

17. References

The References shown below are for the Main Volume of the Environmental Assessment. The Appendices in Volume 2 provide an additional listing of references.

Author / Source	Title and Publishing Details
Chapter 1 Introduction	
DOP	Director-General's Requirements for the Capital Wind Farm EA (Appendix A)
URS	Woodlawn Wind Farm EIS, October 2004
Chapter 2 Project Context and Alternatives Considered	
Australian Greenhouse Office	Renewable Opportunities, A Review of the Renewable Energy (Electricity) Act 2000 September, 2003 (www.mretreview.gov.au)
Australian Government Productivity Commission	Energy Efficiency: Productivity Commission Draft Report (2005). Obtained in April 2005 from URL: http://www.pc.gov.au/inquiry/energy/draftreport/index.html
IEA	2004 IEA Wind Overview Chapter
NSW Government	NSW Energy Directions Green Paper December 2004
Australian Government	Securing Australia's Energy Future, 2004
BTM Consult ApS	Press Release, 31 st March, 2005
Allen Consulting Group for the Australian Greenhouse Office	Climate Change, Risk and Vulnerability – Promoting an efficient adaptation response in Australia, March, 2005
Wind Energy Policy Working Group (WEPWG)	Integrating Wind Farms into the National Electricity Market: Discussion Paper, March 2005
Energy Link and MWH NZ for Ministry of Economic Development and Energy Efficiency and Conservation Authority	Wind Energy Integration in New Zealand, May 2005
Sustainable Development Commission	Wind Power in the UK: A guide to the key issues surrounding onshore wind power development in the UK, May 2005.
Chapter 3 Project Description	
DoP	Guideline for preparation of EMPs
Chapter 4 Planning Context, Approvals and Consultation	
DoP	Wind Energy Facilities Draft EIA Guidelines June 2002
DoP	Network Electricity Systems and Related Facilities – EIS Guideline (Draft, February 2002)
DoP	State Environmental Planning Policy (SEPP) 4, 11, 34, 44 and 58
Local Council	Mulwaree Shire Local Environment Plan (LEP) Yarrowlumla Shire Local Environment Plan (LEP)
South Australian EPA	Wind Farms Environmental Noise Guidelines February 2003
Chapter 5 Existing Environment	
Bureau of Meteorology	Climatic Data for Goulburn, Canberra and Woodlawn Mine. Unpublished. 2005
Department of Mineral Resources	1:100,000 Geology Maps for Braidwood and Canberra
Hird, C.	Soil Landscapes of the Goulburn 1:250,000 Sheet. Soil Conservation Service of NSW, Sydney, 1991

Author / Source	Title and Publishing Details
Australian Bureau of Statistics	Census 2001 data
Civil Aviation Safety Authority	“Extract from Manual of Standards Part 139 – Aerodromes, 2003 ” Pages 7-3, 7-4

Chapter 6 Visual Issues

Connell Wagner PPI	Visual Impact Review (Appendix C)
Connell Wagner PPI	Shadow Flicker Analysis (Appendix D)
Auswind & National Trust	Wind Farms and Landscape Values – Stage One Final Report – Identifying the Issues. Prepared by Planisphere, March 2005
Energy Efficiency and Conservation Authority	Guidelines for Local Authorities: Wind Power URL: http://www.eeca.govt.nz/eeca-library/renewable-energy/wind/guidelines/guidelines-for-local-authorities-wind-power.pdf

Chapter 7 Flora and Fauna Issues

Kevin Mills and Associates	Flora and Fauna Assessment –Capital Wind Farm 2005 (Appendix F1)
Kevin Mills and Associates	Supplementary Flora and Fauna Assessment – Gunning Wind Farm, October, 2005 (Appendix F2)
Greg Richards and Associates	An Assessment of the Bat Fauna likely to occur at the Proposed Gunning Wind Farm (Appendix G1) 2005
Greg Richards and Associates	An Assessment of Bat Fauna present at the Gunning Wind Farm site March 2005 (Appendix G2)
Churchill, S	Australian Bats. Reed New Holland, Sydney (1998)

