To Whom it May Concern,

I am writing to you to point out that there is widespread public disapproval of Coal Seam Gas Exploration/Mining(CSG) . This seems to have bypassed your information base. A drive down my street will verify that almost every resident in Lawrence Hargrave Drive is opposed to the very idea of CSG.

I am opposed to the very thought of CSG mining in a water catchment area. Barry O'Farrell himself claimed as a pre-election promise that it would not occur. Secondly, it appears CSG is trying to extract gas from areas that have been extensively mined. This is at least foolhardy, for areas such as the Illawarra escarpment for reasons that are obvious to anyone.

The short term benefit of money for your current government from CSGmining does not take into consideration long term effects on the environment.

I urge you to do the right thing, listen to public opinion, and reject coal seam gas mining and exploration.
