Re Site Inspection – Kioloa Beach Holiday Park

Following from the Aboriginal Site evaluation on 10th October '06 of the above property the Batemans Bay Local Aboriginal Land Council site officer Ms. Violet Parsons has determined that:

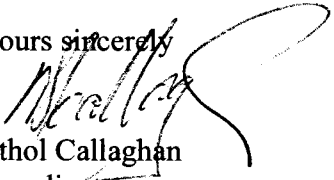

1. There was no visual evidence of any Aboriginal artifacts.
2. That there is a high possibility that Aboriginal relics will be unearthed during earth works to the study area.
3. That any future development involving earthworks be monitored by a representative of Batemans Bay LALC.

Points 2 & 3 are especially important considering the volume and significance of recorded Aboriginal sites in the Kioloa area. Kioloa is perhaps the single most important study/research area for Aboriginal history and occupation in NSW.

With that in mind I would like to take this opportunity to inform you that you have certain legal requirements under the National Parks & Wildlife Act that specifically relate to the protection and or destruction of Aboriginal relics especially skeletal remains.

Should you wish to discuss this matter please don't hesitate to contact me.

Yours sincerely

Athol Callaghan
Coordinator.
