Dear David

Re: Vacenta Pty Ltd
Lot 682 DP568678, Lot 705 DP61385
And Lot 810 DP247285 Manyana

As advised, PMA Consulting P/L is no longer operating, with the environmental component being closed for over two years. The structural/engineering side of the business ceased trading in June 2008. Unfortunately I personally have no access to the original environmental files.

All work completed under our environmental consultancy was completed in accordance with techniques and effort outlined in the draft Threatened Biodiversity Survey and Assessment Guidelines (DEC 2004).

To the best of my knowledge trap stations (large and medium sized Elliot traps), which were set up at three non-random locations within the different vegetation communities were baited and results recorded over three consecutive nights on the 17th, 18th and 19th of January 2005 during the nocturnal fauna surveys.

Please do not hesitate to contact me should you require any further information or clarification of the above matters.

Yours faithfully,

Paul Mulvey
B.E. CPEng MIEAust.
