as a State Significant Development (SSD) under the Environmental Planning and Assessment Act 1979. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological) through the preparation of an ACHAR.

The contact details of the proponent are:

Greg Hastie
Project Director: Masterplanning and Capital Works
Pymble Ladies' College
ghastie@pymblelc.nsw.edu.au

The ACHAR will be prepared in accordance with the *Guide to investigating, assessing, and reporting on Aboriginal Cultural Heritage in NSW* (OEH 2011) and will include community consultation in accordance with the *Aboriginal cultural heritage consultation requirements for proponents 2010* (DECCW 2010).

Six organisations registered as Registered Aboriginal Parties (RAPs) for this project prior to the close of ROIs on 20 December 2024. However, one organisation registered late on 7 January 2025.. In accordance with Stage 4.1.6 of the *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (DECCW 2010) please find the updated list of RAPs for the project below.

Table 1: List of RAPs for the project

Name	Organisation
Lilly Carrol	Didge Ngunawal Clan
Darleen Johnson	Murra Bidgee Mullangari Aboriginal Corporation
Amanda Hickey	Amanda Hickey Cultural Services
Jennifer Beale	Butucarbin Aboriginal Corporation
Jesse Johnson	Muragadi Heritage Indigenous Corporation
Phil Khan	Kamilaroi-Yankuntjatjara Working Group
Carolyn Hickey	A1 Indigenous Services

Also included below is evidence of the newspaper advertisement and a letter of invitation to register interest in the project (Consultation Stage 4.1.3). Invitations were sent to potential stakeholders on 5 December 2024 (Figure 2) and requested a response by 20 December 2024. The advertisement was published in the Daily Telegraph Online on 6 December 2024 and requested a response by 20 December 2024 (Figure 3).

PYMBLE LADIES' COLLEGE ON AVON ROAD, PYMBLE - ABORIGINAL CULTURAL HERITAGE ASSESSMENT INVITATION TO REGISTER INTEREST

Artefact Heritage and Environment on behalf of Pymble Ladies' College (the proponent) is undertaking an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the proposed development of the last building in their masterplan of works. This proposed development would include the construction of a new building and landscaping to the surrounding environment at Pymble Ladies' College on Avon Road, Pymble.

Pymble Ladies' College, c/o Greg Hastie, email: ghastie@pymblec.nsw.edu.au

The proponent is preparing to apply for as a State Significant Development (SSD) under the Environmental Planning and Assessment Act 1979. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological), through the preparation of an ACHAR. The purpose of this community consultation is to inform the development of an ACHAR to include in the Environmental Impact Statement (EIS) for the project. The proponent would like to consult with any Aboriginal persons or organisations that hold cultural knowledge relevant to determining the significance of Aboriginal objects and places in the Pymble region.

Interested parties should register in writing, providing their name, address, email, phone number and information on their connection to the area. Please note that the Consultation Guidelines requires us to provide details of the Registered Aboriginal Parties to Heritage NSW and the Metropolitan Local Aboriginal Land Council (LALC). In your response, could you please advise if you would not like your details provided.

Dear Tracey Howie,

Re: Proposed development at Pymble Ladies College on Avon Road, Pymble – Registration of Interest

Pymble Ladies College (the proponent) is proposing the development of the last building in their masterplan of works. This development would include the construction of a new building and landscaping to the surrounding environment at Pymble Ladies College on Avon Road, Pymble (shown in Figure 1). Further to works carried out on the Grey House Precinct building, which is currently under construction, the proponent now requires an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the Secondary Innovation Precinct, which is the last piece of the Masterplan of works, that ties the campus together.

The contact details for the proponent are:

Greg Hastie
Project Director: Masterplanning and Capital Works
Pymble Ladies' College
ghastie@pymblelc.nsw.edu.au

The proponent is preparing to apply for as a State Significant Development (SSD) under the *Environmental Planning and Assessment Act 1979*. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological), through the preparation of an ACHAR. The proponent has engaged Artefact Heritage and Environment to complete the ACHAR for the project, including consultation in accordance with the *Aboriginal cultural heritage consultation requirements for proponents 2010* (DECCW 2010).

We are inviting registrations of interest in the project from Aboriginal groups and individuals who hold cultural knowledge relevant to determining the significance of Aboriginal objects and/or places in the locality of the project. The purpose of community consultation is to assist the proponent in identifying and describing the Aboriginal cultural heritage values within the proposal area and aid in the documentation of these values in the environmental assessment.

Please note that the consultation guidelines require us to provide details of the Registered Aboriginal Parties to Heritage NSW (formerly Office of Environment and Heritage) and the Metropolitan Local Aboriginal Land Council (LALC). In your response could you please advise if you would not like your details to be provided.

Please register your interest for the project by **20 December 2024**, by contacting

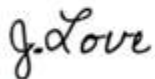

Aboriginal Heritage Consultation

Dear Sir/Madam,

Re: Consultation Stage 4.1.6 – Notification of Registered Aboriginal Parties for Pymble Ladies' College Secondary Innovation Precinct

Artefact Heritage and Environment has been engaged by Pymble Ladies' College to prepare an Aboriginal Cultural Heritage Assessment Report ahead of proposed developments to the college campus (Figure 1) to assess the impacts of the development to Aboriginal heritage (cultural and archaeological). The proposal includes the demolition of existing structures and the construction of a new building as well as landscaping to the surrounding environment.

The proponent is intending to apply for development consent as a State Significant Development (SSD) under the Environmental Planning and Assessment Act 1979. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological) through the preparation of an ACHAR.

The contact details of the proponent are:

Greg Hastie
Project Director: Masterplanning and Capital Works
Pymble Ladies' College
ghastie@pymblelc.nsw.edu.au

The ACHAR will be prepared in accordance with the *Guide to investigating, assessing, and reporting on Aboriginal Cultural Heritage in NSW* (OEH 2011) and will include community consultation in accordance with the *Aboriginal cultural heritage consultation requirements for proponents 2010* (DECCW 2010).

There are six Registered Aboriginal Parties (RAPs) for this project. In accordance with Stage 4.1.6 of the *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (DECCW 2010) please find the list of RAPs for the project below.

Table 1: List of RAPs for the project

Name	Organisation
Lilly Carrol	Didge Ngunawal Clan
Darleen Johnson	Murra Bidgee Mullangari Aboriginal Corporation
Amanda Hickey	Amanda Hickey Cultural Services
Jennifer Beale	Butucarbin Aboriginal Corporation
Jesse Johnson	Muragadi Heritage Indigenous Corporation
Phil Khan	Kamilaroi-Yankuntjatjara Working Group

Also included below is evidence of the newspaper advertisement and a letter of invitation to register interest in the project (Consultation Stage 4.1.3). Invitations were sent to potential stakeholders on 5 December 2024 (Figure 2) and requested a response by 20 December 2024. The advertisement was published in the Daily Telegraph Online on 6 December 2024 and requested a response by 20 December 2024 (Figure 3).

If you require any additional information, please don't hesitate to contact me.

Re: Pymble Ladies' College Secondary Innovation Precinct: Proposed Aboriginal Cultural Heritage Assessment Methodology

Dear Carolyn,

Thank you for registering as a stakeholder for the Pymble Ladies' College Secondary Innovation Precinct project. Your interest in the project has been formally registered in accordance with the *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (DECCW 2010a).

The next stage of Aboriginal cultural heritage work is due to commence, and we are contacting you regarding preparation of an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the project.

This letter provides information about the project and the proposed methodology for the ACHAR. Please note that as you have registered your interest following the close of the registration period, the proposed ACHAR methodology was distributed to RAPs on 23 December 2024 and due to constraints with the project timeline, we are unable to provide you additional time to provide comments. Therefore, I would like to invite you to review the methodology and provide any comments you may have by **28 January 2025**, in line with the date provided to other RAPs.

If you have any questions, please do not hesitate to contact Artefact Heritage on 02 9518 8411, or by email at consultation@artefact.net.au.

Yours sincerely,

Sammuel Sammut

Introduction

Artefact Heritage has been engaged by Pymble Ladies' College to prepare an ACHAR ahead of proposed developments to the college campus (Figure 1) to assess the impacts of a proposed development to Aboriginal heritage (cultural and archaeological). The proposal includes the demolition of existing structures and the construction of a new building as well as landscaping to the surrounding environment.

The proponent is intending to apply for development consent as a State Significant Development (SSD) under the *Environmental Planning and Assessment Act 1979*. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological) through the preparation of an ACHAR.

The proposed development is located within the boundaries of the Ku-ring-gai Local Government Area and the Metropolitan Local Aboriginal Land Council.

Proposed assessment methodology

Statutory requirements for the completion of an ACHAR

Artefact Heritage proposes to develop an assessment methodology in accordance with the following guidelines:

- *Guide to Investigating, Assessing and Reporting on Aboriginal Cultural Heritage in NSW* (OEH 2011)
- *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (DECCW 2010a)
- *Code of Practice for Archaeological Investigation of Aboriginal Objects in New South Wales* (DECCW 2010b)

The initial stages of this process have been completed, and a list of Registered Aboriginal Parties (RAPs) has been compiled. The present letter provides the RAPs with project information and the proposed assessment methodology for review.

