21 November 2013

Attention: Mr Chris Ritchie,

Dear Sir,

RE: Pasminco and Incetec Consolidation Remediation, Boolaroo
MP 06_0184 MOD 5: Notice of Modification
MSB Development Application: TBA 12-23134L1

Thank you for your letter dated 5 November 2013 inviting the Board to make a written submission on the proposal to modify the currently approved development application MP 06_0184 MOD 4.

I understand this modification will allow additional contaminated material to be placed in the containment cell, resulting in minor increase in its volume and height.

The Board approves the modification to the development subject to the following conditions;

1. *The submission of final design drawings containing certification by a qualified structural engineer, to the effect that any improvement constructed to meet the specifications of such final drawings, will not be damaged by the following mine subsidence parameters:*
 - a) *Maximum vertical subsidence of 200 mm*
 - b) *Maximum ground strains of ± 2 mm/m*
 - c) *Maximum tilt of 2 mm/m*
2. *On completion of building work, certification is required by a qualified structural engineer that all improvements have been constructed in compliance with the drawings approved by the Board. The certification, accompanied by appropriate evidence, is to be submitted to the Board.*

If you have any enquiries please contact Mr Peter Evans, ph 02 49084391.

Yours faithfully

Greg Cole-Clark
Chief Executive Officer
