24 January 2012

Dear Sir

EXTENSION OF MINING MODIFICATION (06-0311 MODI)

The proposed extension area as noted in GSS Environmental Report (Section 75W modification to project approval 06-0311 dated January 2012) is situated within a proclaimed Mine Subsidence District.

The purpose of the District is to prevent damage through surface development controls that take account of the risk of damage by subsidence from old, current and future mining. The Mine Subsidence Board has no objection to the proposed modification as noted in the report.

Should you require any further information, please contact me on the number above.

Yours faithfully

Phil Alexander
District Manager