The ACHAR will consist of the following components:

- **Aboriginal community consultation:** The initial stages of this process have been completed, and a list of Registered Aboriginal Parties (RAPs) has been compiled. The present letter provides the RAPs with project information and the proposed assessment methodology for review. The next stage of the consultation process will include the opportunity for comment on the proposed works and the assessment
- **Review of existing knowledge:** Review of previous archaeological works and Aboriginal Heritage Information Management System (AHIMS) search results
- **Review of the landscape context:** Desktop assessment of the archaeological implications of the landscape features (soil landscapes, historic land use, geomorphic character, and natural resources) relevant to the study area
- **Summary and discussion of the local and regional archaeological character of Aboriginal land use and its material traces** based on the finds of the previous two steps
- **Development of a predictive model for the nature and distribution of archaeological evidence of Aboriginal land use** based on the previous three steps
- **Completion of an archaeological survey** to test the prediction developed in the previous step. If Aboriginal sites are identified, submissions of site recordings for registration on AHIMS would be undertaken
- **Discussion of the results of the archaeological survey and re-evaluation of the regional and local archaeological character**
- **Assessment of the significance of any identified Aboriginal objects or places**
- **Assessment of likely impacts to Aboriginal objects and Potential Archaeological Deposits (PADs)** based on the current design plans
- **Consideration of any practical measures that may be required to protect and conserve identified Aboriginal objects and places identified within the study area.**

Archaeological test excavation

Depending on the results of the archaeological desktop study and survey, recommendations may be made to conduct test excavation. Test excavation would be undertaken to test for the presence of subsurface Aboriginal objects and gather enough information to assess significance and develop suitable management or mitigation measures.

A test excavation methodology would be prepared separately and provided to stakeholders for review and comment. Test excavation would be limited to areas of archaeological potential which would be subject to impacts as part of the proposed works and would be undertaken in partnership with the RAPs.

Timeframes

Artefact proposes the following indicative timeframes for the project:

- Distribution of this document to Registered Aboriginal Parties: 23 December 2024
- End of review period for the proposed methodology: **28 January 2025**
- Distribution of draft ACHAR to Registered Aboriginal Parties for review: within two weeks of the closing date for comment on this methodology.

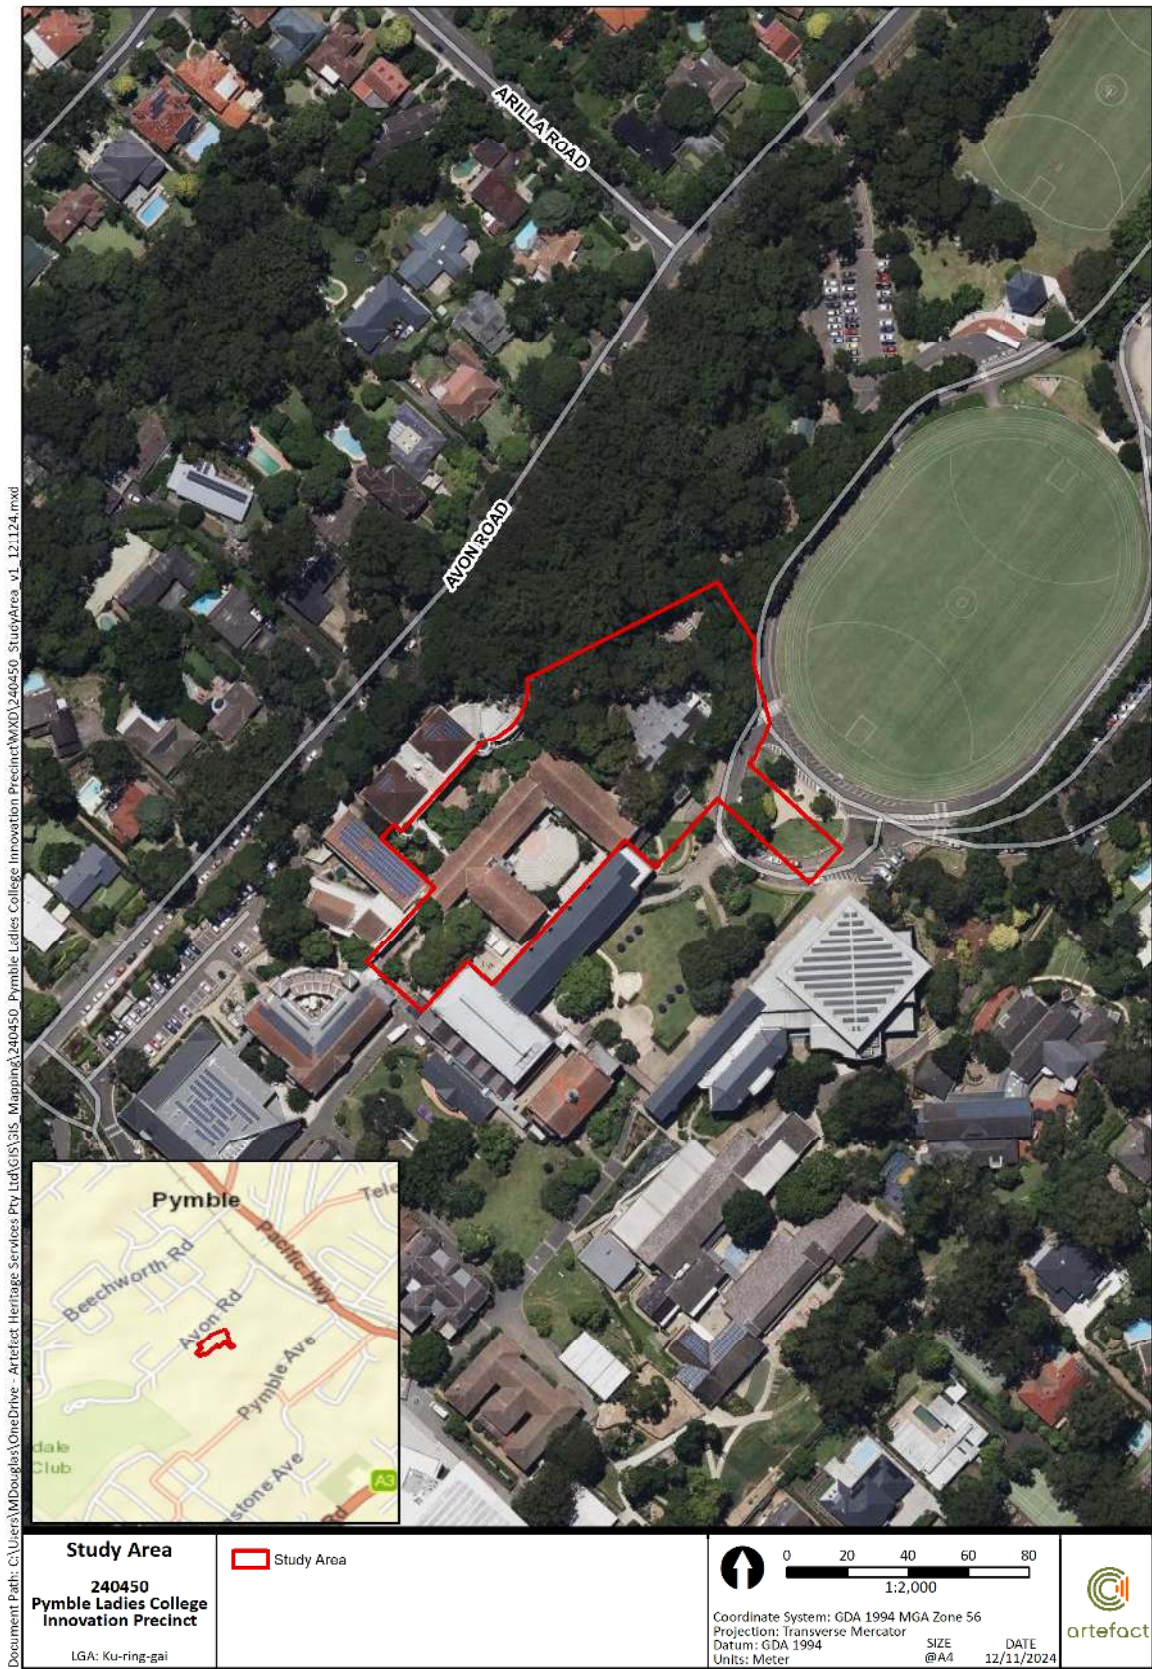

Information Sought

The proponent would appreciate your feedback on the methodology proposed above for the investigation and assessment of the study area.

In returning your answers, please include the following where appropriate:

- Any protocols that you would like adopted during the project
- Identification of any Aboriginal objects of cultural significance and/or importance that you are aware of within the study area, and how you wish them to be dealt with during the project
- Identification of any places of cultural significance and/or importance that you are aware of within the activity area, and how you wish them to be dealt with during the project
- Guidance on the protocols, sensitivity, use and/or distribution of any cultural information that you provide to the proponent
- Whether you require any further information prior to Artefact Heritage proceeding with the project.

1.1 Introduction

Artefact Heritage has been engaged by Pymble Ladies' College to prepare an ACHAR ahead of proposed developments to the college campus (**Figure 1**) to assess the impacts of a proposed development to Aboriginal heritage (cultural and archaeological). The proposal includes the demolition of existing structures and the construction of a new building as well as landscaping to the surrounding environment.

