Ms Heather Warton
Department of Planning and Infrastructure
GPO Box 39
SYDNEY NSW 2001

Dear Ms Warton,

Modification Request for Marine Refuelling and Supply Facility to allow dry boat storage, White Bay Berth 6 (06_0037 MOD 4)

I refer to the above modification request by Baileys Marine Fuels (the applicant) in relation to the approved marine refuelling and supply facility located at White Bay Berth 6 (the site) received by the Environment Protection Authority (EPA) on 30 July 2013.

The EPA understands that the proposal involves modifications to the dry boat storage buildings, construction of two new dry boat storage buildings, increase in car-park numbers, a new floating pontoon (temporary berthing) and three demountable sheds.

The EPA has reviewed the *Section 75W Modification Request for White Bay Berth 6 – Marine Refuelling and Supply Facility* prepared by AECOM and dated 12 July 2013.

The EPA considers that the proposal, if approved, can be managed within the existing conditions of Baileys Marine Fuels' existing Environment Protection Licence (no. 20144). The EPA has no further comments on the proposed modification request for *White Bay Berth 6 – Marine Refuelling and Supply Facility*.

However the proponent is reminded that it must meet all requirements of the *Protection of the Environment Operations Act* and the conditions of Environment Protection Licence number 20144 during construction and operation of the proposal (if approved).

Please contact Stuart Clark on 9995 6835 if you have any queries regarding this letter.

Yours sincerely

30/08/13

JAMES GOODWIN
A/Manager Sydney Industry
Environment Protection Authority
