Subject: Wallerawang Power Station Ash Dam - Construction Erosion and Sediment Control Plan

Dear Mr Pola

I refer to your submission, requesting approval of the Construction Erosion and Sediment Control Plan (Rev 04, dated 31/3/26). I also acknowledge your response to the Department's review comments and requests for additional information.

I note the Construction Erosion and Sediment Control Plan has been prepared in consultation with the Environment Protection Authority, has been endorsed by the environmental representative and contains the information required by the conditions of approval.

The Department has carefully reviewed the document and is satisfied that it meets the requirements of the relevant conditions in Project Approval MP07_0005. (Mod 2). Accordingly, as nominee of the Planning Secretary, I conditionally approve the Construction Erosion and Sediment Control Plan (Rev 04, dated 31/3/26).

The plan should be reviewed and updated if required:

- following the finalisation of the Rehabilitation Plan for the realignment of Sawyers Swamp Creek;
- following the approval of the modification for proposed future works; and/or
- as required by the project approval.

Please ensure you make the document publicly available on the project website at the earliest convenience.

If you wish to discuss the matter further, please contact Keren Halliday on (02) 8289 6444.

Yours sincerely

Stephen O'Donoghue
Director
Resource Assessments
As nominee of the Planning Secretary