The proponent is intending to apply for development consent as a State Significant Development (SSD) under the *Environmental Planning and Assessment Act 1979*. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological) through the preparation of an ACHAR.

The proposed development is located within the boundaries of the Ku-ring-gai Local Government Area and the Metropolitan Local Aboriginal Land Council.

1.2 Proposed assessment methodology

1.2.1 Statutory requirements for the completion of an ACHAR

Artefact Heritage proposes to develop an assessment methodology in accordance with the following guidelines:

- *Guide to Investigating, Assessing and Reporting on Aboriginal Cultural Heritage in NSW* (OEH 2011)
- *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (DECCW 2010a)
- *Code of Practice for Archaeological Investigation of Aboriginal Objects in New South Wales* (DECCW 2010b)

The initial stages of this process have been completed, and a list of Registered Aboriginal Parties (RAPs) has been compiled. The present letter provides the RAPs with project information and the proposed assessment methodology for review.

The ACHAR will consist of the following components:

- Aboriginal community consultation: The initial stages of this process have been completed, and a list of Registered Aboriginal Parties (RAPs) has been compiled. The present letter provides the RAPs with project information and the proposed assessment methodology for review. The next stage of the consultation process will include the opportunity for comment on the proposed works and the assessment
- Review of existing knowledge: Review of previous archaeological works and Aboriginal Heritage Information Management System (AHIMS) search results
- Review of the landscape context: Desktop assessment of the archaeological implications of the landscape features (soil landscapes, historic land use, geomorphic character, and natural resources) relevant to the study area
- Summary and discussion of the local and regional archaeological character of Aboriginal land use and its material traces based on the finds of the previous two steps
- Development of a predictive model for the nature and distribution of archaeological evidence of Aboriginal land use based on the previous three steps
- Completion of an archaeological survey to test the prediction developed in the previous step. If Aboriginal sites are identified, submissions of site recordings for registration on AHIMS would be undertaken
- Discussion of the results of the archaeological survey and re-evaluation of the regional and local archaeological character
- Assessment of the significance of any identified Aboriginal objects or places

- Assessment of likely impacts to Aboriginal objects and Potential Archaeological Deposits (PADs) based on the current design plans
- Consideration of any practical measures that may be required to protect and conserve identified Aboriginal objects and places identified within the study area.

1.2.1.1 Archaeological test excavation

Depending on the results of the archaeological desktop study and survey, recommendations may be made to conduct test excavation. Test excavation would be undertaken to test for the presence of subsurface Aboriginal objects and gather enough information to assess significance and develop suitable management or mitigation measures.

A test excavation methodology would be prepared separately and provided to stakeholders for review and comment. Test excavation would be limited to areas of archaeological potential which would be subject to impacts as part of the proposed works and would be undertaken in partnership with the RAPs.

1.2.2 Timeframes

Artefact proposes the following indicative timeframes for the project:

- Distribution of this document to Registered Aboriginal Parties: 23 December 2024
- End of review period for the proposed methodology: **28 January 2025**
- Distribution of draft ACHAR to Registered Aboriginal Parties for review: within two weeks of the closing date for comment on this methodology.

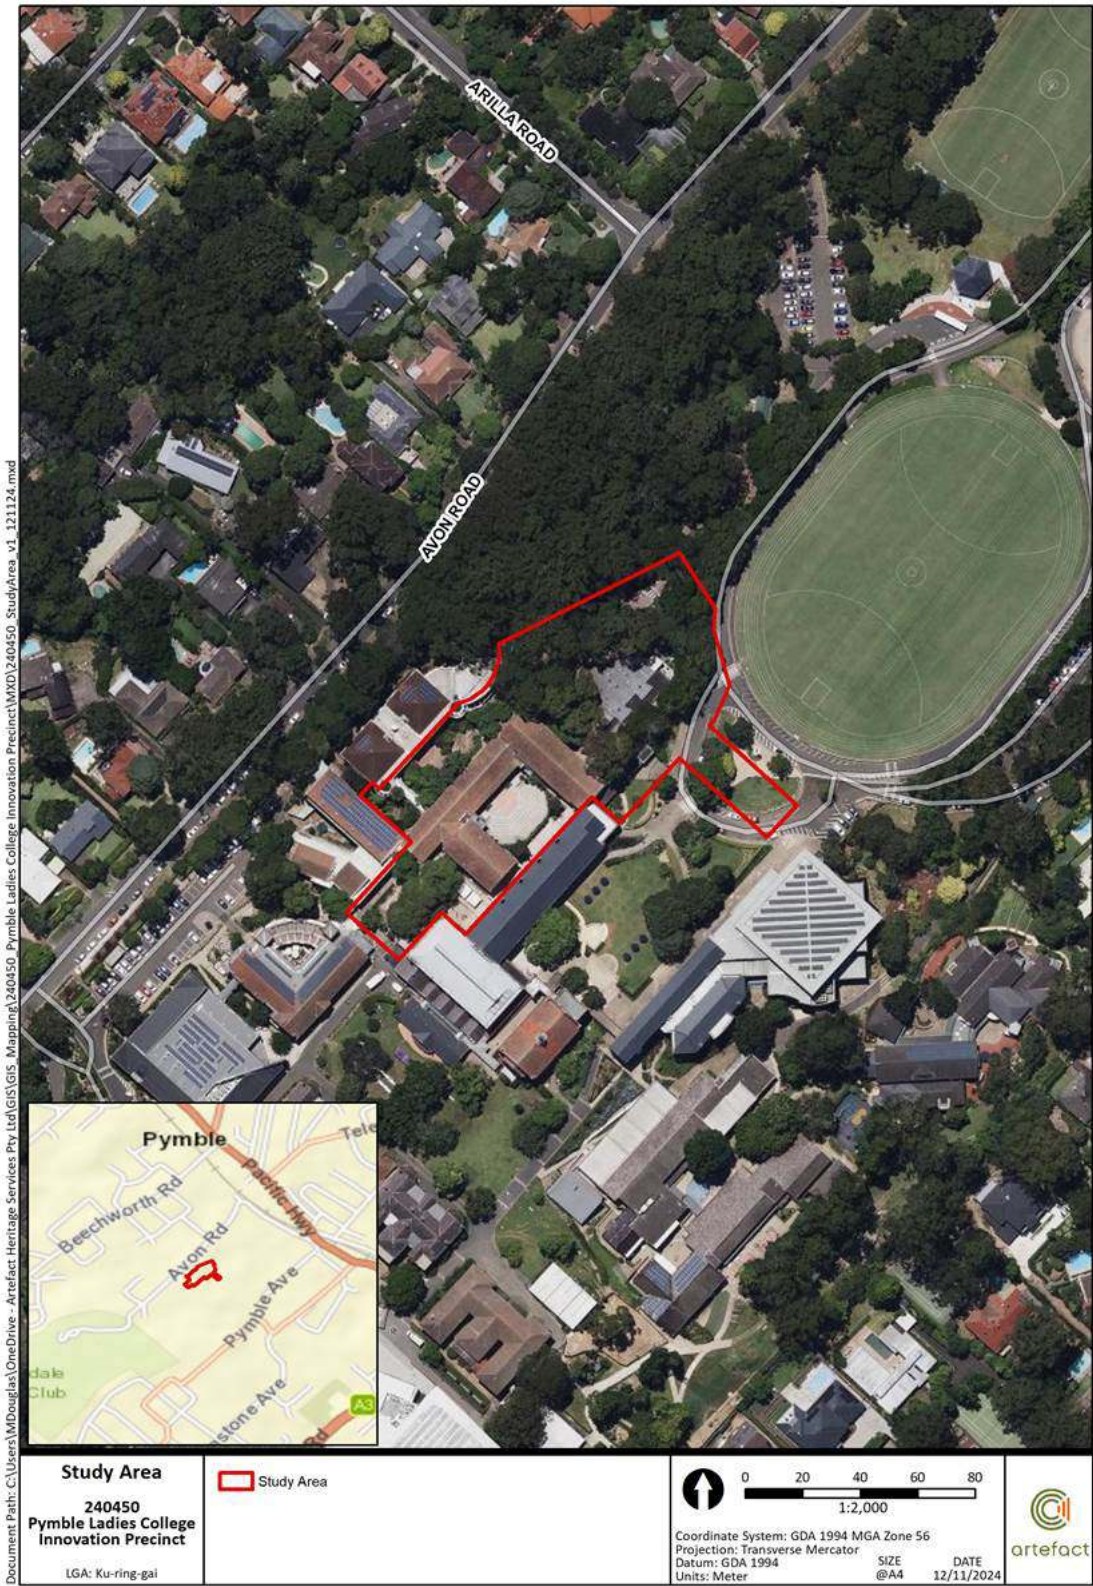

1.2.3 Information Sought

The proponent would appreciate your feedback on the methodology proposed above for the investigation and assessment of the study area.

In returning your answers, please include the following where appropriate:

- Any protocols that you would like adopted during the project
- Identification of any Aboriginal objects of cultural significance and/or importance that you are aware of within the study area, and how you wish them to be dealt with during the project
- Identification of any places of cultural significance and/or importance that you are aware of within the activity area, and how you wish them to be dealt with during the project
- Guidance on the protocols, sensitivity, use and/or distribution of any cultural information that you provide to the proponent
- Whether you require any further information prior to Artefact Heritage proceeding with the project.

