Re: Moolarben Coal Mine Stage 1 Optimisation Project (05_0117 MOD 9)

Dear Sara Wilson,

I hereby give my support to the Moolarben Coal Mine Stage 1 Optimisation Project.

The reasons I support this project are as follows:

I have worked in the Coal Industry for 31 years and during this time I have observed a marked improvement in the attitude of mines toward rehabilitation. In my opinion Moolarben Coal Mine is a leader in this area, it is a very conscientious Company, consistently abiding by environmental and rehabilitation guidelines, always willing to adapt when necessary.

Moolarben supports the local economy indirectly via their many employees and by utilizing businesses in the district, and directly by assisting MWRC with infrastructure as well as donating to many causes.

Yours sincerely,

Robert Rice
