of Planning

Dear Sir/Madam,

I am writing to urge you to NOT approve the proposed development in the region of Malua Street, Stott Street and Walmsleys Road at Bilambil Heights.

Currently this area of Bilambil Heights has approximately 300 houses with the only access road being an extremely steep part of Warringa Drive. For part of each afternoon the road is made even more dangerous when the sun shines directly down the road.

All streets in this part of Bilambil Heights are narrow and certainly weren't designed for through traffic which is what would happen if Stott Street and Walmsleys Road are connected. At least 3 intersections will be very dangerous with increased traffic on the steep and narrow streets.

Yours faithfully
Alan Mills
