Dear Adam,

RE: Kendall Bay Sediment Remediation Project (SSD 6701) – Roads and Maritime Services Submission on Environmental Impact Statement.

Introduction

The NSW Department of Planning and Environment (DP&E) provided Jemena Limited (Jemena) with email correspondence prepared by the NSW Roads and Maritime Services (RMS) dated 26 November 2018. The email contained RMS' comments on the Environmental Impact Statement for the Kendall Bay Sediment Remediation Project. The email from RMS is provided as **Attachment A** in this letter. The response to the RMS' submission is provided below.

Response to Submission

Jemena is committed to managing the remediation process implementation of detailed mitigation measures which will be contained within the Remediation Works Environmental Management Plan (RWEMP), the Remedial Work Plan (RWP), and Validation Sampling Analysis and Quality Plan (VSAQP) as well as a number of other documents as described in EIS Chapter 18. These documents are still to be completed.

It is noted that RMS identified no impacts to the safety of navigation as result of remediation works, therefore, RMS had no comments or objections regarding the Project.

Closing

Yours sincerely

Phil Hutson

Project Manager, Kendall Bay Sediment Remediation Project

Subject: RE: Notification of Exhibition of Kendall Bay Sediment Remediation Project (SSD 6701)

Good morning Luisa,

Apologies for the delayed response. RMS has considered the proposed development in terms of its impact on marine safety and navigation. Based on the information provided we do not consider there to be any impacts to the safety of navigation. We have no objection to the proposal.

Please let me know if you require any further information.

Kind regard,

Adam Culbert
