Suzanne Le Breton, of Baulkham Hills NSW, made the following submission on the project:

[Mangoola Mine - Modification 6 - Extraction Rate Increase](#)

Objects to this project

I am concerned about the impact this expansion will have on the few remaining residents in the area, as well as the possible pollution of the Hunter River. I don't think it is fair on the people who have chosen to stay living in the area as they are already impacted by the mine through noise & air pollution. Now they face an increase in noise, coal dust in their houses and other pollutants. The original mine plan has changed and the residents of Wybong, and the environment are not being protected or compensated.
