(Name withheld), of Manobalai NSW, made the following submission on the project:

[Mangoola Mine - Modification 6 - Extraction Rate Increase](#)

Objects to this project

I object most sincerely to any approval for this modification and will provide my more detailed objection as early as possible. A short extension of time may be required to do so due to medical capacity and the shortness of the exhibition period.

I am a resident of a defined and significantly affected community that will be further impacted by this extraction expansion.
