---

Please **REJECT** this ridiculous proposal.

Who on earth builds a recycling plant 250m from a new housing estate next to a river that floods in heavy rain?

Which person in their right mind would subject a community to potential asbestos contaminated materials, dust, chemical fumes and increased trucks on a road that borders cycling paths and walkways?

Not to mention the increased traffic congestion, noise pollution, visual pollution, potential flooding and damage to local flora and fauna.

Please listen to the people/ community who will actually have to suffer if you make the incorrect decision.

Yours faithfully,

**Ronald Cheung** | Management Accountant