Chapter 8 Heritage Issues

Austral Archaeology	Archaeological Survey for an Aboriginal Heritage Assessment –Capital Wind Farm (Appendix E)
Buru Ngunawal Aboriginal Corporation	Aboriginal Cultural Heritage Survey – Proposed Capital Wind Farm 2005

Chapter 9 Traffic and Transport Issues

Connell Wagner PPI	Capital Wind Farm Traffic and Transport Issues Assessment (Appendix I)
Mortenson	Correspondence regarding proposed transport of equipment and materials

Chapter 10 Noise Issues

Vipac	Background Noise Monitoring Report (Appendix H1)
Vipac	Noise Impact Assessment for the Capital Wind Farm (Appendix H2)
South Australian EPA	Wind Farm – Environmental Noise Guidelines February 2003

Chapter 11 Telecommunications Inteference

Australian Communications Authority	Apparatus Licence Fees and Charges, June 2002
International Telecommunications Union	Assessment of impairment caused to television reception by a wind turbine ITU-R BT.805, 1992
T.B.A. Senior and D.L. Sengupta	Large Wind Turbine Siting Handbook: Television Interference Assessment, Final Subcontract Report, SERI/STR-215-1879, 1983 Golden, Colorado: Solar Energy Research Institute.
David A. Spera (Editor)	Wind Turbine Technology, Fundamental Concepts of Wind Turbine Engineering, Chapter 9, ASME Press, New York 1994

Author / Source	Title and Publishing Details
Chapter 12 Safety Aspects	
Australian Standards	Various Australian Standards as listed in Chapter 12
The National Society for Epilepsy (UK)	Website reference - Obtained on 12 April 2005. URL: http://www.epilepsynse.org.uk/pages/info/leaflets/photo.cfm
International Energy Association	<i>Draft IEA Global Overview. 2005</i> URL: http://www.windenergy.org.nz/news/newsletter/050404-Newsletter.htm#iea
Chapter 13 Greenhouse Issues	
International Energy Agency	Benign Energy? The Environmental Impact of Renewables, http://www.iea.org/pubs/studies/files/benign/full/00-bene.htm
IPCC	Third Assessment Report “ <i>Climate Change 2001</i> ”
Paul Scherrer Institute	GaBE Project:., Comprehensive Assessment of Energy Systems – Life Cycle Assessment (LCA), Switzerland, (http://gabe.web.psi.ch/lca.html)
White and Kulcinski	Net Energy Payback and CO ₂ Emissions from Wind-Generated Electricity in the Midwest, 1998 (http://fti.weep.wisc.edu/FTI/pdf/fdm1092.pdf)
Australian Greenhouse Office (1)	National Greenhouse Inventory Fact Sheet 1 Energy: Stationary sources and fugitive emissions (2004). Obtained on 10/5/05 from URL: http://www.greenhouse.gov.au/inventory/publications/factsheets.html
Australian Greenhouse Office (2)	National Greenhouse Gas Inventory: Analysis of Recent Trends and Greenhouse Indicators 1990 to 2002 (2004). Obtained on 9/5/05 from URL: http://www.greenhouse.gov.au/inventory/2002/index.html
Australian Greenhouse Office (3)	Your Home Technical Manual - 4.7 Photovoltaic systems (2004). Obtained on 9/02/06 http://www.greenhouse.gov.au/yourhome/technical/fs47.htm
Chapter 14 Cumulative Impacts	
DoP	Wind Energy Facilities Draft EIA Guidelines June 2002
Chapter 15 Statement of Commitments	
DoP	Guideline for the Preparation of Environmental Management Plans. Final Draft August 2003
Chapter 16 Project Justification	
DoP	Wind Energy Facilities Draft EIA Guidelines June 2002
Appendices Various Requirements, Correspondence and Specialist Studies	
Various	See Volume 2
