Content:
Hello,

I strongly oppose this application to extend the Apex exploration project.

1. The project has had very large scale community opposition which should be heeded.
2. The premier made an election commitment not to proceed with CSG at the expense of other important land uses, including water catchment in the case of this project.
3. An indefinite extension is completely inappropriate given the changing understandings of this kind of project and its effect on the surrounding environment.
4. Further study of the possible impacts and impacts of drilling elsewhere should be undertaken before any further exploration occurs in this sensitive area.

Regards,
Daniel Heckenberg