Re: Pymble Ladies' College Secondary Innovation Precinct: Proposed Aboriginal Cultural Heritage Assessment Methodology

Dear Darleen Johnson ; Ryan Johnson,

Thank you for registering as a stakeholder for the Pymble Ladies' College Secondary Innovation Precinct project. Your interest in the project has been formally registered in accordance with the *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (DECCW 2010a).

The next stage of Aboriginal cultural heritage work is due to commence, and we are contacting you regarding preparation of an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the project.

This letter provides information about the project and the proposed methodology for the ACHAR. I would like to invite you to review the methodology and provide any comments you may have by **28 January 2025**.

If you have any questions, please do not hesitate to contact Artefact Heritage on 02 9518 8411, or by email at consultation@artefact.net.au.

Yours sincerely

1.1 Introduction

Artefact Heritage has been engaged by Pymble Ladies' College to prepare an ACHAR ahead of proposed developments to the college campus (**Figure 1**) to assess the impacts of a proposed development to Aboriginal heritage (cultural and archaeological). The proposal includes the demolition of existing structures and the construction of a new building as well as landscaping to the surrounding environment.

The proponent is intending to apply for development consent as a State Significant Development (SSD) under the *Environmental Planning and Assessment Act 1979*. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological) through the preparation of an ACHAR.

The proposed development is located within the boundaries of the Ku-ring-gai Local Government Area and the Metropolitan Local Aboriginal Land Council.

1.2 Proposed assessment methodology

1.2.1 Statutory requirements for the completion of an ACHAR

Artefact Heritage proposes to develop an assessment methodology in accordance with the following guidelines:

- *Guide to Investigating, Assessing and Reporting on Aboriginal Cultural Heritage in NSW* (OEH 2011)
- *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (DECCW 2010a)
- *Code of Practice for Archaeological Investigation of Aboriginal Objects in New South Wales* (DECCW 2010b)

The initial stages of this process have been completed, and a list of Registered Aboriginal Parties (RAPs) has been compiled. The present letter provides the RAPs with project information and the proposed assessment methodology for review.

The ACHAR will consist of the following components:

- **Aboriginal community consultation:** The initial stages of this process have been completed, and a list of Registered Aboriginal Parties (RAPs) has been compiled. The present letter provides the RAPs with project information and the proposed assessment methodology for review. The next stage of the consultation process will include the opportunity for comment on the proposed works and the assessment
- **Review of existing knowledge:** Review of previous archaeological works and Aboriginal Heritage Information Management System (AHIMS) search results
- **Review of the landscape context:** Desktop assessment of the archaeological implications of the landscape features (soil landscapes, historic land use, geomorphic character, and natural resources) relevant to the study area
- **Summary and discussion of the local and regional archaeological character of Aboriginal land use and its material traces** based on the finds of the previous two steps
- **Development of a predictive model** for the nature and distribution of archaeological evidence of Aboriginal land use based on the previous three steps
- **Completion of an archaeological survey** to test the prediction developed in the previous step. If Aboriginal sites are identified, submissions of site recordings for registration on AHIMS would be undertaken
- **Discussion of the results of the archaeological survey and re-evaluation of the regional and local archaeological character**
- **Assessment of the significance of any identified Aboriginal objects or places**

- Assessment of likely impacts to Aboriginal objects and Potential Archaeological Deposits (PADs) based on the current design plans
- Consideration of any practical measures that may be required to protect and conserve identified Aboriginal objects and places identified within the study area.

1.2.1.1 Archaeological test excavation

Depending on the results of the archaeological desktop study and survey, recommendations may be made to conduct test excavation. Test excavation would be undertaken to test for the presence of subsurface Aboriginal objects and gather enough information to assess significance and develop suitable management or mitigation measures.

A test excavation methodology would be prepared separately and provided to stakeholders for review and comment. Test excavation would be limited to areas of archaeological potential which would be subject to impacts as part of the proposed works and would be undertaken in partnership with the RAPs.

1.2.2 Timeframes

Artefact proposes the following indicative timeframes for the project:

- Distribution of this document to Registered Aboriginal Parties: 23 December 2024
- End of review period for the proposed methodology: **28 January 2025**
- Distribution of draft ACHAR to Registered Aboriginal Parties for review: within two weeks of the closing date for comment on this methodology.

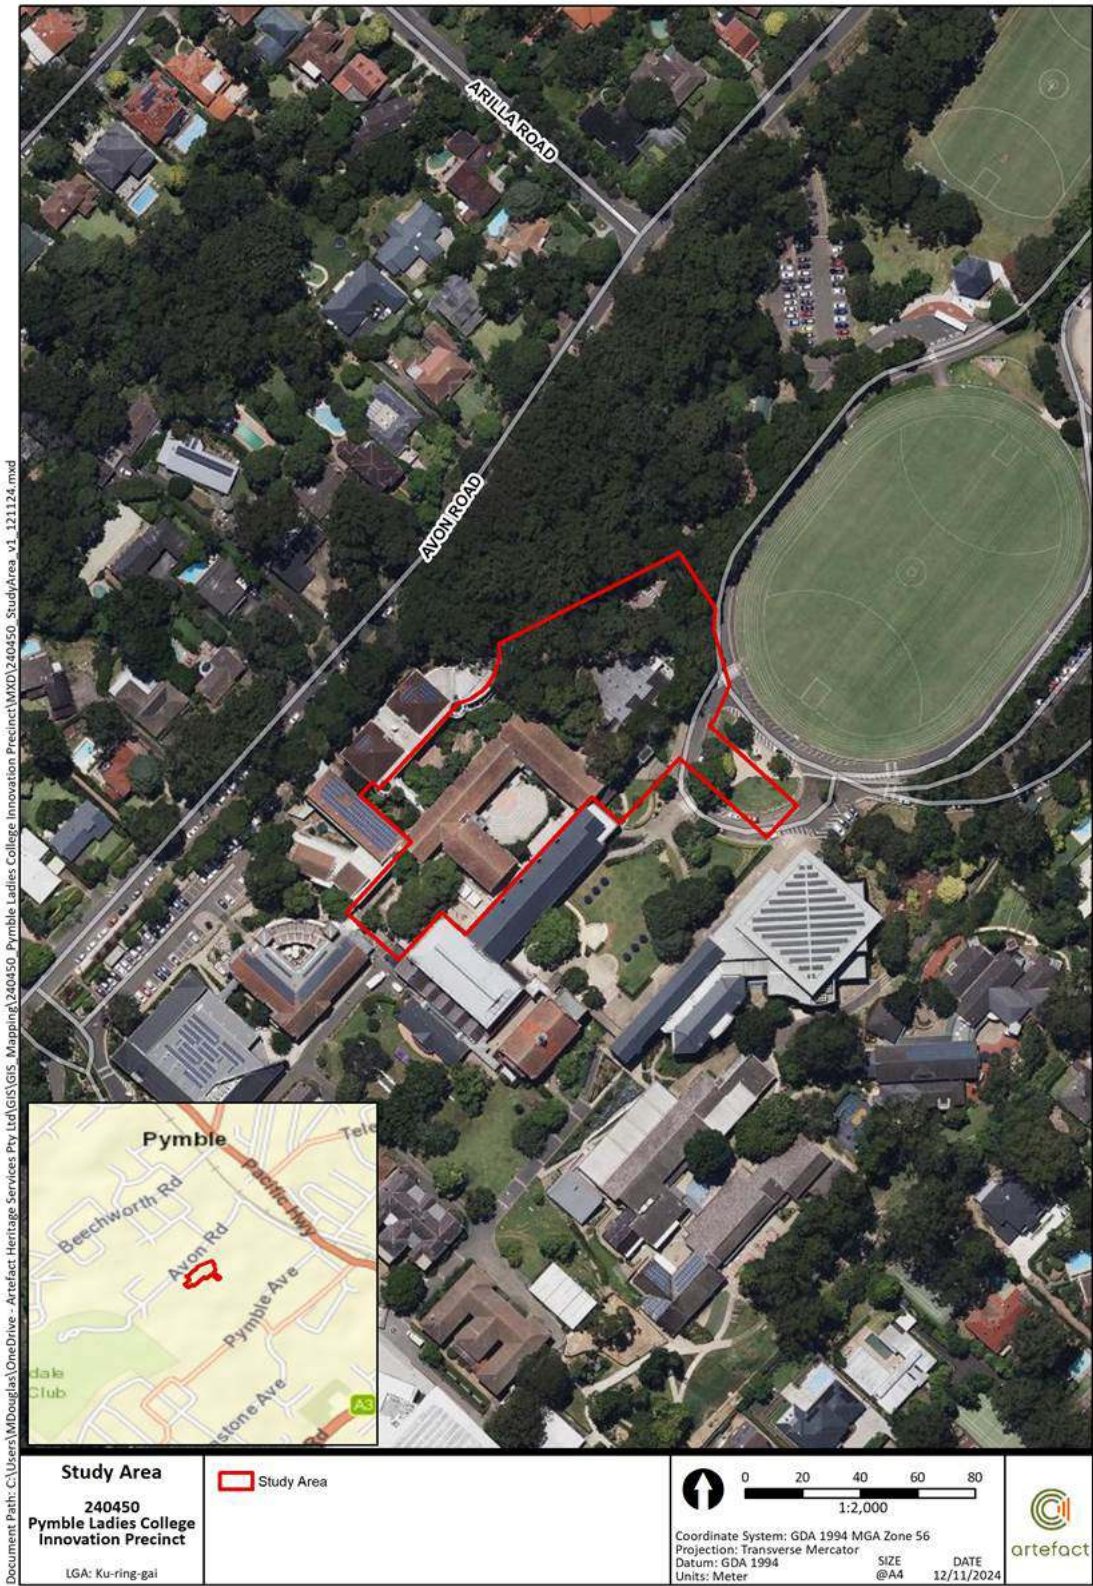

1.2.3 Information Sought

The proponent would appreciate your feedback on the methodology proposed above for the investigation and assessment of the study area.

