Dear Matthew,

## **Mod 23 Nowra Cogeneration Project – Stage One Electrical Installation**

We are writing to you in relation to your Construction Certificate Schedule Item # 26G-A-b, whereby you have requested an accompanying letter relating specifically to the Electrical installation that may be impacted by flooding or raised flood levels on this project.

We advise and confirm all electrical installations will be constructed above the FPL and will not be subject to flooding or the need for isolations in Stage one of these works.

Accordingly, we trust this formal letter acknowledging the Stages of Construction satisfies your Construction Certificate requirements.

Kind regards

Paul Whisson  
Project Manager  
Honan Holdings Pty Limited  
A member of the Manildra Group
