To Whom It May Concern,

My wife and I am

vehemently against the proposed gas pipe line which is proposed to go through our property. You have no right to put this pipeline through private land, when it is so easy to put along the highway.

If you went along the highway - yes, trees would have to be disturbed, but the same would happen through private land and trees in country don't take long to regenerate. If the pipeline was along the highway it would be easier to service, which will have to happen from time to time.

I would like a reply as soon as possible.

Yours Faithfully  
David Wall.

P.S. I can't get a reply from Qld., Hunter Gas Pipeline.
