Subject: Regarding Rocla application 06_0278 MOD 1

To Whom It May Concern

I am writing regarding: **Rocla application 06_0278 MOD 1**

As a resident of the Central Coast almost all my life, I am writing to oppose strongly Rocla's request to extend the deadline for submission of plans and bond from June 30 2014 to June 2016 on the following grounds:

- 1) No extension be granted to the lodging of a rehabilitation bond (clause 3/29), because a reasonable estimate can be made based on the current bond, and the bond can be reviewed after the Environmental Audit (clause 3/30)
- 2) 3/9 = Noise Management Plan, 3/13 = Air Quality Management Plan, 3/20 = Water Management Plan, 3/28 = Land Management Plan - recognizing that the current court cases may impact on future operations - from overturning the approval altogether to slight modifications - some delay in lodging these plans is reasonable, but no more than 3 months from the determination of the Court, since in large part the plans should be prepared.
- 3) 2/8 = surrender of existing DA - as above, this should not be more than 3 months after the determination of the Court cases

From December 23 2013, the applicant has been enjoying the benefit of the approval and consent conditions, while the neighbours and local community would be left in limbo if the extension of nearly 2 years were granted. This is unjust. The applicant should be well advanced in preparing the relevant plans and the court cases will either halt the extension entirely or only slightly modify it if at all. Rocla do not need two years to draw up their plans.

Please support and employ the wise voices of our precious community.

With Love and Gratitude,

Suzie Palmer
