(Name withheld), of P.O. Box 6 Denman, 2328 NSW, made the following submission on the project:

[Mangoola Mine - Modification 6 - Extraction Rate Increase](#)

Objects to this project

I strongly object to the proposed mine plan modification.

Sighting further negative impact on the ever fragile environment and detriment to health and well being of those living in the locality.

The accumulative affect of existing mining projects is affecting our daily lives with unacceptable increases in DUST, NOISE, VISUAL POLLUTION & DWELLING DAMAGE.

DUST causing respiratory problems, eye irritation, and allergy conditions, domestic tank water pollution, and obvious increase of atmospheric dust pollution.

NOISE 24 hour noise from the existing mine operation causing sleep disruption, increase in coal trains movement.
