37 Domville Road

Otford, NSW
2508

Content:

I am a very concerned resident of Otford. I want the NSW Government to refuse the application for extension for the Coal Seam Gas entitlements made by APEX Energy, thereby honouring the pre-election promise to No CSG mining in water catchments made by the Premier. This is our drinking water!!! I am extremely concerned about the health implications that coal seam gas extraction will have on the water supply that myself and my family and friends use and there has not been enough research into the environmental impacts of CSG mining. There is also the increased risk and intensity of bushfires and damage to the sandstone geology.