In returning your answers, please include the following where appropriate:

- Any protocols that you would like adopted during the project
- Identification of any Aboriginal objects of cultural significance and/or importance that you are aware of within the study area, and how you wish them to be dealt with during the project
- Identification of any places of cultural significance and/or importance that you are aware of within the activity area, and how you wish them to be dealt with during the project
- Guidance on the protocols, sensitivity, use and/or distribution of any cultural information that you provide to the proponent
- Whether you require any further information prior to Artefact Heritage proceeding with the project.

Thank you for registering as a stakeholder for the Pymble Ladies' College Secondary Innovation Precinct project. Your interest in the project has been formally registered in accordance with the *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (DECCW 2010a).

The next stage of Aboriginal cultural heritage work is due to commence, and we are contacting you regarding preparation of an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the project.

This letter provides information about the project and the proposed methodology for the ACHAR. I would like to invite you to review the methodology and provide any comments you may have by **28 January 2025**.

If you have any questions, please do not hesitate to contact Artefact Heritage on 02 9518 8411, or by email at consultation@artefact.net.au.

Yours sincerely

1.1 Introduction

Artefact Heritage has been engaged by Pymble Ladies' College to prepare an ACHAR ahead of proposed developments to the college campus (**Figure 1**) to assess the impacts of a proposed development to Aboriginal heritage (cultural and archaeological). The proposal includes the demolition of existing structures and the construction of a new building as well as landscaping to the surrounding environment.

The proponent is intending to apply for development consent as a State Significant Development (SSD) under the *Environmental Planning and Assessment Act 1979*. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological) through the preparation of an ACHAR.

The proposed development is located within the boundaries of the Ku-ring-gai Local Government Area and the Metropolitan Local Aboriginal Land Council.

1.2 Proposed assessment methodology

1.2.1 Statutory requirements for the completion of an ACHAR

Artefact Heritage proposes to develop an assessment methodology in accordance with the following guidelines:

- *Guide to Investigating, Assessing and Reporting on Aboriginal Cultural Heritage in NSW* (OEH 2011)
- *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (DECCW 2010a)
- *Code of Practice for Archaeological Investigation of Aboriginal Objects in New South Wales* (DECCW 2010b)

The initial stages of this process have been completed, and a list of Registered Aboriginal Parties (RAPs) has been compiled. The present letter provides the RAPs with project information and the proposed assessment methodology for review.

The ACHAR will consist of the following components:

- **Aboriginal community consultation:** The initial stages of this process have been completed, and a list of Registered Aboriginal Parties (RAPs) has been compiled. The present letter provides the RAPs with project information and the proposed assessment methodology for review. The next stage of the consultation process will include the opportunity for comment on the proposed works and the assessment
- **Review of existing knowledge:** Review of previous archaeological works and Aboriginal Heritage Information Management System (AHIMS) search results
- **Review of the landscape context:** Desktop assessment of the archaeological implications of the landscape features (soil landscapes, historic land use, geomorphic character, and natural resources) relevant to the study area
- **Summary and discussion of the local and regional archaeological character of Aboriginal land use and its material traces** based on the finds of the previous two steps
- **Development of a predictive model for the nature and distribution of archaeological evidence of Aboriginal land use** based on the previous three steps
- **Completion of an archaeological survey to test the prediction** developed in the previous step. If Aboriginal sites are identified, submissions of site recordings for registration on AHIMS would be undertaken
- **Discussion of the results of the archaeological survey and re-evaluation of the regional and local archaeological character**
- **Assessment of the significance of any identified Aboriginal objects or places**

- Assessment of likely impacts to Aboriginal objects and Potential Archaeological Deposits (PADs) based on the current design plans
- Consideration of any practical measures that may be required to protect and conserve identified Aboriginal objects and places identified within the study area.

1.2.1.1 Archaeological test excavation

Depending on the results of the archaeological desktop study and survey, recommendations may be made to conduct test excavation. Test excavation would be undertaken to test for the presence of subsurface Aboriginal objects and gather enough information to assess significance and develop suitable management or mitigation measures.

A test excavation methodology would be prepared separately and provided to stakeholders for review and comment. Test excavation would be limited to areas of archaeological potential which would be subject to impacts as part of the proposed works and would be undertaken in partnership with the RAPs.

1.2.2 Timeframes

Artefact proposes the following indicative timeframes for the project:

- Distribution of this document to Registered Aboriginal Parties: 23 December 2024
- End of review period for the proposed methodology: **28 January 2025**
- Distribution of draft ACHAR to Registered Aboriginal Parties for review: within two weeks of the closing date for comment on this methodology.

