2 March 2006

Mr Tony van Bergen
Kioloa Beach Holiday Park
635 Murramarang Road
KIOLOA NSW 2539

Dear Tony

Re your correspondence dated 11 February 2006 requesting our support for your Holiday Park.

Please excuse my tardiness as to response to your request. I have been on holidays and as this is the first meeting after my return, I take this opportunity to respond to your correspondence.

The Management Committee and its members are there to provide access and monetary supervision of Council owned facilities and as such, we are elected to be an extension of Shoalhaven City Council.

The Power's entrusted to this Committee are only in accordance when dealing with Council owned facilities when operating within the criteria set out in the guidelines issued to this Committee.

We have no power influence or say outside the parameters or our jurisdiction.

I have tabled your letter to this committee on 2 March, for comment and it is the firm belief, that it is not in the interest of this committee, to detail the support or non support of any commercial activity, as this is not our role of judication.

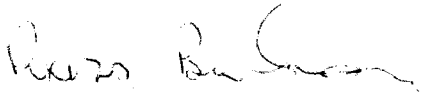

We are all of the opinion that your business does influence this community. We are also of the opinion that your business has a beneficial benefit to this community. We can without question, also state, that your support for this community is well known and very much appreciated, by those volunteer committees providing much needed activities to our village areas.

Your continued vigilance and input to the facilities operated by volunteer groups such as ours, is much needed and your management of the Kioloa Beach Holiday Park is a clear indication of your commitment to this area and its environment.

I enclose for your perusal the Guidelines booklet, see page 7, which can further explain to you the directions and limitations placed on us.

Hoping this correspondence explains fully the difficulties and functions of the Management Committee of Kioloa Bawley Point.

Yours faithfully
