---

Dear Michelle

I am writing in relation to the application for Seaside Boulevard, Fern Bay (MP 06\_0250 MOD 12).

I wish to support the proposal for the modification. I currently have a deposit down on land in Stages 18 and 19 and would like the opportunity to get our land registered to start the building process. The works on the northern intersection are well underway so we should be allowed to move forward with the settlement of our land, particularly as this was not a condition to stages 18 and 19 when we put our deposit down back in July last year.

Do not hesitate to get in contact should you require any further details.

Kind Regards

Tuppence Krause