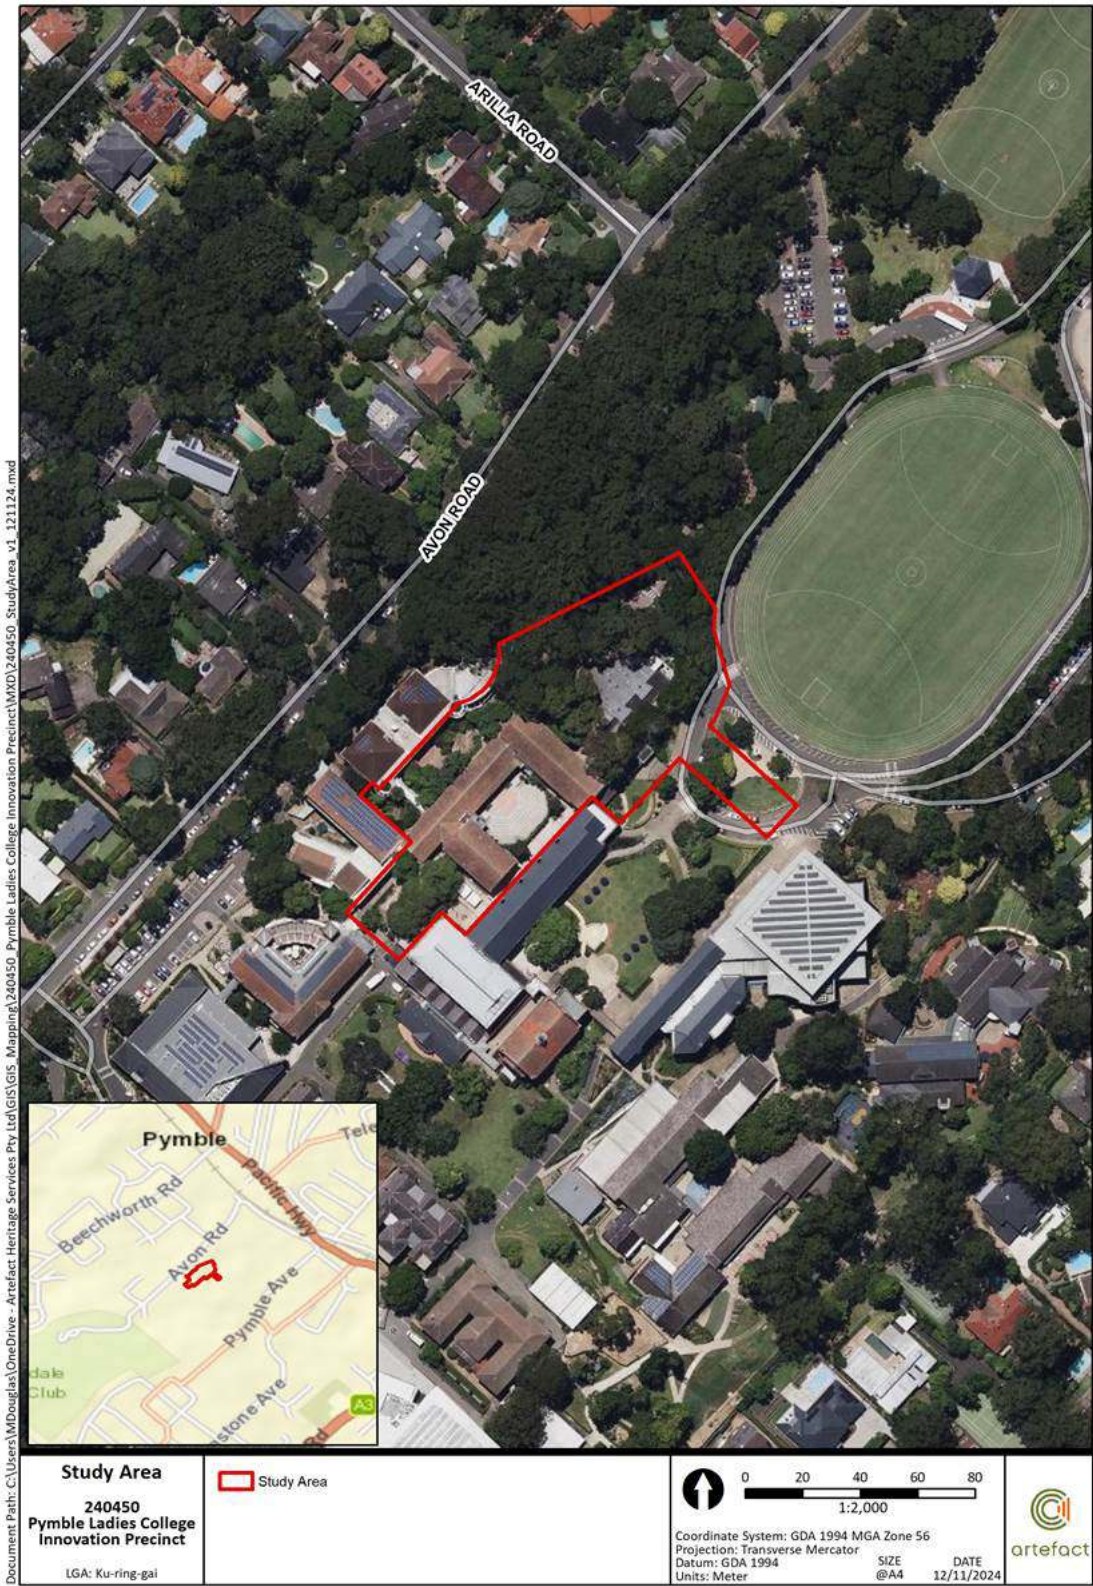

1.2.3 Information Sought

The proponent would appreciate your feedback on the methodology proposed above for the investigation and assessment of the study area.

In returning your answers, please include the following where appropriate:

- Any protocols that you would like adopted during the project
- Identification of any Aboriginal objects of cultural significance and/or importance that you are aware of within the study area, and how you wish them to be dealt with during the project
- Identification of any places of cultural significance and/or importance that you are aware of within the activity area, and how you wish them to be dealt with during the project
- Guidance on the protocols, sensitivity, use and/or distribution of any cultural information that you provide to the proponent
- Whether you require any further information prior to Artefact Heritage proceeding with the project.

Hi Katherine,

I hope this message finds you well. I have reviewed the information provided regarding the Pymble Ladies' College Secondary Innovation Precinct project and the proposed Aboriginal Cultural Heritage Assessment Methodology. I am pleased to inform you that I fully support the methodology outlined.

Additionally, I would like to express my interest in being included in the fieldwork for this project. I believe that my involvement could be beneficial and would appreciate the opportunity to contribute more directly to the assessment process.

Best regards,
Amanda De Zwart

Introduction

Artefact Heritage has been engaged by Pymble Ladies' College to prepare an ACHAR ahead of proposed developments to the college campus (Figure 1) to assess the impacts of a proposed development to Aboriginal heritage (cultural and archaeological). The proposal includes the demolition of existing structures and the construction of a new building as well as landscaping to the surrounding environment.

The proponent is intending to apply for development consent as a State Significant Development (SSD) under the *Environmental Planning and Assessment Act 1979*. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological) through the preparation of an ACHAR.

The proposed development is located within the boundaries of the Ku-ring-gai Local Government Area and the Metropolitan Local Aboriginal Land Council.

Proposed assessment methodology

Statutory requirements for the completion of an ACHAR

Artefact Heritage proposes to develop an assessment methodology in accordance with the following guidelines:

- *Guide to Investigating, Assessing and Reporting on Aboriginal Cultural Heritage in NSW* (OEH 2011)
- *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (DECCW 2010a)
- *Code of Practice for Archaeological Investigation of Aboriginal Objects in New South Wales* (DECCW 2010b)

The initial stages of this process have been completed, and a list of Registered Aboriginal Parties (RAPs) has been compiled. The present letter provides the RAPs with project information and the proposed assessment methodology for review.

The ACHAR will consist of the following components:

- **Aboriginal community consultation:** The initial stages of this process have been completed, and a list of Registered Aboriginal Parties (RAPs) has been compiled. The present letter provides the RAPs with project information and the proposed assessment methodology for review. The next stage of the consultation process will include the opportunity for comment on the proposed works and the assessment
- **Review of existing knowledge:** Review of previous archaeological works and Aboriginal Heritage Information Management System (AHIMS) search results
- **Review of the landscape context:** Desktop assessment of the archaeological implications of the landscape features (soil landscapes, historic land use, geomorphic character, and natural resources) relevant to the study area
- **Summary and discussion of the local and regional archaeological character of Aboriginal land use and its material traces** based on the finds of the previous two steps
- **Development of a predictive model for the nature and distribution of archaeological evidence of Aboriginal land use** based on the previous three steps
- **Completion of an archaeological survey to test the prediction developed in the previous step.** If Aboriginal sites are identified, submissions of site recordings for registration on AHIMS would be undertaken
- **Discussion of the results of the archaeological survey and re-evaluation of the regional and local archaeological character**
- **Assessment of the significance of any identified Aboriginal objects or places**
- **Assessment of likely impacts to Aboriginal objects and Potential Archaeological Deposits (PADs) based on the current design plans**
- **Consideration of any practical measures that may be required to protect and conserve identified Aboriginal objects and places identified within the study area.**

Archaeological test excavation

Depending on the results of the archaeological desktop study and survey, recommendations may be made to conduct test excavation. Test excavation would be undertaken to test for the presence of subsurface Aboriginal objects and gather enough information to assess significance and develop suitable management or mitigation measures.

A test excavation methodology would be prepared separately and provided to stakeholders for review and comment. Test excavation would be limited to areas of archaeological potential which would be subject to impacts as part of the proposed works and would be undertaken in partnership with the RAPs.

Timeframes

Artefact proposes the following indicative timeframes for the project:

- Distribution of this document to Registered Aboriginal Parties: 23 December 2024
- End of review period for the proposed methodology: **28 January 2025**
- Distribution of draft ACHAR to Registered Aboriginal Parties for review: within two weeks of the closing date for comment on this methodology.

