Enviroking Pty Ltd
843 John Renshaw Drive
BLACK HILL NSW 2322

09/08/2021

Dear Mr Lodge

**Enviroking Liquid Waste Facility-3 (MP07_0048-Mod-3)
Planning Secretary's Environmental Assessment Requirements**

Please find attached a copy of the Planning Secretary's environmental assessment requirements (SEARs) for the modification application for the Enviroking Liquid Waste Facility (MP07_0048-Mod-3). Please note the Planning Secretary may modify these requirements at any time. Unfortunately, comments from the Environment Protection Authority were not available at the time of writing. These will be forwarded to you once received.

If you do not submit the modification application within two years, you must consult further with the Planning Secretary in relation to the preparation of the modification application.

The Department has reviewed the scope and potential environmental impacts of the proposed modification and considers the application meets the provisions of Section 4.55(2) of the Environmental Planning and Assessment Act 1979. Please ensure your application is prepared in accordance with regard to this subsection of the Act.

The Department wishes to emphasise the importance of effective and genuine community consultation where a comprehensive open and transparent community consultation engagement process must be undertaken during the preparation of the modification application. This process must ensure that the community is provided with a good understanding of what is proposed, a description of any potential impacts and that they are actively engaged in issues of concern to them.

Please contact the Department at least two weeks before you propose to submit your modification application. This will enable the Department to confirm the applicable fee (see Division 1AA, Part 15 of the Environmental Planning and Assessment Regulation 2000).

If the modification application is likely to have a significant impact on matters of National Environmental Significance, it will require an approval under the Commonwealth Environment Protection and Biodiversity Conservation Act 1999 (EPBC Act). This approval would be in addition to any approvals required under NSW legislation and it is your responsibility to contact the Commonwealth Department of the Environment and Energy to determine if an approval under the EPBC Act is required (<http://www.environment.gov.au> or 6274 1111).

If you have any questions, please contact David Schwebel on 9274 6400 or via email at david.schwebel@planning.nsw.gov.au.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'C. Ritchie', with a stylized flourish at the end.

Chris Ritchie
Director
Industry Assessments

as delegate for the Planning Secretary
