Fax: (02) 9228 6540

Adam Smith
Director
Planit Consulting
PO Box 1623
KINGSLIFF NSW 2487

Dear Mr Smith,

**RE: Major Project Application MP 07_0056 – 6 Storey Residential Apartment Building,
3-5 Tweed Terrace, Tweed Heads (Lots A and B in DP 407809)**

I refer to the above Major Project application lodged with the Department on 23-June-2008.

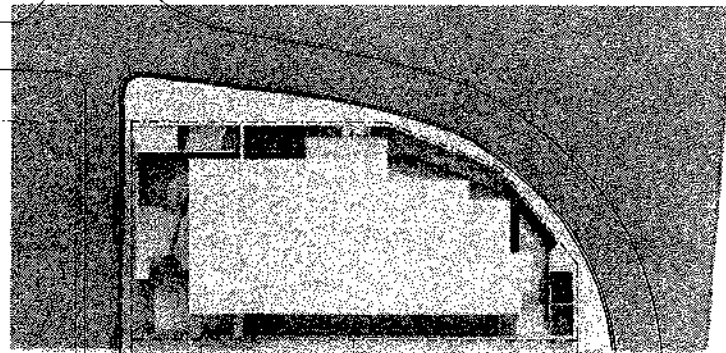

I am writing to inform you that the application has been granted consent, subject to conditions. The consent is on the basis of the attached Notice of Determination. A copy of the endorsed plans in accordance with the consent is also attached for your information.

Please note the development consent operates from the date of this letter.

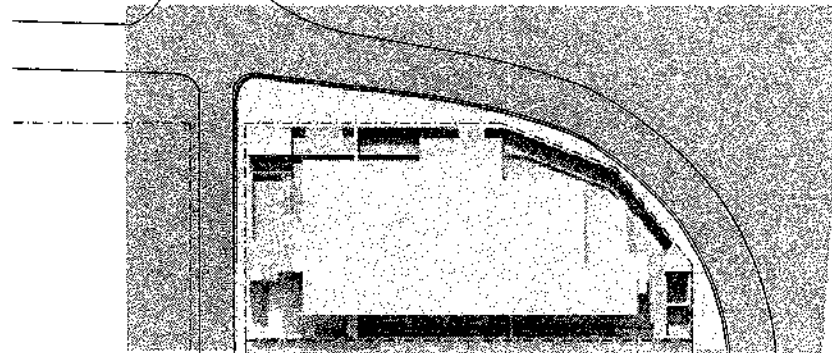

Should you have any enquiries regarding the above matter, please contact Sally Munk on 9228 6498 or email @planning.nsw.gov.au.