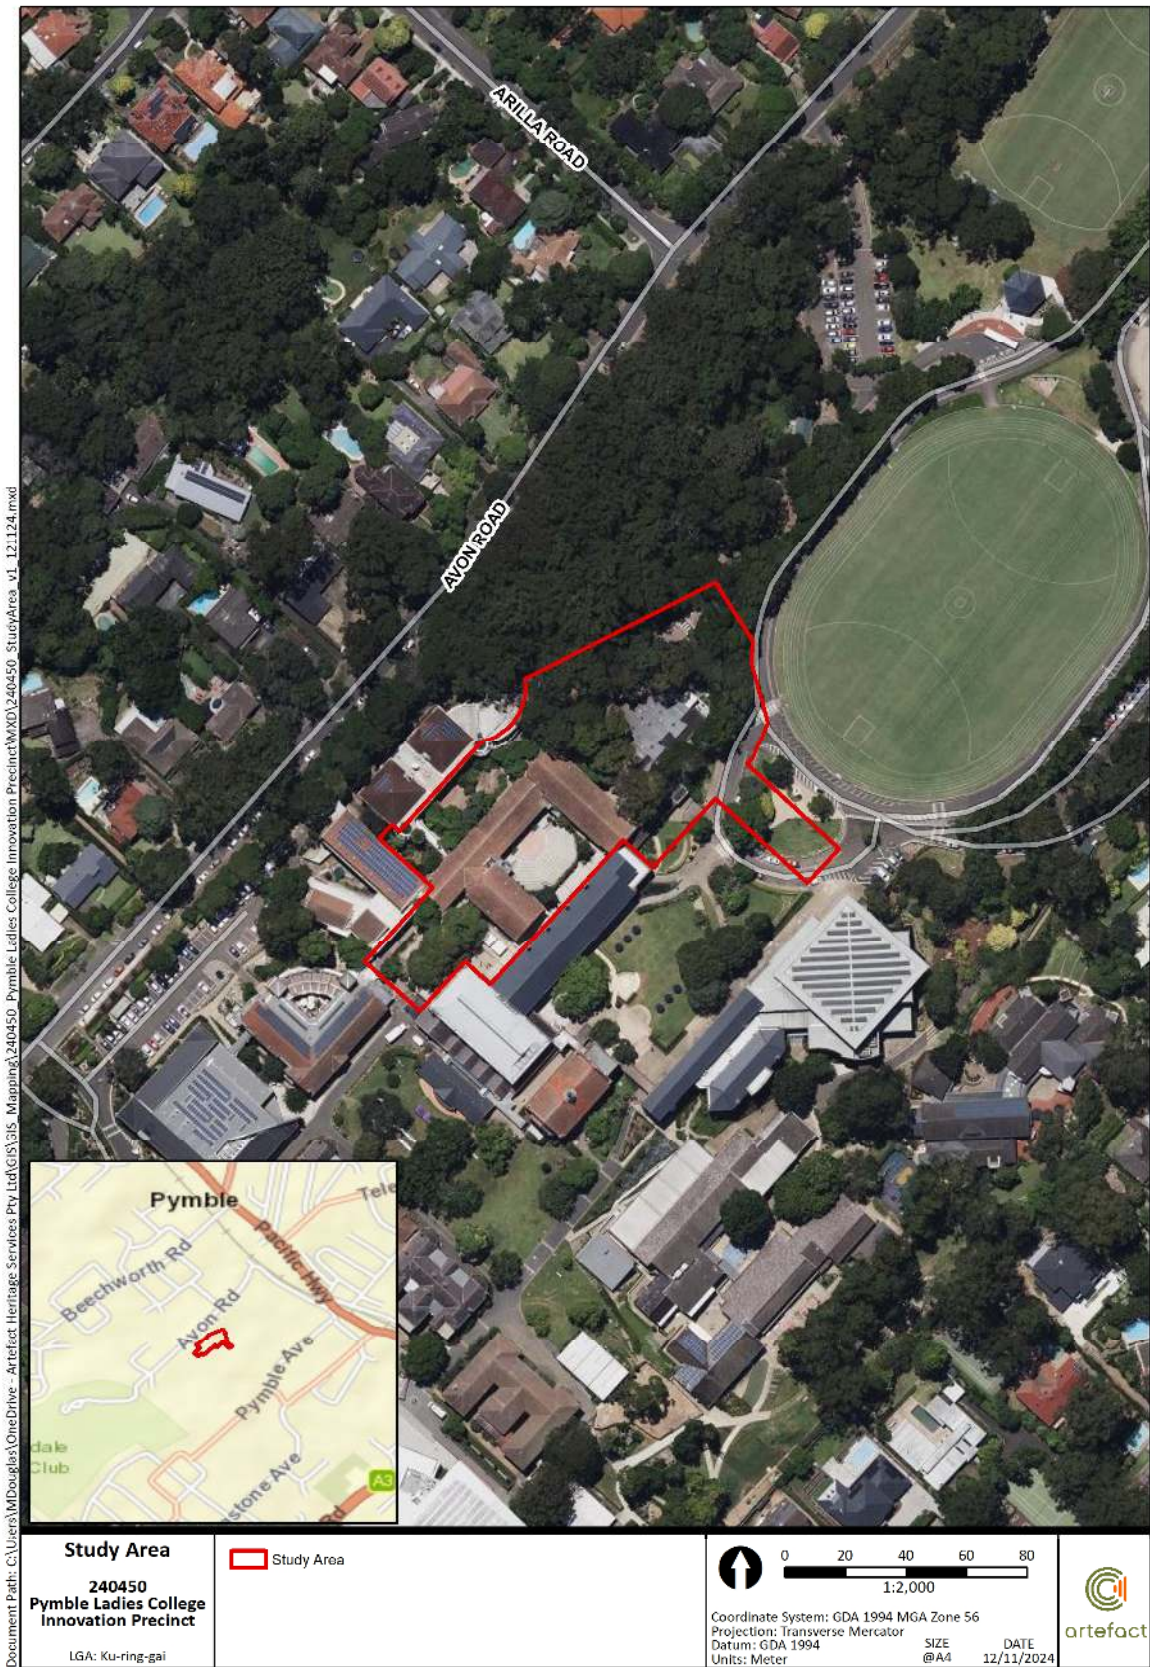

Information Sought

The proponent would appreciate your feedback on the methodology proposed above for the investigation and assessment of the study area.

In returning your answers, please include the following where appropriate:

- Any protocols that you would like adopted during the project
- Identification of any Aboriginal objects of cultural significance and/or importance that you are aware of within the study area, and how you wish them to be dealt with during the project
- Identification of any places of cultural significance and/or importance that you are aware of within the activity area, and how you wish them to be dealt with during the project
- Guidance on the protocols, sensitivity, use and/or distribution of any cultural information that you provide to the proponent
- Whether you require any further information prior to Artefact Heritage proceeding with the project.

1.1 Introduction

Artefact Heritage has been engaged by Pymble Ladies' College to prepare an ACHAR ahead of proposed developments to the college campus (**Figure 1**) to assess the impacts of a proposed development to Aboriginal heritage (cultural and archaeological). The proposal includes the demolition of existing structures and the construction of a new building as well as landscaping to the surrounding environment.

The proponent is intending to apply for development consent as a State Significant Development (SSD) under the *Environmental Planning and Assessment Act 1979*. The Secretary's Environmental Assessment Requirements (SEARs) for the project have not yet been issued, but it is assumed that they will require the assessment of the likely impacts of the proposed development to Aboriginal heritage (cultural and archaeological) through the preparation of an ACHAR.

The proposed development is located within the boundaries of the Ku-ring-gai Local Government Area and the Metropolitan Local Aboriginal Land Council.

1.2 Proposed assessment methodology

1.2.1 Statutory requirements for the completion of an ACHAR

Artefact Heritage proposes to develop an assessment methodology in accordance with the following guidelines:

- *Guide to Investigating, Assessing and Reporting on Aboriginal Cultural Heritage in NSW* (OEH 2011)
- *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (DECCW 2010a)

- *Code of Practice for Archaeological Investigation of Aboriginal Objects in New South Wales* (DECCW 2010b)

The initial stages of this process have been completed, and a list of Registered Aboriginal Parties (RAPs) has been compiled. The present letter provides the RAPs with project information and the proposed assessment methodology for review.

The ACHAR will consist of the following components:

- Aboriginal community consultation: The initial stages of this process have been completed, and a list of Registered Aboriginal Parties (RAPs) has been compiled. The present letter provides the RAPs with project information and the proposed assessment methodology for review. The next stage of the consultation process will include the opportunity for comment on the proposed works and the assessment
- Review of existing knowledge: Review of previous archaeological works and Aboriginal Heritage Information Management System (AHIMS) search results
- Review of the landscape context: Desktop assessment of the archaeological implications of the landscape features (soil landscapes, historic land use, geomorphic character, and natural resources) relevant to the study area
- Summary and discussion of the local and regional archaeological character of Aboriginal land use and its material traces based on the finds of the previous two steps
- Development of a predictive model for the nature and distribution of archaeological evidence of Aboriginal land use based on the previous three steps
- Completion of an archaeological survey to test the prediction developed in the previous step. If Aboriginal sites are identified, submissions of site recordings for registration on AHIMS would be undertaken
- Discussion of the results of the archaeological survey and re-evaluation of the regional and local archaeological character
- Assessment of the significance of any identified Aboriginal objects or places
- Assessment of likely impacts to Aboriginal objects and Potential Archaeological Deposits (PADs) based on the current design plans
- Consideration of any practical measures that may be required to protect and conserve identified Aboriginal objects and places identified within the study area.

1.2.1.1 Archaeological test excavation

Depending on the results of the archaeological desktop study and survey, recommendations may be made to conduct test excavation. Test excavation would be undertaken to test for the presence of subsurface Aboriginal objects and gather enough information to assess significance and develop suitable management or mitigation measures.

A test excavation methodology would be prepared separately and provided to stakeholders for review and comment. Test excavation would be limited to areas of archaeological potential which would be subject to impacts as part of the proposed works and would be undertaken in partnership with the RAPs.

1.2.2 Timeframes

Artefact proposes the following indicative timeframes for the project:

- Distribution of this document to Registered Aboriginal Parties: 23 December 2024
- End of review period for the proposed methodology: **28 January 2025**
- Distribution of draft ACHAR to Registered Aboriginal Parties for review: within two weeks of the closing date for comment on this methodology.

