

Environmental Assessment Certification

This Environmental Assessment supports the submission of a Project Application under Part 3A of the Environmental Planning and Assessment Act 1979, for:

Construction and Operation of the Glen Innes Wind Farm on the Waterloo Range west of Glen Innes NSW

The Glen Innes Wind Farm construction and operation will be located on land described in Table 1.1 and as shown on Figure 1.5 of the Environmental Assessment.

Project Proponent
Environmental Assessment prepared for proponent based on proponent's project description, record of consultation and proposed measures to mitigate its impacts.

Mr Warren Murphy, Director
Glen Innes Wind Power Pty Ltd
Level 23, The Chifley Tower
2 Chifley Square
Sydney NSW 2000

Certification of

- Project Details
- Consultation
- Mitigation Measures presented in the Environmental Assessment.

I Warren Murphy,  Date: 24 October 2008

Signature

certify that the Environmental Assessment provides:

- a true representation of the proposed project
- accurately represents the consultation undertaken
- does not seek to materially mislead, and that
- Glen Innes Wind Power is committed to implementing the project environmental management measures set out in the Project's Statement of Commitments.
