Re: Genesis Xerox Waste
Pre Sort facility Building

Dear Skye

With reference to Blacktown City Council letter dated 22 April 2015 – Attachment A, we advise that the proposed Pre Sort Building will be of similar bulk and scale of the adjoining MPC centre currently operating on the site. Construction materials and finishes will be constant with this existing adjoining facility.

The proposed Pre Sort facility is classified as a large isolated building due to its size and volume and is provided with full external access for fire fighting appliances to travel in a continuous forward direction around the proposed facility.

Yours Sincerely

David McDonald
