Content:

I am totally opposed to this proposal, as follows:

1. An indefinite start date for this project is totally irresponsible.
2. CSG mining is risky. There is plenty of evidence around proving this.
3. Our drinking water catchments MUST be protected from CSG and other mining activities.
4. The Illawarra Escarpment is a high bush fire risk area.
5. There needs to be a total moratorium on all CSG projects until the "science" has been completed. This "science" must be conducted by independent bodies.