Yours sincerely,

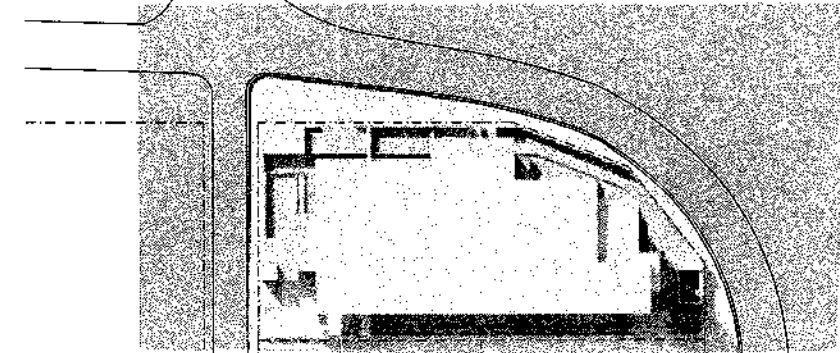

Heather Warton
Director, Coastal Assessment

			REV. C

TIMBER SOFFITS & COPPER TRIM

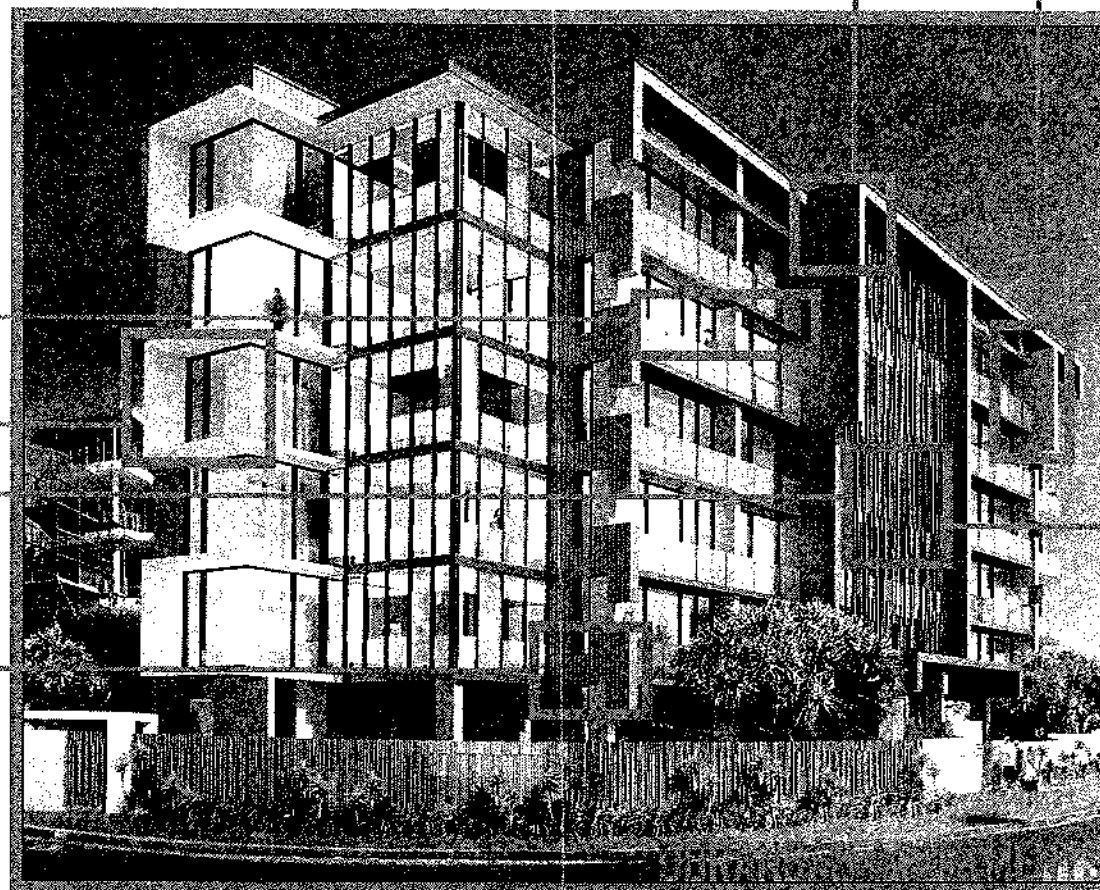

soffits to the terraces are clad in recycled timber harwood and finished with a copper trim. This feature compliments the interiors and creates a 'textured layering' in the appearance of the building, giving it a doemstic 'beachside' feel.

FACADE CLADDING

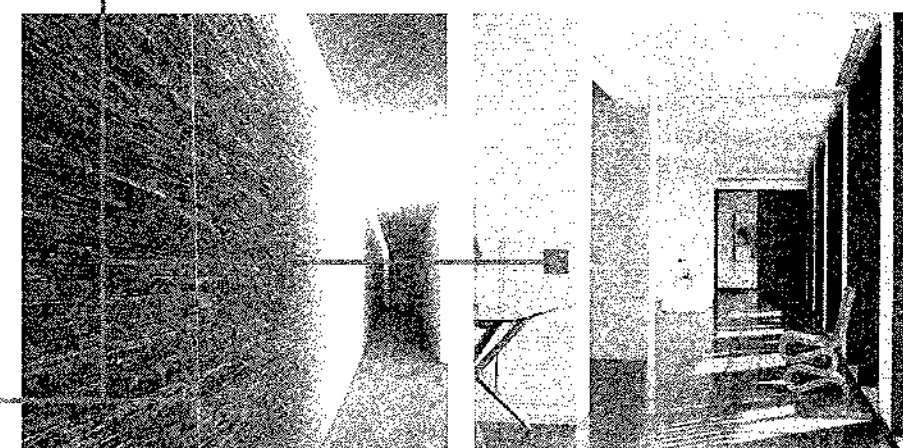

the lightweight vertically grooved cladding is responsive to the buildings beach environment whilst providing a juxtaposition to the textured elements of the natural stones & timbers. this material creates a crisp and clean wrap within which the simple & white frame of the building is contained.

distinctively unique
The use of white frame

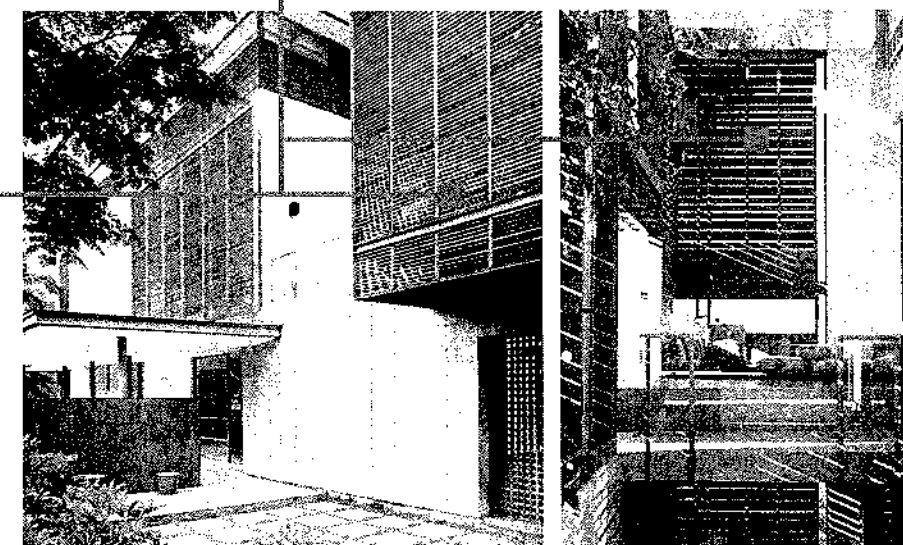

STONE CLADE

A limited extent of natural stone cladding highlights the structural components of the building whilst creating a unique juxtaposition within the simple building fabric. The stone colour was selected as a direct reference from the adjacent beaches and their implied natural colours.

TIMBER SCREEN

The recycled harwood timber screen is vertically arranged and designed to accommodate mixed depths providing a unique detail and sense of variation. The enviromentally sustainable screen performs several functions whilst preserving the aesthetic, including maintaining privacy and sufficiently minimizing solar heat gain.

FEATURE COLOURS

paint colours featured on the exterior of the building include dulux 'rogue' and dulux 'vivid white' which compliment the natural timbers and stones utilised on the buildings exterior to create a 'light' and substantially white appearance to the building as shown in the above example.

Do not scale from drawings. Dimensions are to be checked on site prior to commencement of work. Discrepancies to be brought to the attention of the author.
Electronic drawings are uncontrolled documents and are issued for information only. Any dimensions not nominated must be referred to the Architect for confirmation.