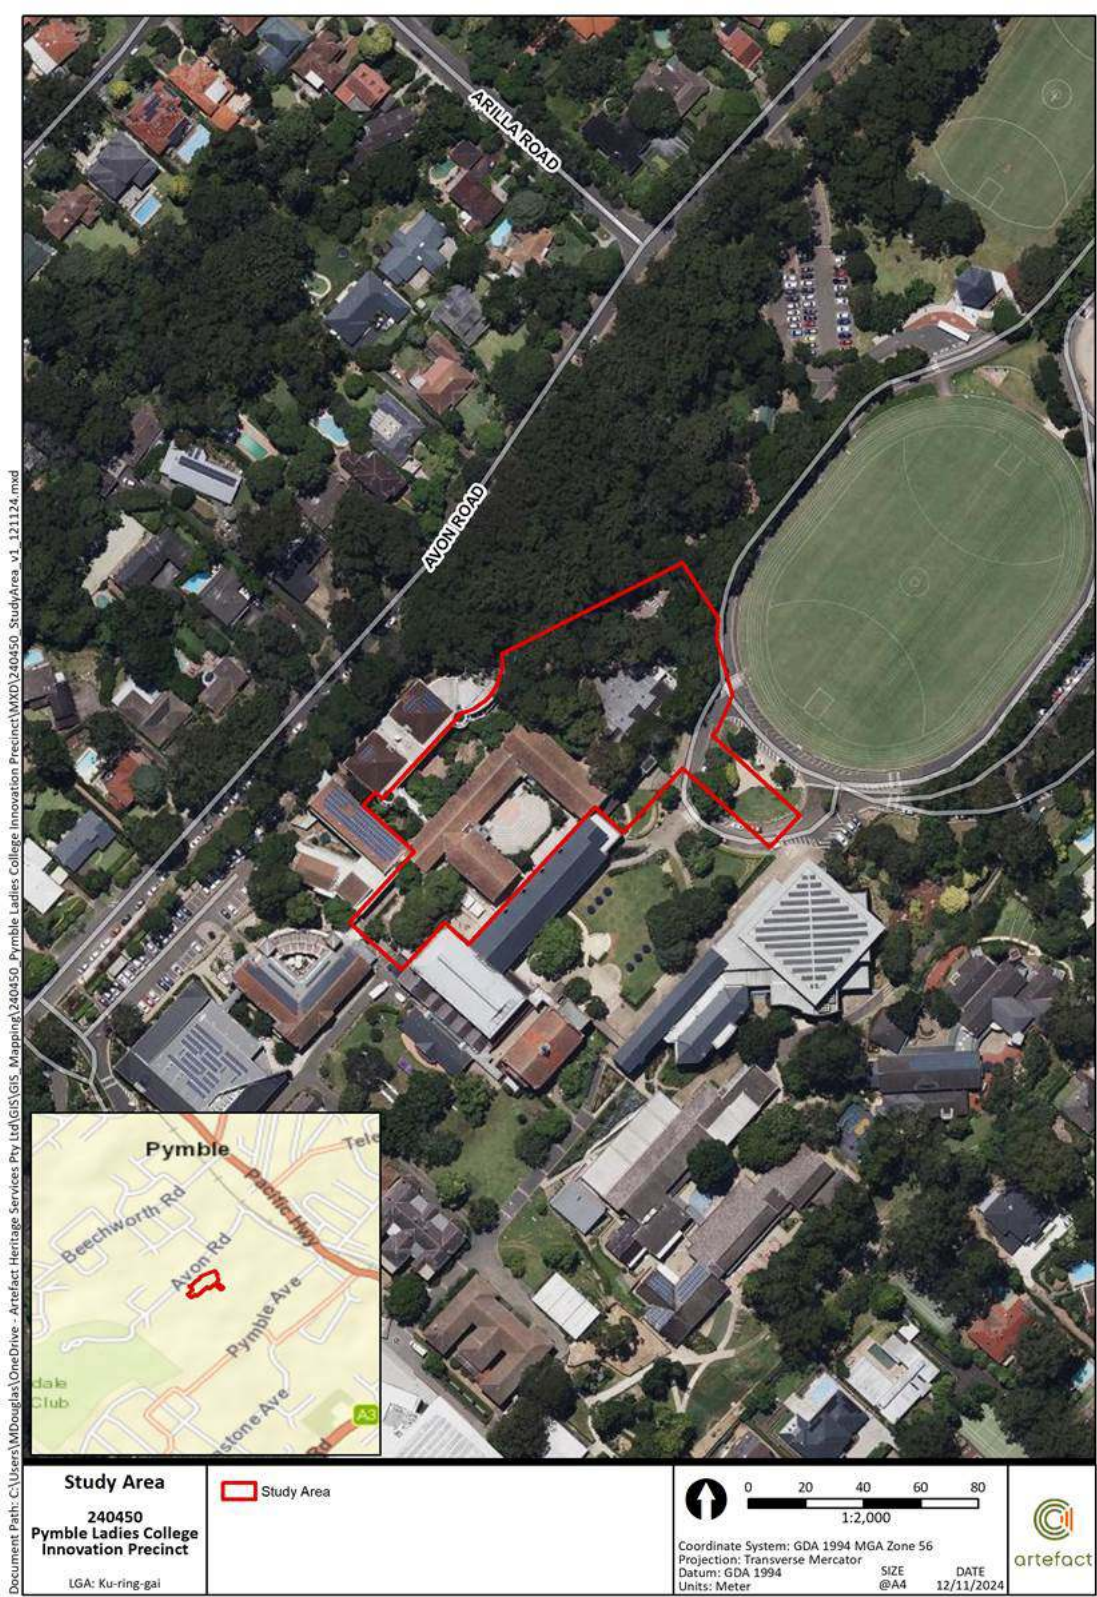

1.2.3 Information Sought

The proponent would appreciate your feedback on the methodology proposed above for the investigation and assessment of the study area.

In returning your answers, please include the following where appropriate:

- Any protocols that you would like adopted during the project
- Identification of any Aboriginal objects of cultural significance and/or importance that you are aware of within the study area, and how you wish them to be dealt with during the project
- Identification of any places of cultural significance and/or importance that you are aware of within the activity area, and how you wish them to be dealt with during the project
- Guidance on the protocols, sensitivity, use and/or distribution of any cultural information that you provide to the proponent
- Whether you require any further information prior to Artefact Heritage proceeding with the project.

Subject: Pymble Ladies' College Aboriginal Cultural Heritage Assessment Report
Attachments: ACHAR-240450-Pymble Ladies' College Secondary Innovation Precinct-FINAL50514.pdf; 240450 PLC Innovation Precinct_DRAFT ACHA Methodology_241218 - SSD.pdf

To Whom It May Concern,

Artefact Heritage and Environment were engaged by Pymble Ladies' College (PLC) to prepare an Aboriginal Cultural Heritage Assessment Report (ACHAR) ahead of the proposed development to the PLC campus. PLC have sought approval for the project as a State Significant Development (SSD) under the *Environmental Planning and Assessment Act 1979*. That ACHAR was submitted previously to fulfill Secretary's Environmental Assessment Requirements (SEARs) for the project (SSD-79146716). During preliminary review of the ACHAR and its supporting documentation, it was identified that your organisation was not included in the consultation process for the project despite being identified as a potential stakeholder by Ku-Ring-Gai Council.

Firstly, I would like to apologise for this oversight which is wholly attributable to an error on Artefact's part. To rectify this, I would like to invite the Aboriginal Heritage Office to register their interest in the project and provide comment on the ACHAR that we have prepared. Any comments you have regarding the proposed development and its potential impacts on Aboriginal cultural heritage will be incorporated into an updated version of the ACHAR, which will be re-submitted to the Department of Planning, Housing and Infrastructure. Please find attached to this email a copy of the ACHAR as well as a description of the project and the methodology that was employed to prepare the ACHAR, which was sent out as part of the consultation process.

If you would like to comment on the proposed works and the ACHAR that has been prepared for them, **we ask that you please respond with any feedback by COB on 17 September 2025**. I appreciate any comments you may wish to provide and, again, would like to apologise for the Aboriginal Heritage Office not having been included in the initial consultation process for this project.

Kind regards,

Subject: Pymble Ladies' College Secondary Innovation Precinct Updated ACHAR

Dear Carolyn Hickey,

RE: Pymble Ladies' College Secondary Innovation Precinct Updated ACHAR

You previously registered your interest in the Pymble Ladies' College Secondary Innovation Precinct project. As part of the consultation process for this project, you were sent a copy of the draft ACHAR to review and provide comments on. Following this, the works footprint for the proposed development was altered. The altered footprint incorporates a slightly different area than was discussed in the ACHAR you reviewed; however, the new areas incorporated into the altered footprint were assessed during archaeological survey for the project. It was ultimately determined that, despite the altered construction footprint, the proposed works would not impact Aboriginal cultural heritage, as no Aboriginal objects or specific cultural values were found to be associated with the Pymble Ladies' College Secondary Innovation Precinct project area. This was included in a cover letter that has been attached to the front of the ACHAR prepared for the project.

While the findings of the ACHAR you have previously reviewed have been upheld, in light of the altered construction footprint, Artefact Heritage and Environment would like to invite you to review and comment on the updated ACHAR, which can be viewed at the following link:

<https://artefact.box.com/s/dnn29nb8e8lwdn5kja7va4u9l7n683l0>.

It was ultimately determined that, despite the altered construction footprint, the proposed works would not impact Aboriginal cultural heritage, as no Aboriginal objects or specific cultural values were found to be associated with the Pymble Ladies' College Secondary Innovation Precinct project area. This was included in a cover letter that has been attached to the front of the ACHAR prepared for the project.

While the findings of the ACHAR you have previously reviewed have been upheld, in light of the altered construction footprint, Artefact Heritage and Environment would like to invite you to review and comment on the updated ACHAR, which can be viewed at the following link:

<https://artefact.box.com/s/dnn29nb8e8lwdn5kja7va4u9l7n683l0>.

If you wish to provide any comment on the updated ACHAR, please do so by the close of business 18 September 2025.

Kind regards,

Dear Jesse Johnson,

RE: Pymble Ladies' College Secondary Innovation Precinct Updated ACHAR

You previously registered your interest in the Pymble Ladies' College Secondary Innovation Precinct project. As part of the consultation process for this project, you were sent a copy of the draft ACHAR to review and provide comments on. Following this, the works footprint for the proposed development was altered. The altered footprint incorporates a slightly different area than was discussed in the ACHAR you reviewed; however, the new areas incorporated into the altered footprint were assessed during archaeological survey for the project. It was ultimately determined that, despite the altered construction footprint, the proposed works would not impact Aboriginal cultural heritage, as no Aboriginal objects or specific cultural values were found to be associated with the Pymble Ladies' College Secondary Innovation Precinct project area. This was included in a cover letter that has been attached to the front of the ACHAR prepared for the project.

While the findings of the ACHAR you have previously reviewed have been upheld, in light of the altered construction footprint, Artefact Heritage and Environment would like to invite you to review and comment on the updated ACHAR, which can be viewed at the following link:

Hi Sammuel,

Thank you for your updated ACHAR for Pymble Ladies College Secondary Innovation, we would like to agree and support your recommendations. We would also like to recommend considering planting native plants in the landscaping. We look forward to working alongside you on this project.

Kinds Regards
Phil Khan – Director
